

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

## THE UNITED STATES NAVAL ACADEMY.

---

The United States Naval Academy was founded in 1845 by the Hon. George Bancroft, Secretary of the Navy, in the Administration of President James K. Polk. It was formally opened October 10 of that year under the name of the Naval School, with Commander Franklin Buchanan as superintendent. It was placed at Annapolis, Md., on the land occupied by Fort Severn, which was given up by the War Department for the purpose. The course was fixed at five years, of which only the first year and the last were spent at the school, the intervening three years being passed at sea. This arrangement was not strictly adhered to, the exigencies of the service making it necessary, in many cases, to shorten the period of study. In January, 1846, four months after the opening of the school, the students consisted of thirty-six midshipmen of the date of 1840, who were preparing for the examination for promotion; thirteen of the date of 1841, who were to remain until drafted for service at sea; and seven acting midshipmen, appointed after September of the previous year. The midshipmen of the date of 1840 were the first to be graduated, finishing their limited course in July, 1846, and they were followed in order by the subsequent dates until the reorganization of the school in 1850.

In September, 1849, the following board was appointed to revise the plan and the regulations of the Naval School:

Commander William B. Shubrick,  
Commander Franklin Buchanan,  
Commander Samuel F. Du Pont,  
Commander George P. Upshur,  
Surgeon W. S. W. Ruschenberger,  
Professor William Chauvenet,  
Captain Henry Brewerton, United States Army.

The plan reported by the board was approved, and went into operation July 1, 1850. The new organization provided for a course of seven years, the first two and the last two at the school, and the three intermediate years at sea. The school was placed under the supervision of the Bureau of Ordnance and Hydrography, and its name was changed to the United States Naval Academy. The corps of professors was enlarged, the course was extended, and the system of separate departments with executive heads was fully adopted. It was provided that a Board of Visitors should make an annual inspection of the Academy and report upon its condition to the Secretary of the Navy. A suitable vessel was attached to the Academy as a practice ship, and the annual practice cruises were begun.

After the system had been in operation a year new changes were proposed, and the recommendations of the academic board on the subject were referred to the board of examiners for the year 1851, composed of the following-named officers:

Commodore David Conner,  
Captain Samuel L. Breese,  
Commander C. K. Stribling,  
Commander A. Bigelow,  
Commander Franklin Buchanan,  
Lieutenant Thomas T. Craven.

The change recommended by the board of examiners, and adopted by the Department, consisted mainly in leaving out the requirement of three years of sea service in the middle of the course, thus making the four years of study consecutive. The practice cruise supplied the place of the omitted sea service, and gave better opportunities for training. The change went into operation in November, 1851, together with other improvements recommended by the

board. This system has been continued, with some slight modifications, to the present time. The first class to receive the benefit of it was that which entered in 1851. Six members of this class completed the course in three years and were graduated in June, 1854; the rest of the class followed in 1855.

In May, 1861, on the outbreak of the war, the Academy was moved to Newport, R. I. The three upper classes were detached and ordered to sea, and the remaining acting midshipmen were quartered in the Atlantic House and on board the frigates *Constitution* and *Santee*. In the summer of 1865 the Academy was brought back to Annapolis, where it has since remained.

When the Bureau of Navigation was established, July 5, 1862, the Academy was placed under its supervision; March 1, 1867, it was placed under the direct care and supervision of the Navy Department, the administrative routine and financial management being still conducted through the Bureau. On the 11th of March, 1869, this official connection with the Bureau ceased, but was renewed by the general order of the Navy Department issued June 25, 1889.

The term of the academic course was changed by law, March 3, 1873, from four to six years. The change took effect with the class that entered in the following summer.

In 1866 a class of acting third assistant engineers was ordered to the Academy for instruction. The course embraced the subjects of steam engineering, mechanism, chemistry, mechanics, and practical exercises with the steam engine and in the machine shop. This class was graduated in June, 1868, together with two cadet engineers who had entered the Academy in 1867. After an interval of four years, in October, 1871, a new class of cadet engineers was admitted. This class followed a two years' course, somewhat more extended than that of the class of 1868, and was graduated in 1873. In 1872 and 1873 new classes were admitted, the first of which left the Academy in 1874 and the second in 1875. By an act of Congress approved February 24, 1874, the course of instruction for cadet engineers was made four years instead of two; the new provision was first applied to the class entering the Academy in the year 1874. This class was graduated in June, 1878.

By an act of Congress approved August 5, 1882, it was provided that from that date "there shall be no appointments of cadet-midshipmen or cadet-engineers at the Naval Academy, but in lieu thereof naval cadets shall be appointed from each Congressional district and at large, as now provided by law for cadet-midshipmen, and all the undergraduates at the Naval Academy shall hereafter be designated and called 'naval cadets;' and from those who successfully complete the six years' course, appointments shall hereafter be made as it is necessary to fill vacancies in the lower grades of the Line and Engineer Corps of the Navy and of the Marine Corps: *And provided further*, That no greater number of appointments into these grades shall be made each year than shall equal the number of vacancies which has occurred in the same grades during the preceding year; such appointments to be made from the graduates of the year, at the conclusion of their six years' course, in the order of merit, as determined by the academic board of the Naval Academy; the assignment to the various corps to be made by the Secretary of the Navy upon the recommendation of the academic board. But nothing herein contained shall reduce the number of appointments from such graduates below ten in each year, nor deprive of such appointment any graduate who may complete the six years' course during the year eighteen hundred and eighty-two. And if there be a surplus of graduates, those who do not receive such appointment shall be given a certificate of graduation, an honorable discharge, and one year's sea pay, as now provided by law for cadet-midshipmen; and so much of section fifteen hundred and twenty-one of the Revised Statutes as is inconsistent herewith is hereby repealed."

"That any cadet whose position in his class entitles him to be retained in the service may, upon his own application, be honorably discharged at the end of the four years' course at the Naval Academy, with a proper certificate of graduation."

In 1886 a special course of instruction in physiology and hygiene was established, in accordance with an act of Congress approved May 20 of that year.

The act of Congress approved March 2, 1889, provides that "the Academic Board of the Naval Academy shall on or before the thirtieth day of September in each year separate the first class of naval cadets then commencing their fourth year into two divisions, as they may have shown special aptitude for the duties of the respective corps, in the proportion which the aggregate number of vacancies occurring in the preceding fiscal year ending on the thirtieth day of June in the lowest grades of commissioned officers of the Line of the Navy and Marine Corps of the Navy shall bear to the number of vacancies to be supplied from the Academy occurring during the same period in the lowest grade of commissioned officers of the engineer corps of the Navy; and the cadets so assigned to the Line and Marine Corps division of the first class shall thereafter pursue a course of study arranged to fit them for service in the Line of the Navy, and the cadets so assigned to the Engineer Corps division of the first class shall thereafter pursue a separate course of study arranged to fit them for service in the Engineer Corps of the Navy, and the cadets shall thereafter, and until final graduation, at the end of their six years' course, take rank by merit with those in the same division, according to the merit marks; and from the final graduates of the Line and Marine Corps division, at the end of their six years' course, appointments shall be made hereafter as it shall be necessary to fill vacancies in the lowest grades of commissioned officers of the Line of the Navy and Marine Corps; and the vacancies in the lowest grades of the commissioned officers of the Engineer Corps of the Navy shall be filled in like manner by appointments from the final graduates of the Engineer division at the end of their six years' course: *Provided*, That no greater number of appointments into the said lowest grades of commissioned officers shall be made each year than shall equal the number of vacancies which shall have occurred in the same grades during the fiscal year then current; such appointments to be made from the final graduates of the year, in the order of merit as determined by the Academic Board of the Naval Academy, the assignment to be made by the Secretary of the Navy upon the recommendation of the Academic Board at the conclusion of the fiscal year then current; but nothing contained herein or in the naval appropriation act of August fifth, eighteen hundred and eighty-two, shall reduce the number of appointments of final graduates at the end of their six years' course below twelve in each year to the Line of the Navy, and not less than two shall be appointed annually to the Engineer Corps of the Navy, nor less than one annually to the Marine Corps; and if the number of vacancies in the lowest grades aforesaid, occurring in any year shall be greater than the number of final graduates of that year, the surplus vacancies shall be filled from the final graduates of following years, as they shall become available."

"That after the fourth day of March, eighteen hundred and eighty-nine, the minimum age of admission of cadets to the Academy shall be fifteen years and the maximum age twenty years."

In October, 1897, a post-graduate course in Naval Architecture, for the education of officers for the Construction Corps of the Navy, was established; and a class was formed from the naval cadets that had finished the four years' course in that year.

By an act of Congress, approved March 3, 1899, "the officers constituting the Engineer Corps of the Navy" were "transferred to the Line of the Navy," thereby repealing so much of the act of Congress, approved March 2, 1889, as relates to the separation of naval cadets of the first class into Line and Engineer divisions.

This same act having limited the number of Constructors in the Navy to forty, the post graduate course in Naval Architecture was discontinued.

This same act having limited the number of Constructors in the Navy to forty, the post graduate course in Naval Architecture was discontinued.

By an act of Congress approved June 7, 1900, it was provided that—

“Whenever any naval cadet shall have finished four years of his undergraduate course of six years the succeeding appointment may be made from his Congressional district or at large in accordance with the existing law.”

By an act of Congress approved July 1, 1902, it was provided that—

“The title ‘naval cadet’ is hereby changed to ‘midshipman.’

“That until the year nineteen hundred and fourteen, in addition to the naval cadets now authorized by law (the title having been changed by this act to midshipmen), the President shall appoint five midshipmen, and there shall be appointed from the States at large, upon the recommendation of Senators, two midshipmen for each State.”

By an act of Congress approved March 3, 1903, it was provided that—

“There shall be allowed at the Naval Academy two midshipmen for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, and five each year at large: *Provided*, That the additional Congressional appointments authorized by this Act shall be made at such times as may be determined by the Secretary of the Navy, who shall equitably distribute the increase among the several States, Districts, and Territories, so that ultimately, if practicable, each Senator, Representative, and Delegate may recommend for appointment during each Congress one midshipman. *Provided further*, That members of the Fifty-seventh Congress who will not be members of the Fifty-eighth Congress, and in whose Districts or States appointments have not been made or vacancies filled in the Fifty-seventh Congress, may immediately upon the passage of this Act make the additional appointments herein provided for.

“The Secretary of the Navy shall as soon as practicable after the fifth day of March in each year notify in writing each Senator, Representative, and Delegate in Congress of any vacancy which may be regarded as existing in the State, District, or Territory which he represents, and the nomination of a candidate to fill such vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate. Such recommendation shall be made by the first day of June of that year, and if not so made the Secretary of the Navy shall fill the vacancy by the appointment of an actual resident of the State, District, or Territory in which the vacancy exists, who shall have been for at least two years immediately preceding his appointment an actual bona fide resident of the State, District, or Territory in which the vacancy exists and shall have the qualifications otherwise prescribed by law: *And provided further*, That the Superintendent of the Naval Academy shall make such rules, to be approved by the Secretary of the Navy, as will effectually prevent the practice of hazing; and any cadet found guilty of participating in or encouraging or countenancing such practice shall be summarily expelled from the Academy, and shall not thereafter be reappointed to the Corps of Cadets or be eligible for appointment as a commissioned officer in the Army or Navy or Marine Corps until two years after the graduation of the class of which he was a member.

“That the provisions of this Act for the increase of appointments of midshipmen to the Naval Academy shall continue in force until the thirtieth day of June, nineteen hundred and thirteen; and thereafter one midshipman, as now provided by law, shall be appointed for each Senator, Representative, and Delegate in Congress.

“That hereafter there shall be at the Naval Academy one midshipman from Porto Rico, who shall be a native of said island, and whose appointment shall be made by the President on the recommendation of the governor of Porto Rico.

“That after January first, nineteen hundred and four, all candidates for admission to the Naval Academy at the time of their examination must be between the ages of sixteen and twenty years.”

## MERIT ROLLS FOR 1903-1904.

---

Merit rolls, made out annually for each class, show the proficiency of the midshipmen in each branch of study. The numbers given in the table, showing the relative weight of the different branches, are used as coefficients; the final mark in each branch (on a scale of 4) being multiplied by the number assigned to that branch. The sum of the products, after adding the multiple for discipline, is the final mark of the midshipmen for the year.

In the case of midshipmen that take an advanced course in any branch, the final mark in that branch is determined by adding to the final mark received in the required course one-fifth of the amount by which the final mark in the advanced course exceeds 2.50.

In the graduating merit roll, the final standing for the course is determined by the sum of the yearly marks.

"Midshipmen who attain 85 per cent of the multiple in any year shall be distinguished by a star affixed to their names on the merit rolls." (Regulations United States Naval Academy, par. 186.)

The diplomas of midshipmen whose final marks on the graduating merit roll are not less than 85 per cent of the maximum read, "passed with distinction;" those whose final marks are between 74 per cent and 85 per cent of the maximum read, "passed with credit;" and those whose final marks are between 62½ per cent and 74 per cent of the maximum read "passed."

---

\*Received 85 per cent of the multiple.

†Found deficient, allowed a reexamination, passed, and continued with class.

††Found deficient in conduct, passed, and continued with class.

\* Retained in next lower class.

a Absent from examination.

## REGULATIONS GOVERNING THE ADMISSION OF CANDIDATES INTO THE NAVAL ACADEMY AS MIDSHIPMEN.

### NOMINATION.

I. The students at the Naval Academy shall be styled *Naval Cadets*.—(*Rev. Stat.*, § 1512, and *Act of Congress approved August 5, 1882*.) The title "naval cadet" is hereby changed to "midshipman."—(*Act approved July 1, 1902*.)

II. There shall be allowed at said Academy one Naval Cadet for every Member or Delegate of the House of Representatives, one for the District of Columbia, and ten at large.—(*Rev. Stat.*, § 1513, and *Act of Congress approved June 17, 1878*.) *Provided, however*, That there shall not be at any time more in said Academy appointed at large than ten.—(*Act of Congress approved August 5, 1882*.)

That until the year nineteen hundred and fourteen, in addition to the naval cadets now authorized by law, (the title having been changed by this Act to midshipmen), the President shall appoint five midshipmen, and there shall be appointed from the States at large, upon the recommendation of Senators, two midshipmen for each State.—(*Act of Congress approved July 1, 1902*.)

There shall be allowed at the Naval Academy two midshipmen for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, and five each year at large: *Provided*, That the additional Congressional appointments authorized by this Act shall be made at such times as may be determined by the Secretary of the Navy, who shall equitably distribute the increase among the several States, Districts, and Territories, so that ultimately, if practicable, each Senator, Representative, and Delegate may recommend for appointment during each Congress one midshipman. *Provided further*, That members of the Fifty-seventh Congress who will not be members of the Fifty-eighth Congress, and in whose Districts or States appointments have not been made or vacancies filled in the Fifty-seventh Congress, may immediately upon the passage of this Act make the additional appointments herein provided for.—(*Act approved March 3, 1903*.)

That the provisions of this Act for the increase of appointments of midshipmen to the Naval Academy shall continue in force until the thirtieth day of June, nineteen hundred and thirteen; and thereafter one midshipman, as now provided by law, shall be appointed for each Senator, Representative, and Delegate in Congress.

That hereafter there shall be at the Naval Academy one midshipman from Porto Rico, who shall be a native of said island, and whose appointment shall be made by the President on the recommendation of the governor of Porto Rico.—(*Act approved March 3, 1903*.)

III. The course of Naval Cadets is six years.—(*Rev. Stat.*, § 1520.) Whenever any Naval Cadet shall have finished four years of his undergraduate course of six years the succeeding appointment may be made from his Congressional district or at large in accordance with existing law.—(*Act approved June 7, 1900*.)

IV. Appointments to fill all vacancies that may occur during a year in the lower grades of the Line of the Navy and of the Marine Corps will be made from the Naval Cadets, graduates of the year, at the conclusion of their six years' course, in the order of merit as determined by the Academic Board of the Naval Academy. At least fifteen appointments from such graduates will be

made each year. Surplus graduates who do not receive such appointments will be given a certificate of graduation, an honorable discharge, and one year's sea pay, as provided for Naval Cadets.—(*Act of Congress approved August 5, 1882.*)

V. The Secretary of the Navy shall as soon as practicable after the fifth day of March in each year notify in writing each Senator, Representative, and Delegate in Congress of any vacancy which may be regarded as existing in the State, District, or Territory which he represents, and the nomination of a candidate to fill such vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate. Such recommendation shall be made by the first day of June of that year, and if not so made the Secretary of the Navy shall fill the vacancy by the appointment of an actual resident of the State, District, or Territory in which the vacancy exists, who shall have been for at least two years immediately preceding his appointment an actual bona fide resident of the State, District, or Territory in which the vacancy exists and shall have the qualifications otherwise prescribed by law: *And provided further, That the Superintendent of the Naval Academy shall make such rules, to be approved by the Secretary of the Navy, as will effectually prevent the practice of hazing; and any cadet found guilty of participating in or encouraging or countenancing such practice shall be summarily expelled from the Academy, and shall not thereafter be reappointed to the Corps of Cadets or be eligible for appointment as a commissioned officer in the Army or Navy or Marine Corps until two years after the graduation of the class of which he was a member.*—(*Act of Congress approved March 3, 1903.*)

VI. "Candidates allowed for Congressional Districts, for Territories, and for the District of Columbia, must be actual residents of the districts or Territories, respectively, from which they are nominated. *And all candidates must, at the time of their examination for admission, be between the ages of \*sixteen and twenty years, and physically sound, well formed, and of robust constitution.*"—(*Rev. Stat., § 1517.*)

VII. Examinations for the admission of candidates will be held at various points throughout the United States, under the supervision of the Civil Service Commission, on the third Tuesday in April. Candidates are examined mentally *only* at this examination. All those qualifying mentally, who are entitled to appointment in order of nomination, will be notified by the Superintendent of the Naval Academy to report at the Academy for physical examination about June 10, and, if physically qualified, will be appointed.

The second and last examination will be held at Annapolis, Md., *only*, on the third Tuesday in June, under the supervision of the Superintendent of the Naval Academy, and all those qualifying mentally, who are entitled to appointment in order of nomination, will be directed to report for physical examination as soon as practicable at the Naval Academy.

Members and Delegates in Congress having the appointment of a midshipman to make are authorized to nominate one principal and five alternates. The alternates are to be numbered from one to five and appointment made in the same order, i. e., if the principal passes, he is to be appointed, but if the principal should fail, and the first alternate qualify, the first alternate is to be appointed. In case the principal and the first alternate should fail, and the second alternate qualify, the second alternate is to be appointed, and so on down the list, in regular numerical order, until the fifth alternate is reached and included.

The successful candidates will be ordered to report to the Superintendent of the Academy for physical examination.

Candidates will be required to enter the Academy immediately after passing the prescribed examination.

*No leave of absence will be granted to midshipmen of the fourth class.*

## EXAMINATION.

VIII. "*All candidates for admission to the Academy shall be examined according to such regulations and at such stated times as the Secretary of the Navy may prescribe. Candidates rejected at such examination shall not have the privilege of another examination for admission to the same class unless recommended by the Board of Examiners.*"—(*Rev. Stat.*, § 1515.)

IX. "When any candidate who has been nominated upon the recommendation of a Member or Delegate of the House of Representatives is found, upon examination, to be physically or mentally disqualified for admission, the Member or Delegate shall be notified to recommend another candidate, who shall be examined according to the provisions of the preceding section."—(*Rev. Stat.*, § 1516.)

X. Candidates will be examined physically at the Naval Academy, by a board composed of three medical officers of the Navy. Any one of the following conditions will be sufficient to cause the rejection of a candidate, viz:

Feeble constitution, inherited or acquired;  
Retarded development;  
Impaired general health;  
Decided cachexia, diathesis, or predisposition;  
Any disease, deformity, or result of injury that would impair efficiency;  
such as—

Weak or disordered intellect;  
Cutaneous or communicable disease;  
Unnatural curvature of the spine, torticollis, or other deformity;  
Inefficiency of either of the extremities or large articulations from any cause;  
Epilepsy or other convulsions within five years;  
Impaired vision, disease of the organs of vision, imperfect color sense; visual acuteness must be normal in both eyes;  
Impaired hearing or disease of the ear;  
Chronic nasal catarrh, ozæna, polypi, or great enlargement of the tonsils;  
Impediment of speech to such an extent as to impair efficiency in the performance of duty;

Disease of heart or lungs or decided indications of liability to cardiac or pulmonary affections;

Hernia, complete or incomplete, and undescended testis;  
Varicocele, sarcocele, hydrocele, stricture, fistula, hemorrhoids, or varicose veins of lower limbs;

Disease of the genito-urinary organs;

Chronic ulcers, ingrowing nails, large bunions, or other deformity of the feet;  
Loss of many teeth, or teeth generally unsound.

Attention will also be paid to the stature of the candidate, and no one manifestly under size for his age will be received at the Academy. The height of candidates for admission shall not be less than 5 feet 2 inches between the ages of 16 and 18 years, and not less than 5 feet 4 inches between the ages of 18 and 20 years; and the minimum weight at 16 years of age shall be 100 pounds, with an increase of not less than 5 pounds for each additional year, or fraction of a year over one-half. Any marked deviation in the relative height and weight to the age of a candidate will add materially to the consideration for rejection.

XI. Candidates will be examined mentally in writing, punctuation, spelling, arithmetic, geography, English grammar, United States history, world's history, algebra through quadratic equations, and plane geometry (five books of Chauvenet's *Geometry*, or an equivalent). Deficiency in any one of these subjects may be sufficient to insure the rejection of the candidate.

## GENERAL CHARACTER OF THE EXAMINATION.

**READING AND WRITING.**—Candidates must be able to read understandingly, and with proper accent and emphasis, and to write legibly, neatly, and rapidly.

**SPELLING.**—They must be able to write, from dictation, paragraphs from standard pieces of English literature, both prose and poetry, sufficient in number to test fully their qualifications in this branch. The spelling throughout the examination will be considered in marking the papers. The Academic Board are instructed not to reject a candidate whose only deficiency is in spelling when the mark therefor is above a certain figure, to be fixed by the board, subject to the revision of the department.

**PUNCTUATION AND CAPITALS.**—They must be familiar with the rules for punctuation and for the use of capitals. In order to test their knowledge, sentences will be given for correction.

**GRAMMAR.**—Candidates must exhibit thorough familiarity with English grammar; they must be able to analyze and parse any sentence given, showing clearly the relations between the different parts of speech, and giving the rules governing those relations. The subject and predicate in the sentence must be given, with modifiers (if any), and also the part of speech, and kind, case, voice, mood, tense, number, person, degree of comparison, etc., as the case may be, of each word, and its relation to other words in the sentence.

They must be able to define the terms used in grammar, a number of which will be given as a test of their knowledge.

A composition on one of three subjects will be required.

Since the school grammars used in different parts of the country vary among themselves in their treatment of certain words, an answer approved by any grammar of good repute will be accepted.

**GEOGRAPHY.**—Candidates will be required to pass a satisfactory examination in descriptive geography, particularly of our own country. Questions will be given under the following heads: The definitions of latitude and longitude; the zones; the grand divisions of land and water; the character of coast lines; the climate of different parts of the United States; trade winds; the direction and position of important mountain chains and the locality of the higher peaks; the position and course of the principal rivers, their tributaries, and the bodies of water into which they flow; the position of important seas, bays, gulfs, and arms of the sea; the position of independent States, their boundaries and capital cities; the position and direction of great peninsulas and the situation of important and prominent capes, straits, sounds, channels, and the most important canals, great lakes, and inland seas; position and political connection of important islands and colonial possessions; location of cities of historical, political, or commercial importance, attention being especially called to the rivers and bodies of water on which cities are situated; the course of a vessel in making a voyage between well-known ports.

The candidate's knowledge of the geography of the United States can not be too full or specific on all the points referred to above. Accurate knowledge will also be required of the position of the country with reference to other States, and with reference to latitude and longitude, of the boundaries and relative position of the States and Territories, of the name and position of their capitals, and of other important cities and towns.

**UNITED STATES HISTORY.**—The examination in this branch will include questions concerning the early settlements in this country; the forms of government in the colonies; the causes, leading events, and results of wars; and prominent events in the history of our Government since its foundation.

**WORLD'S HISTORY.**—Candidates must be familiar with the general history of the world, including the rise and the fall of empires and of dynasties; changes

in territory as the result of wars or from other causes; the most important treaties of peace; the relations between church and state in different countries; in brief, such information as may be found in the ordinary general histories.

**ARITHMETIC.**—The candidate will be required—

To express in figures any whole, decimal, or mixed number; to write in words any given number; to perform with facility and accuracy the various operations of addition, subtraction, multiplication, and division of whole numbers, whether abstract or compound, and to use with facility the tables of money, weights, and measures in common use, including English money.

To reduce compound numbers from one denomination to another, and to express them as decimals or fractions of a higher or lower denomination; to state the number of cubic inches in a gallon and the relation between the troy and avoirdupois pounds, and to reduce differences of time to differences of longitude and *vice versa*.

To define prime and composite numbers; to give the tests of divisibility by 3, 5, 7, 9, 11, 25, and 125; to resolve numbers into their prime factors, and to find the least common multiple and the greatest common divisor of large as well as of small numbers.

To be familiar with all the processes of common and decimal fractions; to give clearly the reasons for such processes, and to be able to use the contracted methods of multiplication and division given in the ordinary text-books on arithmetic.

To define ratio and proportion, and to solve problems in simple and compound proportion.

To solve problems involving the measurement of rectangular surfaces and of solids; to find the square roots and the cube roots of numbers, and to solve simple problems under percentage, interest, and discount.

The candidates are required to possess such a thorough understanding of all the fundamental operations of arithmetic as will enable them to apply the various principles to the solution of any complex problem that can be solved by the methods of arithmetic; in other words, they must possess such a complete knowledge of arithmetic as will enable them to proceed at once to the higher branches of mathematics without further study of arithmetic.

**ALGEBRA.**—The examination in algebra will include questions and problems upon the fundamental rules, factoring, greatest common divisor, least common multiple, algebraic fractions, equations of the first degree with one or more unknown quantities, simplification of expressions involving surds, and the solution and theory of quadratic equations.

**GEOMETRY.**—In geometry candidates will be required to give accurate definitions of terms used in plane geometry, to demonstrate any proposition of plane geometry as given in the ordinary text-books, and to solve simple geometrical problems, either by a construction or by an application of algebra.

### QUESTIONS AT EXAMINATION FOR ADMISSION, APRIL, 1903.

Series No. 6.  
Apr., 1903.

UNITED STATES CIVIL SERVICE COMMISSION.

SHEET 1.

#### EXAMINATION FOR ADMISSION TO THE UNITED STATES NAVAL ACADEMY.

Candidate must fill (Time commenced, —, Date, —, Examination No., —,  
three blanks. { Time finished, —, Place of examination, —.

N. B.—Do not write on this sheet. Blank sheets will be furnished for the answers to the questions hereon. Number answers to correspond with numbers of questions.

Write only on the ruled side of the blank sheets furnished.

Begin each subject on a new sheet. Do not abbreviate, except in parsing.

Time allowed for this sheet, 4 hours. It is suggested that this time be apportioned approximately as follows: Punctuation, 15 minutes; Grammar, 1 hour 45 minutes; Geography, 1 hour; U. S. History, 1 hour.

The punctuation, spelling, and use of language throughout the whole examination will be considered in marking the papers.

## FIRST SUBJECT—PUNCTUATION AND CAPITALS.

Punctuate and capitalize the following:

the discourse consisted of two parts in the first was shown the necessity of exercise in the second the advantages that would result from it

mid such a heavenly scene as this death is an empty name  
thou lt yet survive the storm and bloom in paradise  
methought that i lay naked and faint neath a tropic sky  
if i d a throne i d freely share it with thee  
that lesson in my memory i ll treasure up with care  
i might have lived and joyed immortal bliss

## SECOND SUBJECT—GRAMMAR.

1. (a) Name the part of speech to which words italicized belong: (1) He spoke in low *gentlemanly* tones. (2) I saw *that* he could not reach that limb. (3) I think you look *like* her. (4) He *only* smiled in answer to her question.

(b) Name the case of italicized words, giving reasons: (1) *What* were you toying with? (2) *Who* do you think I am? (3) To *you* belongs the credit. (4) I want my son to be a *sailor*.

2. (a) Write sentences containing: (1) An adjective phrase; (2) an adverbial clause; (3) a substantive clause the object of a preposition; (4) an adverbial phrase modifying an adjective. (Underscore the phrase or clause referred to.)

(b) Correct the following sentences (make no unnecessary changes): (1) He don't look much like his famous uncle. (2) I feel like it is going to rain. (3) I wish he was here. (4) Though he seemed confused, he spoke like a honest man.

3. Analyze the following sentence (do not use diagrams):

The English frigates having spoken a brig that had sighted the Constitution, sailed south before they could verify the presence of an enemy.

4. Parse the italicized words in the following: *With the greatest deference, we beg leave to suggest that a powerful army on the side of America hath been considered* by this Congress as the *only* means left to stem the rapid progress of a tyrannical *ministry*.

5. Write an essay of about one page on one of the following subjects:

(1) The description of some machine. (2) My reasons for coming to the Naval Academy. (3) Napoleon Bonaparte.

## THIRD SUBJECT—GEOGRAPHY.

1. Fix the position of the following-named places: (a) Austin; (b) Acapulco; (c) Cienfuegos; (d) Pernambuco; (e) Bordeaux; (f) Bergen; (g) Palermo; (h) Hull; (k) Rangoon; (l) Hankow.

2. Bound the following States: (a) Delaware; (b) Kansas; (c) Mississippi. Name and locate accurately the capital of each of the following States: (a) Maine; (b) New Jersey; (c) Georgia; (d) Colorado; (e) Washington.

3. (a) Fix the position of the following islands and state to what country each island or each group belongs: (1) St. Kitts; (2) Tonga Islands; (3) Caroline Islands; (4) Leyte; (5) Tutuila.

(b) Fix the positions of the following bodies of water: (1) Mindoro Strait; (2) Lake Victoria; (3) Gulf of Pechili; (4) Lake Onega; (5) Casco Bay.

4. (a) What is the equator? (b) How are latitude and longitude measured? (c) When it is 1:00 p. m. at Greenwich, what time is it at Shanghai, in Long. 120° E.? (d) Ottawa is in Long. 75° W. When it is noon at Ottawa, in what longitude is a place where it is 4:00 p. m.?

5. (a) ~~Make a voyage from Yokohama to St. Louis via Hong Kong and the Suez Canal, naming in the proper order the waters passed through.~~  
(b) Name and locate exactly seven important ports that might be visited.

**FOURTH SUBJECT—UNITED STATES HISTORY.**

1. Give some account of the following: (1) Sir Francis Drake; (2) Champlain; (3) John C. Fremont; (4) Patrick Henry.
2. Of whom was the Plymouth Company composed? What territory was granted them? When and where was the first Colonial Assembly? When was the battle of Brandywine fought, and who was victorious? When was the battle of Shiloh fought, and who commanded?
3. When was the national flag adopted? Describe it. What were some of the most important naval victories for the Americans in 1812? When was the battle of Murfreesboro fought, and which army was victorious? What were the Alien and Sedition Laws?
4. Explain the Tenure of Office Act. Give an account of the Peninsular Campaign. Describe Sherman's "March to the Sea," after the burning of Atlanta. How was Alaska obtained? What were the "X. Y. Z. Papers"?

**SHEET 2.**

Candidate must fill these blanks. { Time commenced, \_\_\_\_\_. Date, \_\_\_\_\_. Examination No., \_\_\_\_\_.  
Time finished, \_\_\_\_\_. Place of examination, \_\_\_\_\_.

**FIFTH SUBJECT—WORLD'S HISTORY.**

**N. B.—Do not write on this sheet. Blank sheets will be furnished for the answers to the questions hereon. Number answers to correspond with numbers of questions.**

**Write only on the ruled side of the blank sheets furnished.**

Time allowed for the subjects of World's History, Reading, and Spelling together is 2 hours. About 1½ hours are allowed for this subject.

**Question 1.** (a) Where was Phœnicia situated and for what was it chiefly noted? (b) What was the source of wealth of the inhabitants and what were their principal colonies? (c) Give a brief account of the Second Punic War, including in it the cause, date, duration, names of opposing generals, important battles, and the final result. (d) Who was Archimedes and for what was he noted?

**Question 2.** Give a brief account of the War of the Roses, stating cause, dates, important battles, and results.

**Question 3.** Give an account of the following-named men: (a) Admiral Coligny; (b) Robespierre; (c) Martin Luther; (d) Nathaniel Hawthorne; (e) Warren Hastings.

**Question 4.** (a) Write about the formation of the present German Empire. (b) Give a brief account of the Franco-Prussian War, giving cause, date, principal events, results, and the terms of the final treaty of peace.

**SIXTH SUBJECT—READING (omitted).**

SHEET 4.

Candidate must fill these blanks. { Time commenced, \_\_\_\_\_. Date, \_\_\_\_\_. Examination No., \_\_\_\_\_.  
Time finished, \_\_\_\_\_. Place of examination, \_\_\_\_\_.

### SEVENTH SUBJECT—SPELLING.

**Neither penmanship, capitalization, nor punctuation will be directly considered in marking this sheet.**

One of the examiners will dictate an exercise of about 200 words so distinctly that all persons being examined can hear him. The passage will first be read for information and then be dictated in phrases of five or six words sufficiently slow to enable every candidate to write all the words, but at a rate not to exceed twelve words a minute.

If from any cause the candidate miss a word he should not pause, but leave a blank space and go on with the next word he hears. No corrections will be permitted after the close of the dictation.

Candidates should pay careful attention to the first reading of the dictation exercise, and should not begin to write until the second reading is commenced. The examiner will announce the time of commencing just before beginning the second reading, and the time of finishing immediately following the conclusion of the dictation, both of which times the candidate should note on this sheet.

SHEET 5.

Candidate must fill these blanks. { Time commenced, ———. Date, ———. Examination No., ———.  
 { Time finished, ———. Place of examination, ———.

## EIGHTH SUBJECT—ARITHMETIC.

Time allowed, 3 hours.

N. B.—Do not write on this sheet. Blank sheets will be furnished for the answers to the questions hereon. Number answers to correspond with numbers of questions.

Write only on the ruled side of the blank sheets furnished.

In solving problems the processes should be not merely indicated, but ALL THE FIGURES necessary in solving each problem should be GIVEN IN FULL. Number the work and answers to correspond with the numbers of the questions. The answer to each problem should be indicated by writing "Ans." after it.

Do not use a separate sheet of any kind for rough work. All work should be submitted in its original form. No smooth copy is required. Pencil may be used for all mathematical work.

**Question 1.** (a) Multiply 3.14159265 by 2.71828183; the result to be correct to five decimal places. (*Contracted method preferred.*)

(b) Divide 125.12925465 by 2302.58509 to six decimal places.

(c) Divide 1.80985965 by 132.8825; *exact* result required.

(d) Reduce  $\frac{3}{4}$  to a circulating decimal, and find the value of .2387 as a common fraction in its lowest terms.

**Question 2.** (a) Find the square root of 187.364 to six decimal places.

(b) Find the cube root of 1896.343 to five decimals.

**Question 3.** (a) Find the interest on £715 7s. 6d. for 2 years, 5 months and 20 days at 6% per annum.

(b) The interest on \$3751.50 for 2 years and 8 months is \$312.62½; what is the rate % per annum?

(c) Divide 1107792 into three parts proportional to 31, 49, and 67.

**Question 4.** (a) Find the greatest common divisor of 5117707 and 2529793.

(b) Simplify  $(3\frac{1}{2} - 4\frac{1}{3} + 2\frac{1}{6}) \div (9\frac{1}{8} - 7\frac{1}{4})$ .

(c) Find the value of  $\frac{ab}{a-b} + \frac{cd}{c+d}$ , given  $a = 7\frac{1}{2}$ ,  $b = 5\frac{1}{2}$ ,  $c = 5\frac{1}{2}$ ,  $d = 3\frac{1}{2}$ .

**Question 5.** (a) A person invested in a stock which paid 4% dividend on its par value and found that his income on the investment was 4½%; what price did he pay for the stock?

(b) What fraction of 5 lb. 11 oz. Avoirdupois must be added to 3 lb. 6 oz. 9 dwt. Troy in order that the sum may be 3 lb. 11 oz. Troy?

(c) A cistern is in the form of a cube, and contains 166 cubic feet 648 cubic inches; how much will it cost to line its sides and bottom with sheet lead at 6½ cents per pound, the lead weighing 2 lb. per square foot?

**Question 6.** (a) A number is divided by 5 and the remainder is 4, the quotient is divided by 7 and the remainder is 6, and the second quotient is divided by 11 and the remainder is 10; what is the remainder when the number is divided by 385?

(b) If 60 cubic inches of lead together with 108 cubic inches of cork are equal in weight to 1538½ cubic inches of wood, and the weight of equal quantities of lead and wood are represented by the numbers 11.324 and 0.45, what number represents the weight of an equal quantity of cork?

SHEET 6.

Candidate must fill { Time commenced, ———. Date, ———. Examination No., —.  
these blanks. { Time finished, ———. Place of examination, ———.

## NINTH SUBJECT—ALGEBRA.

Time allowed, 2 hours.

N. B.—Do not write on this sheet. Blank sheets will be furnished for the answers to the questions hereon. Number answers to correspond with numbers of questions.

Write only on the ruled side of the blank sheets furnished.

In solving problems the processes should be not merely indicated, but ALL THE FIGURES necessary in solving each problem should be GIVEN IN FULL. Number the work and answers to correspond with the numbers of the questions. The answer to each problem should be indicated by writing "Ans." after it.

Do not use a separate sheet of any kind for rough work. All work should be submitted in its original form. No smooth copy is required. Pencil may be used for all mathematical work.

**Question 1.** (a) Find the value of  $a \{8a - 7(2a - 4) + 3[4(13 - a) - 3(2a - 9)]\} - 11a$  when  $a = 7$ .

(b) Subtract the square of  $(4 - 3x + 2x^2 - x^3)$  from the cube of  $(4 + x + x^2)$ .

(c) Solve  $\frac{x+3}{2} - \frac{11-x}{5} = \frac{3x-1}{20} + 3\frac{1}{2}$ .

(d) Reduce to lowest terms  $\frac{30x^4 + 11x^3 - 82x^2 - 12x + 48}{12x^4 + 5x^3 - 33x^2 - 6x + 20}$ .

**Question 2.** (a) Resolve into factors  $x^2y^2 - 12xy + 35$ ,  $5x^3 + 7xy - 6y^3$ ,  $7x^2 - 15x + 2$ ,  $x^4 + 4$ , and  $x^6 + 1$ .

(b) Resolve into factors  $6x^2 + xy - 2y^2 + 5x + 8y - 6$ .  
Resolve into four factors  $4a^2b^2 - (a^2 + b^2 - c^2)^2$ .

(c) Simplify  $\frac{b-a}{x-b} - \frac{a-2b}{x+b} + \frac{3x(a-b)}{x^2-b^2}$ .

**Question 3.** (a) Solve  $\begin{cases} 34x - 15y = 83 \\ 51x + 40y = 62 \end{cases}$  and  $\begin{cases} ax + by = c \\ dx + ey = f. \end{cases}$

(b) Solve  $\frac{3x-2}{2x-5} + \frac{2x-5}{3x-2} = \frac{10}{3}$ .

(c) A number of articles was bought for \$35.00, two were lost, and the remainder were sold for \$36.00, the selling price of each being 50 cents more than was paid for it; how many were bought?

**Question 4.** (a) Find or write the square root of  $7 + 4\sqrt{3}$ , of  $12 + 6\sqrt{3}$ , and of  $49 + 12\sqrt{5}$ .

Simplify  $\frac{3 + \sqrt{3}}{2 - \sqrt{3}} + \frac{3 - \sqrt{3}}{2 + \sqrt{3}}$ .

(b) Multiply  $a^{\frac{3}{2}} - a^{\frac{1}{2}} + 1 - a^{-\frac{1}{2}} + a^{-\frac{3}{2}}$  by  $a^{\frac{1}{6}} + 1 + a^{-\frac{1}{6}}$ ,

and simplify  $\frac{\sqrt{2} + \sqrt{-2} + 1}{\sqrt{-2} + 1}$ .

(c) Find the three roots of  $x^3 - 1 = 0$ , and find the square of each of the imaginary roots.

**Question 5.** (a) Solve the equations  $667x^2 + 6x - 1 = 0$   
 $(x+5)(x-2) + 3\sqrt{x^2 + 3x} = 0$ .

(b) Find  $x$  and  $y$  from the equations  $x^2 - 4y^2 = 9$ ,  $xy + 2y^2 = 3$ .

SHEET 7.

Candidate must fill { Time commenced, ———. Date, ———. Examination No., —.  
these blanks. { Time finished, ———. Place of examination, ———.

## TENTH SUBJECT—GEOMETRY.

Time allowed, 2 hours.

N. B.—Do not write on this sheet. Blank sheets will be furnished for the answers to the questions hereon. Number answers to correspond with numbers of questions.

Write only on the ruled side of the blank sheet furnished.

In solving problems the processes should be not merely indicated, but ALL THE FIGURES necessary in solving each problem should be GIVEN IN FULL. Number the work and answers to correspond with the numbers of the questions. The answer to each problem should be indicated by writing "Ans." after it.

Do not use a separate sheet of any kind for rough work. All work should be submitted in its original form. No smooth copy is required. Pencil may be used for all mathematical work.

- Question 1.* (a) Define *axiom*, *postulate*, *theorem*; give an example of each. What is a *geometric locus*? Give four examples of a locus and in each case state what points make up the locus.
- (b) Define a *right angle*. Prove that the sum of the three angles of a triangle is two right angles. Name and define the classes of triangles, (1) with reference to their sides, (2) with reference to their angles.
- (c) Prove that the three medial lines of a triangle meet in a point.
- Question 2.* (a) Define *circle*, *chord*, *arc*, *sector*, *segment*, *tangent*, and *secant*. Prove that any angle inscribed in a semicircle is a right angle (assuming measure of inscribed angle). A and B are fixed points, AC is drawn in any direction, and BP is drawn perpendicular to AC, meeting AC at P; what is the locus of P?
- (b) Prove that an inscribed angle is measured by one-half the intercepted arc (three cases).
- (c) Two secants meet outside the circle; state how the angle between them is measured and prove your statement. Two tangents are drawn to a circle from the same point; how is the angle between them measured?
- Question 3.* (a) Construct an angle of  $45^\circ$  and one of  $60^\circ$ . Upon a line about 1½ inches long construct a segment to contain an angle of  $60^\circ$ .
- (b) A line AB is divided internally at C and externally at D; which are the internal segments? and which the external? Prove that the bisector of an angle of a triangle divides the opposite side internally and externally into segments proportional to the adjacent sides.
- (c) The sides of a triangle are  $a$ ,  $b$ , and  $c$ ; find the segments into which each side is divided (internally) by the bisector of the opposite angle.
- Question 4.* (a) State and prove the proposition that "In any triangle the square of a side opposite an acute angle is equal to," etc. State the similar proposition for the square of a side opposite an obtuse angle.
- (b) What is a *mean proportional*? Construct a mean proportional between two given lines and give reasons for your construction. What is meant by dividing a line in extreme and mean ratio? When are quantities reciprocally proportional?
- (c) Show how to divide a line internally and externally in extreme and mean ratio and prove your construction.
- Question 5.* (a) Prove that in a right triangle the perpendicular from the right angle upon the hypotenuse is a mean proportional between the segments of the hypotenuse, and find the length of the perpendicular and of each of the segments when the sides are  $a$  and  $b$  and the hypotenuse is  $c$ .
- (b) Find the area of the regular dodecagon inscribed in a circle, radius  $a$ . Find the length of a side of the dodecagon.
- (c) Three equal circles, radius  $a$ , touch each other, and another circle is circumscribed about them; find the radius, circumference, and area of the circumscribed circle.

## ADMISSION.

**XII.** Candidates that pass the physical and mental examinations will receive appointments as midshipmen, and become students of the Academy. Each midshipman will be required to sign articles by which he binds himself to serve in the United States Navy eight years (including his time of probation at the Naval Academy), unless sooner discharged.

The pay of a midshipman is \$500 a year, commencing at the date of his admission.

**XIII.** Midshipmen will supply themselves, immediately after their admission, with the following articles, viz:

One dress jacket .....	\$20.78	Two lanyards .....	\$0.22
One blouse .....	15.22	Six sheets .....	3.00
One pair dress trousers .....	11.83	Hammock clews .....	.55
One pair service trousers .....	6.68	One pair bathing trunks .....	.15
One overcoat .....	26.98	Three pairs white gloves .....	.81
One reefer .....	12.18	Two clothes bags .....	.50
Two white blouses .....	3.50	One hammock mattress .....	2.93
Two pairs white trousers .....	3.20	a One requisition book .....	.25
One mackintosh .....	8.25	a One pass book .....	.25
One cap cover .....	.30	a Stencil, ink, and brush .....	.35
Eight work suits .....	6.64	a Wash basin and pitcher .....	.75
Two pairs of regulation leggings .....	1.50	a One pair gymnasium slippers .....	.80
Two parade caps .....	7.10	* One whisk .....	.19
One knit cap .....	.62	* One coarse comb .....	.12
One mug .....	.08	* One cake soap .....	.10
One soap box .....	.75	* One hairbrush .....	.50
One laundry book .....	.19	* Stationery .....	.50
One pair blankets .....	4.20	* Twelve white handkerchiefs .....	2.40
One pair overshoes .....	.55	* One pair suspenders .....	.40
Two pairs high shoes .....	7.06	Four suits pajamas .....	6.20
Eight white shirts .....	4.40	* One toothbrush .....	.23
Twelve collars .....	1.50	* Thread and needles .....	.20
Eight pairs cuffs .....	1.44	* Blacking brush and blacking .....	.65
Eight pairs socks .....	1.44	* Nailbrush .....	.30
* Eight towels .....	1.50	Six pillowcases .....	.66
* Shaving outfit .....	2.35	One black silk neckerchief .....	.45
* Six pairs drawers (summer) .....	2.28	Name plate .....	.11
* Six undershirts (summer) .....	2.28	One blue jersey .....	1.06
One hand glass .....	.50	Three white hats .....	1.20
Three striped jerseys .....	2.40		
One jackknife .....	.42		
			184.99

When moving into quarters, Midshipmen will supply themselves with the following articles, viz:

a Two bedspreads .....	\$1.90	a One rug .....	\$0.80
a Two pairs drill gloves .....	1.10	a One hair mattress .....	5.10
a One slop jar .....	.88	a One broom .....	.30
a Two spatter cloths .....	1.00		
One hair pillow .....	.74		12.82
One mirror .....	1.00		

Articles marked *a* will not be taken on board the practice ship.

The articles marked \*, not being required to conform to a standard pattern, may be brought by the midshipmen from home, but all other articles must conform to the regulations, and must therefore be supplied by the storekeeper.

Each midshipman must, on admission, deposit with the pay officer the sum of \$60, for which he will be credited on the books of that officer, to be expended by direction of the Superintendent in the purchase of text-books and other authorized articles besides those enumerated in the preceding article.

All deposits for clothing and the entrance deposit of \$60 must be made before a candidate can be received into the Academy.

SUMMARY OF EXPENSES.

Deposit for clothing, etc.....	\$197.81
Deposit for books, etc .....	60.00
	<hr/>
	257.81

The value of clothing brought from home is to be deducted from this amount.

Each midshipman will be credited, as soon as adjusted by the Treasury Department, with the amount of his actual expenses in traveling from his home to the Academy.

## PRACTICAL INSTRUCTION OF MIDSHIPMEN.

## SEAMANSHIP.

Knotting and splicing; compass and lead line; ship nomenclature; cutting and fitting hemp rigging; cutting and fitting wire rigging; rowing, and the management of boats under oars and under sail; sailmaking; making up, bending, unbending, and handling sails; rigging ship; stripping ship; shifting spars; getting under way and anchoring; evolutions with vessels under sail and under steam; signaling, Army and Navy Code; management of steam launches; steam fleet tactics with steam launches.

## ORDNANCE.

Infantry, schools of the squad, company, and battalion, in close and extended orders; artillery, schools of the battery and battalion; exercise and target practice with small arms and guns of main and secondary batteries; exercise with cane, smallsword, and broadsword; handling and firing torpedoes, use of Riehlé and Rodman testing machines; determinations of velocities; experimental determination of range tables, also of the jump and drift; the preparation, inspection, care, and preservation of ordnance material.

## NAVIGATION.

Navigation: Observations, with sextant and artificial horizon, for time, longitude, chronometer, correction, latitude, azimuth.

Surveying: Surveying and constructing a chart of a portion of the Severn River.

Compass Deviations: Swinging an iron ship, and observing the deviations and the times of vibration of horizontal and vertical needles on different courses; from these observations finding the approximate and the exact coefficients, and the horizontal and the vertical forces acting on the standard and steering compasses; also finding the heeling coefficients for the same compasses without heeling the ship; also correcting the deviations of a compass, using a Navy compensating binnacle.

## STEAM ENGINEERING.

*Shop work.*—The Pattern Shop: Selection and treatment of different woods for different purposes. Elementary work of the carpenter shop, through mortising, joining, etc., to finished pattern work.

The Foundry: Iron and brass casting; the making of bronzes, alloys, etc.

The Blacksmith Shop: Forging, welding, etc.; tempering, casehardening, etc.; bending and quenching tests of metals.

The Boiler Shop: Riveting, soft and hard patching, calking, annealing, tube expanding, etc.; testing.

The Machine Shop: Vise bench work; machine tool work—including the setting of work; turning; planing; boring; slotting, etc.; pipe fitting; preparation of working drawings and working from the same.

*Shipwork.*—Management of main and auxiliary engines; fire-room and engine-room routine, firing, water tending, and oiling; management of engines while maneuvering at sea; determining the condition and locating defects in machinery while in motion; lying under banked fires; coming to anchor; overhauling machinery; cleaning boilers and condensers.

*Miscellaneous.*—Use of slide rule, averaging machine, apparatus for testing oils and smoke gases; standardizing steam gauges and indicators; preparing specification for purchase of machinery and stores; testing, inspection, and preservation of stores; selection of coals; making of watch, quarter, and stations bills.

## PHYSICS AND CHEMISTRY.

Experimental work in the Chemical and Physical Laboratories, illustrating and supplementing the class-room instruction. A large portion of the limited time is devoted to magnetic and electrical measurements, and to the management and uses of electric dynamos and motors.

## PHYSICAL TRAINING.

Class drills in calisthenics, free movements and with apparatus.  
Special exercises to promote symmetrical development when necessary.  
Athletic exercises, including boxing and swimming. Dancing.

## PRIZES AWARDED BY THE NAVY ATHLETIC ASSOCIATION.

The name of Midshipman William Frederick Halsey, jr., Class '04, to be engraved on the Thompson trophy cup, being "the name of the midshipman declared by the Executive Committee to have done the most during the year for the promotion of athletics."

For general excellence in athletics: A sword, to K. Whiting, 1905.

First prize for handling boats under sail: A pair of binoculars, to C. Taylor, 1906.

Second prize: A pair of binoculars, to K. Whiting, 1905.

Championship, heavy-weight boxing: A silver medal, to K. Whiting, 1905.

Championship, light-weight boxing: A silver medal, to H. V. McKittrick, 1907.

Championship, heavy-weight wrestling: A silver medal, to G. F. Clay, 1907.

Championship, light-weight wrestling: A silver medal, to J. W. Wilcox, 1905.

Championship, fencing foils: A gold medal, to R. P. R. Neilson, 1905.

Championship, fencing, sabers: A silver medal, to L. W. Townsend, 1905.

Championship, fencing, canes: A silver medal, to A. Sharp, jr., 1906.

General excellence, track athletics: A silver medal, to W. B. Decker, 1906.

Breaking Naval Academy record, hammer throw: A silver medal, to S. Doherty, 1906.

Breaking Naval Academy record, shot put: A silver medal, to C. F. Chambers, 1907.

Winners of first place in dual track meet with Lafayette College were given gold medals and winners of second place silver medals, as follows:

W. B. Decker, 1906, two gold medals.

S. Doherty, 1906, one gold and two silver medals.

J. R. Williams, 1906, one gold and one silver medal.

C. F. Chambers, 1907, one gold and one silver medal.

H. Delano, 1906, one gold medal.

S. A. Taffinder, 1906, one gold medal.

H. J. Abbott, 1907, one silver medal.

R. F. McConnell, 1907, one silver medal.

G. F. Clay, 1907, one silver medal.

The battalion flag was awarded to the second company, commanded by K. Whiting, whose members scored in drills, marksmanship, sailing, and athletic exercises the greatest number of points during the year.

## THE UNITED STATES NAVAL ACADEMY.

---

The United States Naval Academy was founded in 1845 by the Hon. George Bancroft, Secretary of the Navy, in the Administration of President James K. Polk. It was formally opened October 10 of that year under the name of the Naval School, with Commander Franklin Buchanan as superintendent. It was placed at Annapolis, Md., on the land occupied by Fort Severn, which was given up by the War Department for the purpose. The course was fixed at five years, of which only the first year and the last were spent at the school, the intervening three years being passed at sea. This arrangement was not strictly adhered to, the exigencies of the service making it necessary, in many cases, to shorten the period of study. In January, 1846, four months after the opening of the school, the students consisted of thirty-six midshipmen of the date of 1840, who were preparing for the examination for promotion; thirteen of the date of 1841, who were to remain until drafted for service at sea; and seven acting midshipmen, appointed after September of the previous year. The midshipmen of the date of 1840 were the first to be graduated, finishing their limited course in July, 1846, and they were followed in order by the subsequent dates until the reorganization of the school in 1850.

In September, 1849, the following board was appointed to revise the plan and the regulations of the Naval School:

Commander William B. Shubrick,  
Commander Franklin Buchanan,  
Commander Samuel F. Du Pont,  
Commander George P. Upshur,  
Surgeon W. S. W. Ruschenberger,  
Professor William Chauvenet,  
Captain Henry Brewerton, United States Army.

The plan reported by the board was approved, and went into operation July 1, 1850. The new organization provided for a course of seven years, the first two and the last two at the school, and the three intermediate years at sea. The school was placed under the supervision of the Bureau of Ordnance and Hydrography, and its name was changed to the United States Naval Academy. The corps of professors was enlarged, the course was extended, and the system of separate departments with executive heads was fully adopted. It was provided that a Board of Visitors should make an annual inspection of the Academy and report upon its condition to the Secretary of the Navy. A suitable vessel was attached to the Academy as a practice ship, and the annual practice cruises were begun.

After the system had been in operation a year new changes were proposed, and the recommendations of the academic board on the subject were referred to the board of examiners for the year 1851, composed of the following-named officers:

Commodore David Conner,  
Captain Samuel L. Breese,  
Commander C. K. Stribling,  
Commander A. Bigelow,  
Commander Franklin Buchanan,  
Lieutenant Thomas T. Craven.

The change recommended by the board of examiners, and adopted by the Department, consisted mainly in leaving out the requirement of three years of sea service in the middle of the course, thus making the four years of study consecutive. The practice cruise supplied the place of the omitted sea service, and gave better opportunities for training. The change went into operation in November, 1851, together with other improvements recommended by the

board. This system has been continued, with some slight modifications, to the present time. The first class to receive the benefit of it was that which entered in 1851. Six members of this class completed the course in three years and were graduated in June, 1854; the rest of the class followed in 1855.

In May, 1861, on the outbreak of the war, the Academy was moved to Newport, R. I. The three upper classes were detached and ordered to sea, and the remaining acting midshipmen were quartered in the Atlantic House and on board the frigates *Constitution* and *Santee*. In the summer of 1865 the Academy was brought back to Annapolis, where it has since remained.

When the Bureau of Navigation was established, July 5, 1862, the Academy was placed under its supervision; March 1, 1867, it was placed under the direct care and supervision of the Navy Department, the administrative routine and financial management being still conducted through the Bureau. On the 11th of March, 1869, this official connection with the Bureau ceased, but was renewed by the general order of the Navy Department issued June 25, 1889.

The term of the academic course was changed by law, March 3, 1873, from four to six years. The change took effect with the class that entered in the following summer.

In 1866 a class of acting third assistant engineers was ordered to the Academy for instruction. The course embraced the subjects of steam engineering, mechanism, chemistry, mechanics, and practical exercises with the steam engine and in the machine shop. This class was graduated in June, 1868, together with two cadet engineers who had entered the Academy in 1867. After an interval of four years, in October, 1871, a new class of cadet engineers was admitted. This class followed a two years' course, somewhat more extended than that of the class of 1868, and was graduated in 1873. In 1872 and 1873 new classes were admitted, the first of which left the Academy in 1874 and the second in 1875. By an act of Congress approved February 24, 1874, the course of instruction for cadet engineers was made four years instead of two; the new provision was first applied to the class entering the Academy in the year 1874. This class was graduated in June, 1878.

By an act of Congress approved August 5, 1883, it was provided that from that date "there shall be no appointments of cadet-midshipmen or cadet-engineers at the Naval Academy, but in lieu thereof naval cadets shall be appointed from each Congressional district and at large, as now provided by law for cadet-midshipmen, and all the undergraduates at the Naval Academy shall hereafter be designated and called 'naval cadets;' and from those who successfully complete the six years' course, appointments shall hereafter be made as it is necessary to fill vacancies in the lower grades of the Line and Engineer Corps of the Navy and of the Marine Corps: *And provided further*, That no greater number of appointments into these grades shall be made each year than shall equal the number of vacancies which has occurred in the same grades during the preceding year; such appointments to be made from the graduates of the year, at the conclusion of their six years' course, in the order of merit, as determined by the academic board of the Naval Academy; the assignment to the various corps to be made by the Secretary of the Navy upon the recommendation of the academic board. But nothing herein contained shall reduce the number of appointments from such graduates below ten in each year, nor deprive of such appointment any graduate who may complete the six years' course during the year eighteen hundred and eighty-two. And if there be a surplus of graduates, those who do not receive such appointment shall be given a certificate of graduation, an honorable discharge, and one year's sea pay, as now provided by law for cadet-midshipmen; and so much of section fifteen hundred and twenty-one of the Revised Statutes as is inconsistent herewith is hereby repealed."

"That any cadet whose position in his class entitles him to be retained in the service may, upon his own application, be honorably discharged at the end of the four years' course at the Naval Academy, with a proper certificate of graduation."

In 1886 a special course of instruction in physiology and hygiene was established, in accordance with an act of Congress approved May 20 of that year.

The act of Congress approved March 2, 1889, provides that "the Academic Board of the Naval Academy shall on or before the thirtieth day of September in each year separate the first class of naval cadets then commencing their fourth year into two divisions, as they may have shown special aptitude for the duties of the respective corps, in the proportion which the aggregate number of vacancies occurring in the preceding fiscal year ending on the thirtieth day of June in the lowest grades of commissioned officers of the Line of the Navy and Marine Corps of the Navy shall bear to the number of vacancies to be supplied from the Academy occurring during the same period in the lowest grade of commissioned officers of the engineer corps of the Navy; and the cadets so assigned to the Line and Marine Corps division of the first class shall thereafter pursue a course of study arranged to fit them for service in the Line of the Navy, and the cadets so assigned to the Engineer Corps division of the first class shall thereafter pursue a separate course of study arranged to fit them for service in the Engineer Corps of the Navy, and the cadets shall thereafter, and until final graduation, at the end of their six years' course, take rank by merit with those in the same division, according to the merit marks; and from the final graduates of the Line and Marine Corps division, at the end of their six years' course, appointments shall be made hereafter as it shall be necessary to fill vacancies in the lowest grades of commissioned officers of the Line of the Navy and Marine Corps; and the vacancies in the lowest grades of the commissioned officers of the Engineer Corps of the Navy shall be filled in like manner by appointments from the final graduates of the Engineer division at the end of their six years' course: *Provided*, That no greater number of appointments into the said lowest grades of commissioned officers shall be made each year than shall equal the number of vacancies which shall have occurred in the same grades during the fiscal year then current; such appointments to be made from the final graduates of the year, in the order of merit as determined by the Academic Board of the Naval Academy, the assignment to be made by the Secretary of the Navy upon the recommendation of the Academic Board at the conclusion of the fiscal year then current; but nothing contained herein or in the naval appropriation act of August fifth, eighteen hundred and eighty-two, shall reduce the number of appointments of final graduates at the end of their six years' course below twelve in each year to the Line of the Navy, and not less than two shall be appointed annually to the Engineer Corps of the Navy, nor less than one annually to the Marine Corps; and if the number of vacancies in the lowest grades aforesaid, occurring in any year shall be greater than the number of final graduates of that year, the surplus vacancies shall be filled from the final graduates of following years, as they shall become available."

"That after the fourth day of March, eighteen hundred and eighty-nine, the minimum age of admission of cadets to the Academy shall be fifteen years and the maximum age twenty years."

In October, 1897, a post-graduate course in Naval Architecture, for the education of officers for the Construction Corps of the Navy, was established; and a class was formed from the naval cadets that had finished the four years' course in that year.

By an act of Congress, approved March 3, 1899, "the officers constituting the Engineer Corps of the Navy" were "transferred to the Line of the Navy," thereby repealing so much of the act of Congress, approved March 2, 1889, as relates to the separation of naval cadets of the first class into Line and Engineer divisions.

This same act having limited the number of Constructors in the Navy to forty, the post graduate course in Naval Architecture was discontinued.

By an act of Congress approved June 7, 1900, it was provided that—

"Whenever any naval cadet shall have finished four years of his undergraduate course of six years the succeeding appointment may be made from his Congressional district or at large in accordance with the existing law."

By an act of Congress approved July 1, 1902, it was provided that—

"The title 'naval cadet' is hereby changed to 'midshipman.'"

"That until the year nineteen hundred and fourteen, in addition to the naval cadets now authorized by law (the title having been changed by this act to midshipmen), the President shall appoint five midshipmen, and there shall be appointed from the States at large, upon the recommendation of Senators, two midshipmen for each State."

By an act of Congress approved March 3, 1903, it was provided that—

"There shall be allowed at the Naval Academy two midshipmen for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, and five each year at large: *Provided*, That the additional Congressional appointments authorized by this Act shall be made at such times as may be determined by the Secretary of the Navy, who shall equitably distribute the increase among the several States, Districts, and Territories, so that ultimately, if practicable, each Senator, Representative, and Delegate may recommend for appointment during each Congress one midshipman. *Provided further*, That members of the Fifty-seventh Congress who will not be members of the Fifty-eighth Congress, and in whose Districts or States appointments have not been made or vacancies filled in the Fifty-seventh Congress, may immediately upon the passage of this Act make the additional appointments herein provided for."

"The Secretary of the Navy shall as soon as practicable after the fifth day of March in each year notify in writing each Senator, Representative, and Delegate in Congress of any vacancy which may be regarded as existing in the State, District, or Territory which he represents, and the nomination of a candidate to fill such vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate. Such recommendation shall be made by the first day of June of that year, and if not so made the Secretary of the Navy shall fill the vacancy by the appointment of an actual resident of the State, District, or Territory in which the vacancy exists, who shall have been for at least two years immediately preceding his appointment an actual bona fide resident of the State, District, or Territory in which the vacancy exists and shall have the qualifications otherwise prescribed by law: *And provided further*, That the Superintendent of the Naval Academy shall make such rules, to be approved by the Secretary of the Navy, as will effectually prevent the practice of hazing; and any cadet found guilty of participating in or encouraging or countenancing such practice shall be summarily expelled from the Academy, and shall not thereafter be reappointed to the Corps of Cadets or be eligible for appointment as a commissioned officer in the Army or Navy or Marine Corps until two years after the graduation of the class of which he was a member."

"That the provisions of this Act for the increase of appointments of midshipmen to the Naval Academy shall continue in force until the thirtieth day of June, nineteen hundred and thirteen; and thereafter one midshipman, as now provided by law, shall be appointed for each Senator, Representative, and Delegate in Congress."

"That hereafter there shall be at the Naval Academy one midshipman from Porto Rico, who shall be a native of said island, and whose appointment shall be made by the President on the recommendation of the governor of Porto Rico."

"That after January first, nineteen hundred and four, all candidates for admission to the Naval Academy at the time of their examination must be *between the ages of sixteen and twenty years.*"

## MERIT ROLLS FOR 1904-1905.

Merit rolls, made out annually for each class, show the proficiency of the midshipmen in each branch of study. The numbers given in the table, showing the relative weight of the different branches, are used as coefficients; the final mark in each branch (on a scale of 4) being multiplied by the number assigned to that branch. The sum of the products, after adding the multiple for discipline, is the final mark of the midshipmen for the year.

In the case of midshipmen that take an advanced course in any branch, the final mark in that branch is determined by adding to the final mark received in the required course one-fifth of the amount by which the final mark in the advanced course exceeds 2.50.

In the graduating merit roll, the final standing for the course is determined by the sum of the yearly marks.

"Midshipmen who attain 85 per cent of the multiple in any year shall be distinguished by a star affixed to their names on the merit rolls." (Regulations United States Naval Academy, par. 186.)

The diplomas of midshipmen whose final marks on the graduating merit roll are not less than 85 per cent of the maximum read, "passed with distinction;" those whose final marks are between 74 per cent and 85 per cent of the maximum read, "passed with credit;" and those whose final marks are between  $62\frac{1}{2}$  per cent and 74 per cent of the maximum read "passed."

\* Received 85 per cent of the multiple.

† Found deficient, allowed a reexamination, passed, and continued with class.

†† Found deficient in conduct, passed, and continued with class.

‡ Retained in next lower class.

## REGULATIONS GOVERNING THE ADMISSION OF CANDIDATES INTO THE NAVAL ACADEMY AS MIDSHIPMEN.

### NOMINATION.

I. The students of the Naval Academy are called Midshipmen (Act approved July 1, 1902).

II. "There shall be allowed at the Naval Academy two midshipmen for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, and five each year at large: *Provided*, That the additional Congressional appointments authorized by this Act shall be made at such times as may be determined by the Secretary of the Navy, who shall equitably distribute the increase among the several States, Districts, and Territories, so that ultimately, if practicable, each Senator, Representative, and Delegate may recommend for appointment during each Congress one midshipman."

"The Secretary of the Navy shall as soon as practicable after the fifth day of March in each year notify in writing each Senator, Representative, and Delegate in Congress of any vacancy which may be regarded as existing in the State, District, or Territory which he represents, and the nomination of a candidate to fill such vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate. Such recommendation shall be made by the first day of June of that year, and if not so made the Secretary of the Navy shall fill the vacancy by the appointment of an actual resident of the State, District, or Territory in which the vacancy exists, who shall have been for at least two years immediately preceding his appointment an actual bona fide resident of the State, District, or Territory in which the vacancy exists and shall have the qualifications otherwise prescribed by law: *And provided further*, That the Superintendent of the Naval Academy shall make such rules, to be approved by the Secretary of the Navy, as will effectually prevent the practice of hazing; and any cadet found guilty of participating in or encouraging or countenancing such practice shall be summarily expelled from the Academy, and shall not thereafter be reappointed to the Corps of Cadets or be eligible for appointment as a commissioned officer in the Army or Navy or Marine Corps until two years after the graduation of the class of which he was a member."

"That the provisions of this Act for the increase of appointments of midshipmen to the Naval Academy shall continue in force until the thirtieth day of June, nineteen hundred and thirteen; and thereafter one midshipman, as now provided by law, shall be appointed for each Senator, Representative, and Delegate in Congress.

"That hereafter there shall be at the Naval Academy one midshipman from Porto Rico, who shall be a native of said island, and whose appointment shall be made by the President on the recommendation of the governor of Porto Rico."—(*Act approved March 3, 1903.*)

III. All candidates must, at the time of their examination for admission to the Naval Academy, be between the ages of sixteen and twenty years. A candidate is eligible for appointment on the day he becomes sixteen and is ineligible on the day he becomes twenty years of age.

IV. Candidates nominated for Congressional Districts, Territories, and the District of Columbia, must be actual residents of the districts or Territories, respectively, from which they are nominated.

## REGULATIONS GOVERNING THE ADMISSION OF CANDIDATES INTO THE NAVAL ACADEMY AS MIDSHIPMEN.

"The Secretary of the Navy shall as soon as practicable after the fifth day of March in each year notify in writing each Senator, Representative, and Delegate in Congress of any vacancy which may be regarded as existing in the State, District, or Territory which he represents, and the nomination of a candidate to fill such vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate. Such recommendation shall be made by the first day of June of that year, and if not so made the Secretary of the Navy shall fill the vacancy by the appointment of an actual resident of the State, District, or Territory in which the vacancy exists, who shall have been for at least two years immediately preceding his appointment an actual bona fide resident of the State, District, or Territory in which the vacancy exists and shall have the qualifications otherwise prescribed by law: *And provided further*, That the Superintendent of the Naval Academy shall make such rules, to be approved by the Secretary of the Navy, as will effectually prevent the practice of hazing; and any cadet found guilty of participating in or encouraging or countenancing such practice shall be summarily expelled from the Academy, and shall not thereafter be reappointed to the Corps of Cadets or be eligible for appointment as a commissioned officer in the Army or Navy or Marine Corps until two years after the graduation of the class of which he was a member."

"That the provisions of this Act for the increase of appointments of midshipmen to the Naval Academy shall continue in force until the thirtieth day of June, nineteen hundred and thirteen; and thereafter one midshipman, as now provided by law, shall be appointed for each Senator, Representative, and Delegate in Congress.

"That hereafter there shall be at the Naval Academy one midshipman from Porto Rico, who shall be a native of said island, and whose appointment shall be made by the President on the recommendation of the governor of Porto Rico."—(Act approved March 3, 1903.)

III. All candidates must, at the time of their examination for admission to the Naval Academy, be between the ages of sixteen and twenty years. A candidate is eligible for appointment on the day he becomes sixteen and is ineligible on the day he becomes twenty years of age.

IV. Candidates nominated for Congressional Districts, Territories, and the District of Columbia, must be actual residents of the districts or Territories, respectively, from which they are nominated.

V. The course for midshipmen is six years—four years at the Academy, when the succeeding appointment is made, and two years at sea, at the expiration of which time the examination for final graduation takes place.

Midshipmen who pass the examination for final graduation are appointed to fill vacancies in the lower grades of the Line of the Navy and of the Marine Corps, in the order of merit as determined by the Academic Board of the Naval Academy.

VI. "Candidates allowed for Congressional Districts, for Territories, and for the District of Columbia, must be actual residents of the districts or Territories, respectively, from which they are nominated. *And all candidates must, at the time of their examination for admission, be between the ages of \*sixteen and twenty years, and physically sound, well formed, and of robust constitution.*"—*Rev. Stat.*, § 1517.)

VII. Examinations for the admission of candidates will be held at various points throughout the United States, under the supervision of the Civil Service Commission, on the third Tuesday in April. Candidates are examined mentally *only* at this examination. All those qualifying mentally, who are entitled to appointment in order of nomination, will be notified by the Superintendent of the Naval Academy to report at the Academy for physical examination *about* June 10, and, if physically qualified, will be appointed.

The second and last examination will be held at Annapolis, Md., *only*, on the third Tuesday in June, under the supervision of the Superintendent of the Naval Academy, and all those qualifying mentally, who are entitled to appointment in order of nomination, will be directed to report for physical examination as soon as practicable at the Naval Academy.

Members and Delegates in Congress having the appointment of a midshipman to make are authorized to nominate one principal and five alternates. The alternates are to be numbered from one to five and appointment made in the same order, i. e., if the principal passes, he is to be appointed, but if the principal should fail, and the first alternate qualify, the first alternate is to be appointed. In case the principal and the first alternate should fail, and the second alternate qualify, the second alternate is to be appointed, and so on down the list, in regular numerical order, until the fifth alternate is reached and included.

The successful candidates will be ordered to report to the Superintendent of the Academy for physical examination.

Candidates will be required to enter the Academy immediately after passing the prescribed examination.

*No leave of absence will be granted to midshipmen of the fourth class.*

#### EXAMINATION.

VIII. "*All candidates for admission to the Academy shall be examined according to such regulations and at such stated times as the Secretary of the Navy may prescribe. Candidates rejected at such examination shall not have the privilege of another examination for admission to the same class unless recommended by the Board of Examiners.*"—(*Rev. Stat.*, § 1515.)

IX. "When any candidate who has been nominated upon the recommendation of a Member or Delegate of the House of Representatives is found, upon examination, to be physically or mentally disqualified for admission, the Member or Delegate shall be notified to recommend another candidate, who shall be examined according to the provisions of the preceding section."—(*Rev. Stat.*, § 1516.)

Candidates will be examined physically at the Naval Academy, by a board composed of three medical officers of the Navy. Any one of the following conditions will be sufficient to cause the rejection of a candidate, viz:

Feeble constitution, inherited or acquired;

Stunted development;

Impaired general health;

Decided cachexia, diathesis, or predisposition;

Any disease, deformity, or result of injury that would impair efficiency;

As—

Weak or disordered intellect;

Cutaneous or communicable disease;

Unnatural curvature of the spine, torticollis, or other deformity;

Inefficiency of either of the extremities or large articulations from any cause;

Epilepsy or other convulsions within five years;

Impaired vision, disease of the organs of vision, imperfect color sense; visual acuteness must be normal in both eyes;

Impaired hearing or disease of the ear;

Chronic nasal catarrh, ozæna, polypi, or great enlargement of the tonsils;

Impediment of speech to such an extent as to impair efficiency in the performance of duty;

Disease of heart or lungs or decided indications of liability to cardiac or pulmonary affections;

Hernia, complete or incomplete, and undescended testis;

Varicocele, sarcocele, hydrocele, stricture, fistula, hemorrhoids, or varicose veins of lower limbs;

Disease of the genito-urinary organs;

Chronic ulcers, ingrowing nails, large bunions, or other deformity of the feet;

Loss of many teeth, or teeth generally unsound.

Attention will also be paid to the stature of the candidate, and no one manifestly under size for his age will be received at the Academy. The height of candidates for admission shall not be less than 5 feet 2 inches between the ages of 16 and 18 years, and not less than 5 feet 4 inches between the ages of 18 and 20 years; and the minimum weight at 16 years of age shall be 100 pounds, with an increase of not less than 5 pounds for each additional year, or fraction of a year over one-half. Any marked deviation in the relative height and weight to the age of a candidate will add materially to the consideration for rejection.

XI. Candidates will be examined mentally in writing, punctuation, spelling, arithmetic, geography, English grammar, United States history, world's history, algebra through quadratic equations, and plane geometry (five books of Chauvenet's Geometry, or an equivalent). Deficiency in any one of these subjects may be sufficient to insure the rejection of the candidate.

#### GENERAL CHARACTER OF THE EXAMINATION.

**READING AND WRITING.**—Candidates must be able to read understandingly, and with proper accent and emphasis, and to write legibly, neatly, and rapidly.

**SPELLING.**—They must be able to write, from dictation, paragraphs from standard pieces of English literature, both prose and poetry, sufficient in number to test fully their qualifications in this branch. The spelling throughout the examination will be considered in marking the papers. The Academic Board are instructed not to reject a candidate whose only deficiency is in spelling when the mark therefor is above a certain figure, to be fixed by the board, subject to the revision of the department.

**PUNCTUATION AND CAPITALS.**—They must be familiar with the rules for punctuation and for the use of capitals. In order to test their knowledge, sentences will be given for correction.

GRAMMAR.—Candidates must exhibit thorough familiarity with English grammar; they must be able to analyze and parse any sentence given, showing clearly the relations between the different parts of speech, and giving the rules governing those relations. The subject and predicate in the sentence must be given, with modifiers (if any), and also the part of speech, and kind, case, voice, mood, tense, number, person, degree of comparison, etc., as the case may be, of each word, and its relation to other words in the sentence.

They must be able to define the terms used in grammar, a number of which will be given as a test of their knowledge.

A composition on one of three subjects will be required.

Since the school grammars used in different parts of the country vary among themselves in their treatment of certain words, an answer approved by any grammar of good repute will be accepted.

GEOGRAPHY.—Candidates will be required to pass a satisfactory examination in descriptive geography, particularly of our own country. Questions will be given under the following heads: The definitions of latitude and longitude; the zones; the grand divisions of land and water; the character of coast lines; the climate of different parts of the United States; trade winds; the direction and position of important mountain chains and the locality of the higher peaks; the position and course of the principal rivers, their tributaries, and the bodies of water into which they flow; the position of important seas, bays, gulfs, and arms of the sea; the position of independent States, their boundaries and capital cities; the position and direction of great peninsulas and the situation of important and prominent capes, straits, sounds, channels, and the most important canals, great lakes, and inland seas; position and political connection of important islands and colonial possessions; location of cities of historical, political, or commercial importance, attention being especially called to the rivers and bodies of water on which cities are situated; the course of a vessel in making a voyage between well-known ports.

The candidate's knowledge of the geography of the United States can not be too full or specific on all the points referred to above. Accurate knowledge will also be required of the position of the country with reference to other States, and with reference to latitude and longitude, of the boundaries and relative position of the States and Territories, of the name and position of their capitals, and of other important cities and towns.

UNITED STATES HISTORY.—The examination in this branch will include questions concerning the early settlements in this country; the forms of government in the colonies; the causes, leading events, and results of wars; and prominent events in the history of our Government since its foundation.

WORLD'S HISTORY.—Candidates must be familiar with the general history of the world, including the rise and the fall of empires and of dynasties; changes in territory as the result of wars or from other causes; the most important treaties of peace; the relations between church and state in different countries; in brief, such information as may be found in the ordinary general histories.

ARITHMETIC.—The candidate will be required—

To express in figures any whole, decimal, or mixed number; to write in words any given number; to perform with facility and accuracy the various operations of addition, subtraction, multiplication, and division of whole numbers, whether abstract or compound, and to use with facility the tables of money, weights, and measures in common use, including English money.

To reduce compound numbers from one denomination to another, and to express them as decimals or fractions of a higher or lower denomination; to state the number of cubic inches in a gallon and the relation between the troy and avoirdupois pounds, and to reduce differences of time to differences of longitude and *vice versa*.

To define prime and composite numbers; to give the tests of divisibility by 3, 5, 7, 9, 11, 25, and 125; to resolve numbers into their prime factors, and to find the least common multiple and the greatest common divisor of large as well as of small numbers.

To be familiar with all the processes of common and decimal fractions; to give clearly the reasons for such processes, and to be able to use the contracted methods of multiplication and division given in the ordinary text-books on arithmetic.

To define ratio and proportion, and to solve problems in simple and compound proportion.

To solve problems involving the measurement of rectangular surfaces and of solids; to find the square roots and the cube roots of numbers, and to solve simple problems under percentage, interest, and discount.

The candidates are required to possess such a thorough understanding of all the fundamental operations of arithmetic as will enable them to apply the various principles to the solution of any complex problem that can be solved by the methods of arithmetic; in other words, they must possess such a complete knowledge of arithmetic as will enable them to proceed at once to the higher branches of mathematics without further study of arithmetic.

ALGEBRA.—The examination in algebra will include questions and problems upon the fundamental rules, factoring, greatest common divisor, least common multiple, algebraic fractions, equations of the first degree with one or more unknown quantities, simplification of expressions involving surds, and the solution and theory of quadratic equations.

GEOMETRY.—In geometry candidates will be required to give accurate definitions of terms used in plane geometry, to demonstrate any proposition of plane geometry as given in the ordinary text-books, and to solve simple geometrical problems, either by a construction or by an application of algebra.

Neither penmanship, capitalization, nor punctuation will be directly considered in marking this sheet.

One of the examiners will dictate an exercise of about 200 words so distinctly that all persons being examined can hear him. The passage will first be read for information and then be dictated in phrases of five or six words sufficiently slow to enable every candidate to write all the words, but at a rate not to exceed twelve words a minute.

If from any cause the candidate miss a word he should not pause, but leave a blank space and go on with the next word he hears. No corrections will be permitted after the close of the dictation.

Candidates should pay careful attention to the first reading of the dictation exercise, and should not begin to write until the second reading is commenced. The examiner will announce the time of commencing just before beginning the second reading, and the time of finishing immediately following the conclusion of the dictation, both of which times the candidate should note on this sheet.

## SEVENTH SUBJECT—ARITHMETIC.

Time allowed, 3 hours.

N. B.—In solving problems the processes should be not merely indicated, but ALL THE FIGURES necessary in solving each problem should be GIVEN IN FULL. Number the work and answers to correspond with the numbers of the questions. The answer to each problem should be indicated by writing "Ans." after it.

N. B.—Do not write on this sheet. Blank sheets will be furnished for the answers to the questions hereon. Number answers to correspond with numbers of questions.

Write only on the ruled side of the blank sheets furnished.

Do not use a separate sheet of any kind for rough work. All work should be submitted in its original form. No smooth copy is required. Pencil may be used for all mathematical work.

Question 1. (a) Multiply 29.88 by 17.49, 31.56 by 21.96, 35.75 by 23.84, and 39.87 by 29.75, and add the four results together. (b) Find the square root of 3254.0713 to four decimal places. (c) Divide 3254.0713 by 57.04446 to five decimal places.

Question 2. (a) Simplify  $3\frac{1}{4} + 4\frac{1}{8} - \frac{5}{8}$  of  $5\frac{1}{4}$ , and  $3\frac{1}{8} - \frac{7}{16}$  of  $4\frac{1}{8} + \frac{3}{4}$  of  $4\frac{1}{8}$ , and divide the first result by the second.

(b) Simplify  $(7\frac{2}{3} \times 7\frac{2}{3} \times 7\frac{2}{3} - 27) \div (7\frac{2}{3} \times 7\frac{2}{3} - 9)$ .

Question 3. (a) How many men are required to cultivate a field of  $7\frac{1}{4}$  acres in  $5\frac{1}{2}$  days of 10 hours each? Given that each man completes 77 square yards in 9 hours.

(b) 10 oz. 13 pwt. 16 gr. of gold worth \$16.20 per oz. and 1 oz. 2 pwt. 8 gr. of silver worth \$1.20 per oz. are melted together. What is the value per oz. of the resulting compound?

Question 4. (a) Given that  $\sqrt{17} = 4.1231056$ , find the value of  $\frac{5 + \sqrt{17}}{5 - \sqrt{17}}$ .

(b) Find the cube root of 170 to six decimal places.

Question 5. (a) 35 cubic inches of brass and 16 cubic inches of iron weigh together 241 ounces, and 11 cubic inches of brass and 25 cubic inches of iron together weigh 157 ounces. Find the weight of a cubic inch of each metal.

(b) A square courtyard consists of a lawn 44 yards square with a path of uniform width all around the lawn. The area of the lawn is to that of the path as 16 to 9. Find the width of the path.

Question 6. A and B run a mile race, and A wins by 80 yards; when A and C run over the same course A wins by 20 seconds; B and C run and B wins by 5 seconds. In what time can A run the mile?

SHEET 5.

Candidate must fill { Time commenced, ———. Date, ———. Examination No., —. these blanks. { Time finished, ———. Place of examination, ———.

### EIGHTH SUBJECT—ALGEBRA.

Time allowed, 2 hours.

N. B.—In solving problems the processes should be not merely indicated, but ALL THE FIGURES necessary in solving each problem should be GIVEN IN FULL. Number the work and answers to correspond with the numbers of the questions. The answer to each problem should be indicated by writing "Ans." after it.

N. B.—Do not write on this sheet. Blank sheets will be furnished for the answers to the questions hereon. Number answers to correspond with numbers of questions.

Write only on the ruled side of the blank sheets furnished.

Do not use a separate sheet of any kind for rough work. All work should be submitted in its original form. No smooth copy is required. Pencil may be used for all mathematical work.

Question 1. (a) Simplify

$$\frac{3}{8} \left[ \frac{4}{3} (a-b) - 8(b-c) \right] - \left[ \frac{b-c}{2} - \frac{c-a}{3} \right] - \frac{1}{2} \left[ c-a - \frac{2}{3} (a-b) \right].$$

(b) Divide  $3x^6 - 37x^4 + 35x^3 + 7x^2 + 2$  by  $x(x-1)(x+4) - 2$ .

(c) Solve  $x - \frac{x-13}{9} = \frac{6x+1}{5} + \frac{2}{3} \left( 6 - \frac{3x}{2} \right)$ .

Question 2. (a) A dealer bought a certain number of eggs at the rate of 16 ct. a score, and 5 times as many at 75 ct. a hundred; he then sold the whole at 10 ct. a dozen, by which he gained \$3.24. How many did he buy?

(b) Find the greatest common divisor of  $x^4 + 4x^3 - 72x^2 + x + 6$  and  $x^4 + 2x^3 - 64x^2 + 39x - 6$ , and separate each of the quantities into two factors.

Question 3. (a) Solve the equation  $(2x-a)\left(x+\frac{2a}{3}\right)=4x\left(\frac{a}{3}-x\right)(2a+3x)$ .

(b) Find  $x$  and  $y$  from  $(a-b)x+(a+b)y=2a^2-2b^2$ ,  
 $(a+b)x-(a-b)y=4ab$ .

(c) Solve  $x^2-48x+551=0$ .

Question 4. (a)  $4x^4+12x^3y+Px^2y^2+6xy^3+y^4$  is a perfect square; find  $P$ .

(b) Solve  $\sqrt{x+5}+\sqrt{3x+4}=\sqrt{12x+1}$ .

(c) Solve  $x^2+x+1=\frac{42}{x^2+x}$ .

Question 5. (a) Find  $x$  and  $y$  from  $x^4+x^2y^2+y^4=7371$ .

$$x^2-xy+y^2=63.$$

(b) Given,  $y=x+2\pm\sqrt{-8(x-2)(x+1)}$ ; transpose and square, so as to form an equation of the second degree in  $x$  and  $y$  clear of radicals. Then solve this equation so as to find an expression for  $x$  in terms of  $y$  in a form similar to the one given above for  $y$  in terms of  $x$ .

Candidate must fill these blanks. { Time commenced, —, —, —, Date, —, —, Examination No., —, —, —, Time finished, —, —, —, Place of examination, —, —, —.

SHEET 6.

# NINTH SUBJECT—GEOMETRY.

Time allowed, 2 hours.

N. B.—In solving problems the processes should be not merely indicated, but ALL THE FIGURES necessary in solving each problem should be GIVEN IN FULL. Number the work and answer to correspond with the numbers of the questions. The answer to each problem should be indicated by writing "Ans." after it.

N. B.—Do not write on this sheet. Blank sheets will be furnished for the answers to the questions hereon. Number answers to correspond with numbers of questions.

Write only on the ruled side of the blank sheet furnished.

Do not use a separate sheet of any kind for rough work. All work should be submitted in its original form. No smooth copy is required. Pencil may be used for all mathematical work.

Question 1. (a) Define polygon. Name the polygons in order, beginning with those of three sides and including those of twelve sides. Name and define *without figures*, (1) the classes of triangles, (2) the classes of quadrilaterals, (3) the classes of parallelograms.

(b) Prove that the area of a triangle is one-half the product of its base and altitude. Deduce an expression for the area of a trapezoid. Find the area of a regular hexagon inscribed in a circle of radius  $a$ .

Question 2. (a) Show how to describe a circle through three given points. Give reasons. Upon a line about 2 inches long describe a segment which shall contain an angle of  $60^\circ$ . Give full explanation.

(b) The line  $AB$  is fixed,  $AP$  and  $BP$  are drawn, making the angle  $APB=30^\circ$ . What is the locus of  $P$ ? What is the locus of  $P$  when  $AP$  and  $BP$  are drawn making the area of  $APB=\frac{1}{2}$  the square on  $AB$ ?

Question 3. Write formulas for the area and circumference of a circle whose radius is  $a$ . Give three approximate values of  $\pi$ . The radius of a circle is  $a$ . A chord is drawn perpendicular to a radius at its middle point. What is the area of the smaller segment of the circle made by the chord?

*Question 4.* Find the length of a side of the regular octagon inscribed in a circle of radius  $a$ . Find the area of the octagon.

*Question 5. (a)* Two secants are drawn from the same point to the same circle. The external segment of the first is 5 inches and its internal segment is 19 inches. The internal segment of the other secant is 7 inches. Find the length of the second secant.

(b) On a diameter  $AB$  of a circle mark a point  $P$ . Through  $P$  draw the chord  $CPD$  at right angles to  $AB$ . Prove that if  $AP$ ,  $BP$ ,  $CP$ , and  $DP$  be taken as diameters of circles, the sum of the areas of the four circles is equal to the area of the original circle.

## ADMISSION.

XII. Candidates that pass the physical and mental examinations will receive appointments as midshipmen, and become students of the Academy. Each midshipman will be required to sign articles by which he binds himself to serve in the United States Navy eight years (including his time of probation at the Naval Academy), unless sooner discharged.

The pay of a midshipman is \$500 a year, commencing at the date of his admission.

XIII. Midshipmen will supply themselves, immediately after their admission, with the following articles, viz:

One dress jacket .....	\$20.78	Two lanyards .....	\$0.22
One blouse .....	15.22	Six sheets .....	3.00
One pair dress trousers .....	11.83	Hammock clews .....	.55
One pair service trousers .....	6.68	One pair bathing trunks .....	.15
One overcoat .....	26.98	Three pairs white gloves .....	.81
One reefer .....	12.18	Two clothes bags .....	.50
Two white blouses .....	3.50	One hammock mattress .....	2.93
Two pairs white trousers .....	3.20	<i>a</i> One requisition book .....	.25
One mackintosh .....	8.25	<i>a</i> One pass book .....	.25
One cap cover .....	.30	<i>a</i> Stencil, ink, and brush .....	.35
Eight work suits .....	6.64	<i>a</i> Wash basin and pitcher .....	.75
Two pairs of regulation leggings .....	1.50	<i>a</i> One pair gymnasium slippers .....	.80
Two parade caps .....	7.10	* One whisk .....	.19
One knit cap .....	.62	* One coarse comb .....	.12
One mug .....	.08	* One cake soap .....	.10
One soap box .....	.75	* One hairbrush .....	.50
One laundry book .....	.19	* Stationery .....	.50
One pair blankets .....	4.20	* Twelve white handkerchiefs .....	2.40
One pair overshoes .....	.55	* One pair suspenders .....	.40
Two pairs high shoes .....	7.06	Four suits pajamas .....	6.20
Eight white shirts .....	4.40	* One toothbrush .....	.23
Twelve collars .....	1.50	* Thread and needles .....	.20
Eight pairs cuffs .....	1.44	* Blacking brush and blacking .....	.65
Eight pairs socks .....	1.44	* Nailbrush .....	.30
* Eight towels .....	1.50	Six pillowcases .....	.66
* Shaving outfit .....	2.35	One black silk neckerchief .....	.45
* Six pairs drawers (summer) .....	2.28	Name plate .....	.11
* Six undershirts (summer) .....	2.28	One blue jersey .....	1.96
One hand glass .....	.50	Three white hats .....	1.20
Three striped jerseys .....	2.40		
One jackknife .....	.42		
			184.99

When moving into quarters, Midshipmen will supply themselves with the following articles, viz:

<i>a</i> Two bedspreads .....	\$1.90	<i>a</i> One rug .....	\$0.80
<i>a</i> Two pairs drill gloves .....	1.10	<i>a</i> One hair mattress .....	5.10
<i>a</i> One slop jar .....	.88	<i>a</i> One broom .....	.30
<i>a</i> Two spatter cloths .....	1.00		
One hair pillow .....	.74		12.82
One mirror .....	1.00		

Articles marked *a* will not be taken on board the practice ship.

The articles marked \*, not being required to conform to a standard pattern, may be brought by the midshipmen from home, but all other articles must conform to the regulations, and must therefore be supplied by the storekeeper.

Each midshipman must, on admission, deposit with the pay officer the sum of \$60, for which he will be credited on the books of that officer, to be expended by direction of the Superintendent in the purchase of text-books and other authorized articles besides those enumerated in the preceding article.

All deposits for clothing and the entrance deposit of \$60 must be made before a candidate can be received into the Academy.

## SUMMARY OF EXPENSES.

Deposit for clothing, etc. ....	\$197.81
Deposit for books, etc. ....	60.00
	<hr/>
	257.81

The value of clothing brought from home is to be deducted from this amount.

Each midshipman will be credited, as soon as adjusted by the Treasury Department, with the amount of his actual expenses in traveling from his home to the Academy.

# COURSE OF INSTRUCTION, 1903-1906.

## THIRD YEAR—SECOND CLASS.

## FIRST TERM.

Departments.	Periods each week.	Subjects.	Text-books.
ORDNANCE AND GUNNERY	2	Infantry and artillery instructions.	Drill Regulations.
MARINE ENGINEERING AND NAVAL CONSTRUCTION.	4	Principles of mechanism. Marine engines and boilers.	Goodeve's Elements of Mechanism. Bieg's Naval Boilers.
MECHANICS	5	Theoretical mechanics. Hydromechanics.	Johnson's Mechanica. Alger's Hydromechanics.
PHYSICS AND CHEMISTRY	3	Physics.	Daniell's Principles of Physics. Watson's Physics. Stewart and Gee's Practical Physics. Lecture Notes.
MODERN LANGUAGES	2	Spanish	Spanish plays.

## SECOND TERM.

SEAMANSHIP	2	Seamanship	Knight's Modern Seamanship. Tactical Signal Book. Manual of Seamanship, U. S. Navy, Hourigan.
ORDNANCE AND GUNNERY	2	Gun drills and torpedoes. Instructions for target practice. Ordnance and gunnery.	Ship and Gun Drill, 1905. Landing Force and Small Arm Instruction, 1905. Instructions for Target Practice. Text-book, Ordnance and Gunnery, Fulham and Hart.
NAVIGATION	3	Astronomy. Navigation	White's Astronomy. Muir's Navigation and Nautical Astronomy. Nautical Almanac.* Bowditch's Navigator.*
MARINE ENGINEERING AND NAVAL CONSTRUCTION.	4	Marine engines and boilers.	Barton's Naval Engines and Machinery. Marine Engines, Problems, Notes, and Sketches. Barton's Mechanical Processes. Navy Regulations. Care and Management of Engines and Boilers.
MECHANICS	2	Mechanics	Cotterill and Shade's Lessons in Applied Mechanics. Department Notes.
PHYSICS AND CHEMISTRY	3	Physics. Electricity and magnetism.	Same as for first term. Thompson's Electricity and Magnetism. Day's Exercises in Electrical Measurements. Lecture Notes.
MODERN LANGUAGES	F.	French or Spanish	French and Spanish comedy and novels.

## FOURTH YEAR—FIRST CLASS.

## FIRST TERM.

Departments.	Periods each week.	Subjects.	Text-books.
SEAMANSHIP -----	3	Seamanship and naval tactics.	Knight's Modern Seamanship. Tactical Signal Book. Department Circulars.* Navy Regulations.* Hoff's Elementary Naval Tactics. Manual of Seamanship, Hourigan.
ORDNANCE AND GUNNERY ---	3	Ordnance and gunnery ----- Exterior ballistics ----- Elastic strength of guns ----- Torpedoes and mines -----	Text-book, Ordnance and Gunnery, Ful- lam and Hart. Exterior Ballistics, Alger. Elastic Strength, Alger. Torpedoes and Mines.
NAVIGATION -----	4	Theory of navigation ----- Compass deviation and sur- veying.	Coffin's Navigation. Admiralty Manual. Diehl's Practical Problems. Phelps Marine Surveying. Bowditch's Navigator.* Nautical Almanac.*
MARINE ENGINEERING AND NAVAL CONSTRUCTION.	2	Boilers -----	Barton's Naval Engines and Machinery. Bieg's Naval Boilers.
	2	Naval construction -----	Atwood's Text-book of Theoretical Naval Architecture. Steel Ship Building and Plates. Navy Department Pamphlets. The Oscillations of Ships.
PHYSICS AND CHEMISTRY ---	2	Physics -----	Same as for last term. Thompson's Dynamo Electric Machinery and Lecture Notes. Bullard's Naval Electrician's Text and Hand Book.
MODERN LANGUAGES -----	F.	French or Spanish -----	French and Spanish comedy and novels.

The course in physiology and hygiene having been transferred from the fourth to the first class year, and the present first and second classes having already taken the course, there will be no lectures and instruction in this subject for two years.

## COURSE OF INSTRUCTION.

## PHYSICS AND CHEMISTRY.

Experimental work in the Chemical and Physical Laboratories, illustrating and supplementing the class-room instruction. A large portion of the limited time is devoted to magnetic and electrical measurements, and to the management and uses of electric dynamos and motors.

## PHYSICAL TRAINING.

Class drills in calisthenics, free movements and with apparatus.

Special exercises to promote symmetrical development when necessary. Athletic exercises, including boxing and swimming. Dancing.

## PRACTICAL INSTRUCTION OF MIDSHIPMEN.

## SEAMANSHIP.

Knotting and splicing; compass and lead line; ship nomenclature; cutting and fitting hemp rigging; cutting and fitting wire rigging; rowing, and the management of boats under oars and under sail; sailmaking; making up, bending, unbending, and handling sails; rigging ship; stripping ship; shifting spars; getting under way and anchoring; evolutions with vessels under sail and under steam; signaling, Army and Navy Code; management of steam launches; steam fleet tactics with steam launches.

## ORDNANCE.

Infantry, schools of the squad, company, and battalion, in close and extended orders; artillery, schools of the battery and battalion; exercise and target practice with small arms and guns of main and secondary batteries; exercise with cane, smallsword, and broadsword; handling and firing torpedoes, use of Riehlé and Rodman testing machines; determinations of velocities; experimental determination of range tables, also of the jump and drift; the preparation, inspection, care, and preservation of ordnance material.

## NAVIGATION.

Navigation: Observations, with sextant and artificial horizon, for time, longitude, chronometer, correction, latitude, azimuth.

Surveying: Surveying and constructing a chart of a portion of the Severn River.

Compass Deviations: Swinging an iron ship, and observing the deviations and the times of vibration of horizontal and vertical needles on different courses; from these observations finding the approximate and the exact coefficients, and the horizontal and the vertical forces acting on the standard and steering compasses; also finding the heeling coefficients for the same compasses without heeling the ship; also correcting the deviations of a compass, using a Navy compensating binnacle.

## STEAM ENGINEERING.

*Shop work.*—The Pattern Shop: Selection and treatment of different woods for different purposes. Elementary work of the carpenter shop, through mortising, joining, etc., to finished pattern work.

The Foundry: Iron and brass casting; the making of bronzes, alloys, etc.

The Blacksmith Shop: Forging, welding, etc.; tempering, casehardening, etc.; bending and quenching tests of metals.

The Boiler Shop: Riveting, soft and hard patching, calking, annealing, tube expanding, etc.; testing.

The Machine Shop: Vise bench work; machine tool work—including the setting of work; turning; planing; boring; slotting, etc.; pipe fitting; preparation of working drawings and working from the same.

*Shipwork.*—Management of main and auxiliary engines; fire-room and engine-room routine, firing, water tending, and oiling; management of engines while maneuvering at sea; determining the condition and locating defects in machinery while in motion; lying under banked fires; coming to anchor; overhauling machinery; cleaning boilers and condensers.

*Miscellaneous.*—Use of slide rule, averaging machine, apparatus for testing oils and smoke gases; standardizing steam gauges and indicators; preparing specification for purchase of machinery and stores; testing, inspection, and preservation of stores; selection of coals; making of watch, quarter, and stations bills.

## THE UNITED STATES NAVAL ACADEMY.

---

The United States Naval Academy was founded in 1845 by the Hon. George Bancroft, Secretary of the Navy, in the Administration of President James K. Polk. It was formally opened October 10 of that year under the name of the Naval School, with Commander Franklin Buchanan as superintendent. It was placed at Annapolis, Md., on the land occupied by Fort Severn, which was given up by the War Department for the purpose. The course was fixed at five years, of which only the first year and the last were spent at the school, the intervening three years being passed at sea. This arrangement was not strictly adhered to, the exigencies of the service making it necessary, in many cases, to shorten the period of study. In January, 1846, four months after the opening of the school, the students consisted of thirty-six midshipmen of the date of 1840, who were preparing for the examination for promotion; thirteen of the date of 1841, who were to remain until drafted for service at sea; and seven acting midshipmen, appointed after September of the previous year. The midshipmen of the date of 1840 were the first to be graduated, finishing their limited course in July, 1846, and they were followed in order by the subsequent dates until the reorganization of the school in 1850.

In September, 1849, the following board was appointed to revise the plan and the regulations of the Naval School:

Commander William B. Shubrick,  
Commander Franklin Buchanan,  
Commander Samuel F. Du Pont,  
Commander George P. Upshur,  
Surgeon W. S. W. Ruschenberger,  
Professor William Chauvenet,  
Captain Henry Brewerton, United States Army.

The plan reported by the board was approved, and went into operation July 1, 1850. The new organization provided for a course of seven years, the first two and the last two at the school, and the three intermediate years at sea. The school was placed under the supervision of the Bureau of Ordnance and Hydrography, and its name was changed to the United States Naval Academy. The corps of professors was enlarged, the course was extended, and the system of separate departments with executive heads was fully adopted. It was provided that a Board of Visitors should make an annual inspection of the Academy and report upon its condition to the Secretary of the Navy. A suitable vessel was attached to the Academy as a practice ship, and the annual practice cruises were begun.

After the system had been in operation a year new changes were proposed, and the recommendations of the academic board on the subject were referred to the board of examiners for the year 1851, composed of the following-named officers:

Commodore David Conner,  
Captain Samuel L. Breese,  
Commander C. K. Stribling,  
Commander A. Bigelow,  
Commander Franklin Buchanan,  
Lieutenant Thomas T. Craven.

The change recommended by the board of examiners, and adopted by the Department, consisted mainly in leaving out the requirement of three years of sea service in the middle of the course, thus making the four years of study consecutive. The practice cruise supplied the place of the omitted sea service, and gave better opportunities for training. The change went into operation in November, 1851, together with other improvements recommended by the

In 1886 a special course of instruction in physiology and hygiene was established, in accordance with an act of Congress approved May 20 of that year.

The act of Congress approved March 2, 1889, provides that "the Academic Board of the Naval Academy shall on or before the thirtieth day of September in each year separate the first class of naval cadets then commencing their fourth year into two divisions, as they may have shown special aptitude for the duties of the respective corps, in the proportion which the aggregate number of vacancies occurring in the preceding fiscal year ending on the thirtieth day of June in the lowest grades of commissioned officers of the Line of the Navy and Marine Corps of the Navy shall bear to the number of vacancies to be supplied from the Academy occurring during the same period in the lowest grade of commissioned officers of the engineer corps of the Navy; and the cadets so assigned to the Line and Marine Corps division of the first class shall thereafter pursue a course of study arranged to fit them for service in the Line of the Navy, and the cadets so assigned to the Engineer Corps division of the first class shall thereafter pursue a separate course of study arranged to fit them for service in the Engineer Corps of the Navy, and the cadets shall thereafter, and until final graduation, at the end of their six years' course, take rank by merit with those in the same division, according to the merit marks; and from the final graduates of the Line and Marine Corps division, at the end of their six years' course, appointments shall be made hereafter as it shall be necessary to fill vacancies in the lowest grades of commissioned officers of the Line of the Navy and Marine Corps; and the vacancies in the lowest grades of the commissioned officers of the Engineer Corps of the Navy shall be filled in like manner by appointments from the final graduates of the Engineer division at the end of their six years' course: *Provided*, That no greater number of appointments into the said lowest grades of commissioned officers shall be made each year than shall equal the number of vacancies which shall have occurred in the same grades during the fiscal year then current; such appointments to be made from the final graduates of the year, in the order of merit as determined by the Academic Board of the Naval Academy, the assignment to be made by the Secretary of the Navy upon the recommendation of the Academic Board at the conclusion of the fiscal year then current; but nothing contained herein or in the naval appropriation act of August fifth, eighteen hundred and eighty-two, shall reduce the number of appointments of final graduates at the end of their six years' course below twelve in each year to the Line of the Navy, and not less than two shall be appointed annually to the Engineer Corps of the Navy, nor less than one annually to the Marine Corps; and if the number of vacancies in the lowest grades aforesaid, occurring in any year shall be greater than the number of final graduates of that year, the surplus vacancies shall be filled from the final graduates of following years, as they shall become available."

"That after the fourth day of March, eighteen hundred and eighty-nine, the minimum age of admission of cadets to the Academy shall be fifteen years and the maximum age twenty years."

In October, 1897, a post-graduate course in Naval Architecture, for the education of officers for the Construction Corps of the Navy, was established; and a class was formed from the naval cadets that had finished the four years' course in that year.

By an act of Congress, approved March 3, 1899, "the officers constituting the Engineer Corps of the Navy" were "transferred to the Line of the Navy," thereby repealing so much of the act of Congress, approved March 2, 1889, as relates to the separation of naval cadets of the first class into Line and Engineer divisions.

This same act having limited the number of Constructors in the Navy to forty, the post graduate course in Naval Architecture was discontinued.

By an act of Congress approved June 7, 1900, it was provided that—

"Whenever any naval cadet shall have finished four years of his undergraduate course of six years the succeeding appointment may be made from his Congressional district or at large in accordance with the existing law."

By an act of Congress approved July 1, 1902, it was provided that—

"The title 'naval cadet' is hereby changed to 'midshipman.'"

"That until the year nineteen hundred and fourteen, in addition to the naval cadets now authorized by law (the title having been changed by this act to midshipmen), the President shall appoint five midshipmen, and there shall be appointed from the States at large, upon the recommendation of Senators, two midshipmen for each State."

By an act of Congress approved March 3, 1903, it was provided that—

"There shall be allowed at the Naval Academy two midshipmen for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, and five each year at large: *Provided*, That the additional Congressional appointments authorized by this Act shall be made at such times as may be determined by the Secretary of the Navy, who shall equitably distribute the increase among the several States, Districts, and Territories, so that ultimately, if practicable, each Senator, Representative, and Delegate may recommend an appointment during each Congress one midshipman. *Provided further*, That members of the Fifty-seventh Congress who will not be members of the Fifty-eighth Congress, and in whose Districts or States appointments have not been made or vacancies filled in the Fifty-seventh Congress, may immediately upon the passage of this Act make the additional appointments herein provided for."

"The Secretary of the Navy shall as soon as practicable after the fifth day of March in each year notify in writing each Senator, Representative, and Delegate in Congress of any vacancy which may be regarded as existing in the State, District, or Territory which he represents, and the nomination of a candidate to fill such vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate. Such recommendation shall be made by the first day of June of that year, and if not so made the Secretary of the Navy shall fill the vacancy by the appointment of an actual resident of the State, District, or Territory in which the vacancy exists, who shall have been for at least two years immediately preceding his appointment an actual bona fide resident of the State, District, or Territory in which the vacancy exists and shall have the qualifications otherwise prescribed by law: *And provided further*, That the Superintendent of the Naval Academy shall make such rules, to be approved by the Secretary of the Navy, as will effectually prevent the practice of hazing; and any cadet found guilty of participating in or encouraging or countenancing such practice shall be summarily expelled from the Academy, and shall not thereafter be reappointed to the Corps of Cadets or be eligible for appointment as a commissioned officer in the Army or Navy or Marine Corps until two years after the graduation of the class of which he was a member."

"That the provisions of this Act for the increase of appointments of midshipmen to the Naval Academy shall continue in force until the thirtieth day of June, nineteen hundred and thirteen; and thereafter one midshipman, a now provided by law, shall be appointed for each Senator, Representative, and Delegate in Congress."

"That hereafter there shall be at the Naval Academy one midshipman from Porto Rico, who shall be a native of said island, and whose appointment shall be made by the President on the recommendation of the governor of Porto Rico."

"That after January first, nineteen hundred and four, all candidates for admission to the Naval Academy at the time of their examination must be between the ages of sixteen and twenty years."

An act of Congress, approved April 9, 1906, reads as follows:

"An Act Granting authority to the Secretary of the Navy, in his discretion, to dismiss midshipmen from the United States Naval Academy and regulating the procedure and punishment in trials for hazing at the said academy.

*"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That it shall be the duty of the Superintendent of the United States Naval Academy, whenever he shall believe the continued presence of any midshipman at the said academy to be contrary to the best interests of the service, to report in writing such fact, with a full statement of the facts upon which are based his reasons for such belief, to the Secretary of the Navy, who, if after due consideration of the said report he shall deem the superintendent's said belief reasonable and well founded, shall cause a copy of the said report to be served upon the said midshipman and require the said midshipman to show cause, in writing and within such time as the said Secretary shall deem reasonable, why he should not be dismissed from the said academy; and after due consideration of any cause so shown the said Secretary may, in his discretion, but with the written approval of the President, dismiss such midshipman from the said academy. And the truth of any issue of fact so raised, except upon the record of demerit, shall be determined by a board of inquiry convened by the Secretary of the Navy under the rules and regulations for the government of the Navy.

"SEC. 2. That so much of the Acts approved June twenty-third, eighteen hundred and seventy-four, and March third, nineteen hundred and three, as requires the Superintendent of the United States Naval Academy to convene a court-martial in all cases when it shall come to the knowledge of the said superintendent that any midshipman has been guilty of the offense commonly known as 'hazing,' and declares the finding of a court-martial so convened, when approved by the said superintendent, final, and directs that any midshipman found guilty by such court-martial shall be summarily dismissed from the said academy, and also all other Acts or parts of Acts inconsistent with the present Act are hereby repealed, and that the offense known as 'hazing' may hereafter be proceeded against, dealt with, and punished as offenses against good order and discipline and for violation and breaches of the rules of said academy. But no midshipman shall be dismissed for a single act of hazing except under the provisions of section three of this Act.

"SEC. 3. That the Superintendent of the United States Naval Academy may, in his discretion and with the approval of the Secretary of the Navy, cause any midshipman in the said academy to be tried by court-martial for the offense of hazing, as provided by the Act approved June twenty-third, eighteen hundred and seventy-four, and such court-martial, upon conviction, may sentence such midshipman to any punishment authorized by the said Act or by the Act approved March third, nineteen hundred and three, or authorized for any violation or breach of the rules of the said academy by the said rules, or, in cases of brutal or cruel hazing may, in addition to dismissal, sentence such midshipman to imprisonment for a period not exceeding one year: *Provided,* That such midshipman shall not be confined in a military or naval prison or elsewhere with men who have been convicted of crimes or misdemeanors; and such finding and sentence shall be subject to review by the convening authority and by the Secretary of the Navy, as in the cases of other courts-martial.

"SEC. 4. That the offense of 'hazing,' as mentioned in this Act, shall consist of any unauthorized assumption of authority by one midshipman over another midshipman whereby the last mentioned midshipman shall or may suffer or be exposed to suffer any cruelty, indignity, humiliation, hardship, or oppression, or the deprivation or abridgment of any right, privilege, or advantage to which he shall be legally entitled.

By an act of Congress approved June 7, 1900, it was provided that—

"Whenever any naval cadet shall have finished four years of his undergraduate course of six years the succeeding appointment may be made from his Congressional district or at large in accordance with the existing law."

By an act of Congress approved July 1, 1902, it was provided that—

"The title 'naval cadet' is hereby changed to 'midshipman.'"

"That until the year nineteen hundred and fourteen, in addition to the naval cadets now authorized by law (the title having been changed by this act to midshipmen), the President shall appoint five midshipmen, and there shall be appointed from the States at large, upon the recommendation of Senators, two midshipmen for each State."

By an act of Congress approved March 3, 1903, it was provided that—

"There shall be allowed at the Naval Academy two midshipmen for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, and five each year at large: *Provided*, That the additional Congressional appointments authorized by this Act shall be made at such times as may be determined by the Secretary of the Navy, who shall equitably distribute the increase among the several States, Districts, and Territories, so that ultimately, if practicable, each Senator, Representative, and Delegate may recommend for appointment during each Congress one midshipman. *Provided further*, That members of the Fifty-seventh Congress who will not be members of the Fifty-eighth Congress, and in whose Districts or States appointments have not been made or vacancies filled in the Fifty-seventh Congress, may immediately upon the passage of this Act make the additional appointments herein provided for."

"The Secretary of the Navy shall as soon as practicable after the fifth day of March in each year notify in writing each Senator, Representative, and Delegate in Congress of any vacancy which may be regarded as existing in the State, District, or Territory which he represents, and the nomination of a candidate to fill such vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate. Such recommendation shall be made by the first day of June of that year, and if not so made the Secretary of the Navy shall fill the vacancy by the appointment of an actual resident of the State, District, or Territory in which the vacancy exists, who shall have been for at least two years immediately preceding his appointment an actual bona fide resident of the State, District, or Territory in which the vacancy exists and shall have the qualifications otherwise prescribed by law: *And provided further*, That the Superintendent of the Naval Academy shall make such rules, to be approved by the Secretary of the Navy, as will effectually prevent the practice of hazing; and any cadet found guilty of participating in or encouraging or countenancing such practice shall be summarily expelled from the Academy, and shall not thereafter be reappointed to the Corps of Cadets or be eligible for appointment as a commissioned officer in the Army or Navy or Marine Corps until two years after the graduation of the class of which he was a member."

"That the provisions of this Act for the increase of appointments of midshipmen to the Naval Academy shall continue in force until the thirtieth day of June, nineteen hundred and thirteen; and thereafter one midshipman, as now provided by law, shall be appointed for each Senator, Representative, and Delegate in Congress."

"That hereafter there shall be at the Naval Academy one midshipman from Porto Rico, who shall be a native of said island, and whose appointment shall be made by the President on the recommendation of the governor of Porto Rico."

"That after January first, nineteen hundred and four, all candidates for admission to the Naval Academy at the time of their examination must be between the ages of sixteen and twenty years."

## MERIT ROLLS FOR 1905-1906.

---

Merit rolls, made out annually for each class, show the proficiency of the midshipmen in each branch of study. The numbers given in the table, showing the relative weight of the different branches, are used as coefficients; the final mark in each branch (on a scale of 4) being multiplied by the number assigned to that branch. The sum of the products, after adding the multiple for discipline, is the final mark of the midshipmen for the year.

In the case of midshipmen that take an advanced course in any branch, the final mark in that branch is determined by adding to the final mark received in the required course one-fifth of the amount by which the final mark in the advanced course exceeds 2.50.

In the graduating merit roll, the final standing for the course is determined by the sum of the yearly marks.

"Midshipmen who attain 85 per cent of the multiple in any year shall be distinguished by a star affixed to their names on the merit rolls." (Regulations United States Naval Academy, par. 186.)

The diplomas of midshipmen whose final marks on the graduating merit roll are not less than 85 per cent of the maximum read, "passed with distinction;" those whose final marks are between 74 per cent and 85 per cent of the maximum read, "passed with credit;" and those whose final marks are between 62½ per cent and 74 per cent of the maximum read "passed."

## REGULATIONS GOVERNING THE ADMISSION OF CANDIDATES INTO THE NAVAL ACADEMY AS MIDSHIPMEN.

### NOMINATION.

The students of the Naval Academy are styled midshipmen.

Two midshipmen are allowed for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, and five each year from the United States at large. The appointments from the District of Columbia and five each year at large are made by the President.

One midshipman is allowed from Porto Rico, who must be a native of that island. The appointment is made by the President, on the recommendation of the Governor of Porto Rico.

After June thirtieth, nineteen hundred and thirteen, each Senator, Representative, and Delegate in Congress will be allowed to appoint but one midshipman instead of two.

The course for midshipmen is six years—four years at the Academy, when the succeeding appointment is made, and two years at sea, at the expiration of which time the examination for final graduation takes place.

Midshipmen who pass the examination for final graduation are appointed to fill vacancies in the lower grades of the Line of the Navy and of the Marine Corps.

"Hereafter the Secretary of the Navy shall, as soon as possible after the 1st day of June of each year preceding the graduation of midshipmen in the succeeding year, notify in writing each Senator, Representative, and Delegate in Congress of any vacancy that will exist at the Naval Academy because of such graduation, or that may occur for other reasons, and which he shall be entitled to fill by nomination of a candidate and one or more alternates therefor. The nomination of a candidate and alternate or alternates to fill said vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate, if such recommendation is made by the 4th day of March of the year following that in which said notice in writing is given, but if it is not made by that time the Secretary of the Navy shall fill the vacancy by appointment of an actual resident of the State, congressional district, or Territory, as the case may be, in which the vacancy will exist, who shall have been for at least two years immediately preceding the date of his appointment an actual and bona fide resident of the State, congressional district, or Territory in which the vacancy will exist and of the legal qualification under the law as now provided. In cases where by reason of a vacancy in the membership of the Senate or House of Representatives, or by the death or declination of a candidate for admission to the Academy, there occurs or is about to occur at the Academy a vacancy from any State, district, or Territory that can not be filled by nomination as herein provided, the same may be filled as soon thereafter and before the final entrance examination for the year as the Secretary of the Navy may determine."—(*Act approved June 29, 1906.*)

Candidates allowed for congressional districts, for Territories, and for the District of Columbia must be actual residents of the districts or Territories, respectively, from which they are nominated.

All candidates must, at the time of their examination for admission, be between the ages of sixteen and twenty years. A candidate is eligible for appointment on the day he becomes sixteen and is ineligible on the day he becomes twenty years of age.

## EXAMINATION.

*"All candidates for admission into the Academy shall be examined according to such regulations and at such stated times as the Secretary of the Navy may prescribe. Candidates rejected at such examination shall not have the privilege of another examination for admission to the same class unless recommended by the Board of Examiners."*—(Rev. Stat., § 1515.)

When any candidate who has been nominated upon the recommendation of a Senator, Member, or Delegate of the House of Representatives is found, upon examination, to be physically or mentally disqualified for admission, the Senator, Member, or Delegate shall be notified to recommend another candidate, who shall be examined according to the provisions of the preceding section.

Beginning with the year nineteen hundred and four, but two examinations for admission of midshipmen to the Academy will be held each year, as follows:

1. The first examination to be held on the third Tuesday in April, under the supervision of the Civil Service Commission, at points named in the accompanying list. All those qualifying mentally who are entitled to appointment in order of nomination will be notified by the superintendent of the Naval Academy when to report at the Academy for physical examination, and if physically qualified will be appointed.

Candidates nominated for the April examination may be examined at Washington, D. C., if so desired, or at any of the places in any State named in the above schedule.

Senators and Representatives are requested, when designating their nominees, to give the place at which it is desired they should be examined if nominated for the April examination.

2. The second and last examination will be held at Annapolis, Md., *only*, on the third Tuesday in June, under the supervision of the Superintendent of the Naval Academy. Candidates are examined mentally at this examination, and all those entitled to appointment will be directed to report for physical examination, as soon as practicable, at the Naval Academy.

Alternates are given the privilege of reporting for mental examination at the same time with the principal.

No examination will be held later than the third Tuesday in June.

The large number of midshipmen to be instructed and drilled makes this rule necessary, and it is to the great advantage of the new midshipmen themselves. The summer months are utilized in preliminary instruction in professional branches and drills, such as handling boats under oars and sails, and in seamanship, gunnery, and infantry drills. These practical exercises form most excellent groundwork as a preparation for the academic course.

The examination papers used in all examinations are prepared at the Naval Academy and the examinations of candidates are finally passed upon by the Academic Board.

Under the law, candidates failing to pass the entrance examination can not be allowed another examination for admission to the same class unless recommended for reexamination by the Board of Examiners.

The Civil Service Commission only conducts the examination of candidates whose names have been furnished by the Navy Department. All correspondence relative to the nomination and examination of candidates should be addressed to the Bureau of Navigation, Navy Department, Washington, D. C.

Candidates will be required to enter the Academy *immediately after passing the prescribed examinations.*

*No leave of absence will be granted to midshipmen of the fourth class.*

Candidates will be examined physically at the Naval Academy by a board composed of three medical officers of the Navy whose decision will be final.

Candidates are required to be physically sound, well formed, and of robust constitution.

Any one of the following conditions will be sufficient to cause the rejection of a candidate, viz:

Feeble constitution, inherited or acquired.

Retarded development.

Impaired general health.

Decided cachexia, diathesis, or predisposition.

Any disease, deformity, or result of injury that would impair efficiency; such as—

Weak or disordered intellect.

Cutaneous or communicable disease.

Unnatural curvature of the spine, torticollis, or other deformity.

Inefficiency of either of the extremities or large articulations from any cause.

Epilepsy or other convulsions within five years.

Impaired vision, disease of the organs of vision, imperfect color sense; *visual acuteness must be normal, i. e., 20/20 for each eye without the aid of glasses.*

Impaired hearing or disease of either ear. The organs of hearing, both the conductive apparatus (outer and middle ear) and the percipient apparatus.

(internal ear) must be free from disease. In testing the hearing of the candidate, the voice, the ticking of a watch, and, if practicable, Politzer's acoumeter shall be employed.

The voice is a more reliable method of determining the acuteness of hearing than the ticking of an ordinary watch, as it allows for variations in hearing, with the modifications produced by changes in pitch and tone. Hearing in each ear must be normally acute to the spoken and whispered voice. In examining the acuteness of the hearing with the voice, one ear of the candidate should be closed while the other ear is being examined, and his eyes should be covered to prevent lip reading. The ticking of an ordinary watch should be heard at a distance of 40 inches.

Chronic nasal catarrh, ozaena, polypi, or great enlargement of the tonsils.

Impediment of speech to such an extent as to impair efficiency in the performance of duty.

Disease of heart or lungs or decided indications of liability to cardiac or pulmonary affections.

Hernia, complete or incomplete, and undescended testis.

Varicocele, sarcocele, hydrocele, stricture, fistula, hemorrhoids, or varicose veins of lower limbs.

Disease of the genito-urinary organs.

Chronic ulcers, ingrowing nails, large bunions, cross or hammer toes, or other deformity of the feet.

Loss of many teeth, or teeth generally unsound. There shall be at least eight opposing molars, two on each side in each jaw.

Attention will also be paid to the stature of the candidate, and no one manifestly under size for his age will be received at the Academy. The height of candidates for admission shall not be less than 5 feet 2 inches between the ages of 16 and 18 years, and not less than 5 feet 4 inches between the ages of 18 and 20 years; and the minimum weight at 16 years of age shall be 105 pounds, with an increase of not less than 5 pounds for each additional year, or fraction of a year over one-half. Any marked deviation in the height and weight relative to the age of a candidate will add materially to the consideration for rejection.

Candidates must be unmarried, and any midshipman who shall marry, or who shall be found to be married, before his final graduation, shall be dismissed the service.

Candidates will be examined mentally in punctuation, spelling, arithmetic, geography, English grammar, United States history, world's history, algebra through quadratic equations, and plane geometry (five books of Chauvenet's Geometry, or an equivalent). Deficiency in any one of these subjects may be sufficient to insure the rejection of the candidate.

#### GENERAL CHARACTER OF THE EXAMINATION.

READING AND WRITING.—Candidates must be able to read understandingly, and with proper accent and emphasis, and to write legibly, neatly, and rapidly.

SPELLING.—They must be able to write, from dictation, paragraphs from standard pieces of English literature, both prose and poetry, sufficient in number to test fully their qualifications in this branch. The spelling throughout the examination will be considered in marking the papers. The Academic Board are instructed not to reject a candidate whose only deficiency is in spelling when the mark therefor is above a certain figure, to be fixed by the board, subject to the revision of the Department.

PUNCTUATION AND CAPITALS.—They must be familiar with the rules for punctuation and for the use of capitals. In order to test their knowledge, sentences will be given for correction.

**GRAMMAR.**—Candidates must exhibit thorough familiarity with English grammar; they must be able to analyze and parse any sentence given, showing clearly the relations between the different parts of speech, and giving the rules governing those relations. The subject and predicate in the sentence must be given, with modifiers (if any), and also the part of speech, and kind, case, voice, mood, tense, number, person, degree of comparison, etc., as the case may be, of each word, and its relation to other words in the sentence.

They must be able to define the terms used in grammar, a number of which will be given as a test of their knowledge.

A composition on one of three subjects will be required.

Since the school grammars used in different parts of the country vary among themselves in their treatment of certain words, an answer approved by any grammar of good repute will be accepted.

**GEOGRAPHY.**—Candidates will be required to pass a satisfactory examination in descriptive geography, particularly of our own country. Questions will be given under the following heads: The definitions of latitude and longitude (including problems with regard to differences of time between places); the zones; the grand divisions of land and water; the character of coast lines; the climate of different parts of the United States; trade winds; the direction and position of important mountain chains and the locality of the higher peaks; the position and course of the principal rivers, their tributaries, and the bodies of water into which they flow; the position of important seas, bays, gulfs, and arms of the sea; the position of independent States, their boundaries and capital cities; the position and direction of great peninsulas and the situation of important and prominent capes, straits, sounds, channels, and the most important canals; great lakes and inland seas; position and political connection of important islands and colonial possessions; location of cities of historical, political, or commercial importance, attention being especially called to the rivers and bodies of water on which cities are situated; the course of a vessel in making a voyage between well-known ports.

The candidate's knowledge of the geography of the United States can not be too full or specific on all the points referred to above. Accurate knowledge will also be required of the position of the country with reference to other States, and with reference to latitude and longitude, of the boundaries and relative position of the States and Territories, of the name and position of their capitals, and of other important cities and towns.

**UNITED STATES HISTORY.**—The examination in this branch will include questions concerning the early settlements in this country; the forms of government in the colonies; the causes, leading events, and results of wars; and prominent events in the history of our Government since its foundation.

**WORLD'S HISTORY.**—Candidates must be familiar with the general history of the world, including the rise and the fall of empires and of dynasties; changes in territory as the result of wars or from other causes; the most important treaties of peace; the relations between church and state in different countries; in brief, such information as may be found in the ordinary general histories.

**ARITHMETIC.**—The candidate will be required—

To express in figures any whole, decimal, or mixed number; to write in words any given number; to perform with facility and accuracy the various operations of addition, subtraction, multiplication, and division of whole numbers, whether abstract or compound, and to use with facility the tables of money, weights, and measures in common use, including English money.

To reduce compound numbers from one denomination to another, and to express them as decimals or fractions of a higher or lower denomination; to state the number of cubic inches in a gallon and the relation between the troy

and avoirdupois pounds, and to reduce differences of time to differences of longitude and *vice versa*.

To define prime and composite numbers; to give the tests of divisibility by 3, 5, 9, 11, 25, and 125; to resolve numbers into their prime factors, and to find the least common multiple and the greatest common divisor of large as well as of small numbers.

To be familiar with all the processes of common and decimal fractions; to give clearly the reasons for such processes, and to be able to use the contracted methods of multiplication and division given in the ordinary text-books on arithmetic.

To define ratio and proportion, and to solve problems in simple and compound proportion.

To solve problems involving the measurement of rectangular surfaces and of solids; to find the square roots and the cube roots of numbers, and to solve simple problems under percentage, interest, and discount.

The candidates are required to possess such a thorough understanding of all the fundamental operations of arithmetic as will enable them to apply the various principles to the solution of any complex problem that can be solved by the methods of arithmetic; in other words, they must possess such a complete knowledge of arithmetic as will enable them to proceed at once to the higher branches of mathematics without further study of arithmetic.

ALGEBRA.—The examination in algebra will include questions and problems upon the fundamental rules, factoring, greatest common divisor, least common multiple, algebraic fractions, equations of the first degree with one or more unknown quantities, simplification of expressions involving surds, and the solution and theory of quadratic equations.

GEOMETRY.—In geometry candidates will be required to give accurate definitions of terms used in plane geometry, to demonstrate any proposition of plane geometry as given in the ordinary text-books, and to solve simple geometrical problems, either by a construction or by an application of algebra.

## CHARACTER OF THE QUESTIONS AT EXAMINATION FOR ADMISSION.

### PUNCTUATION AND CAPITALS.

Punctuate and capitalize the following:

1. burke in his speech on conciliation with america p 177 said first sir permit me to observe that the use of force alone is but temporary it may subdue for the moment but it does not remove the necessity of subduing and a nation is not governed which is perpetually to be conquered

2. salarino adds i would it might prove the end of his losses moulton shakespeare p 78

3. his state  
is kingly thousands at his bidding speed  
and post oer land and ocean without rest

4. the text here followed is that of a j george select speeches of daniel webster boston heath 1893.

### GRAMMAR.

#### I.

1. Name the parts of speech to which the italicized words belong: Every one *but me* is dead, *but I live on in* pain. Alas, for me!

2. Compare *little, unconsciously, bad, near, hind*.

3. Give the principal parts of *beat*, *buy*, *fly*, and *sleep*, and state in each case whether it belongs to the strong or to the weak conjugation.

4. Write sentences illustrating three different meanings of *that*. Parse *that* in each of them.

## II.

Explain the difference between direct and indirect discourse. Change the following extract to a direct quotation, i. e., give the exact words that Themistocles said: He told the king that he was Themistocles the Athenian, driven into banishment by the Greeks; that the evils he had done to the Persians were numerous, but his benefits to them yet greater, in withholding the Greeks from pursuit, so soon as the deliverance of his own country allowed him to show kindness to the king.

## III.

Analyze the following sentence and parse the italicized words: *He treated as enemies the men who had labored most earnestly for his success.*

## IV.

1. Decline: *man*, *ox*, *bear*, *she*.

2. (a) Define and give an example of a neuter noun, a transitive verb, and a reflexive pronoun. (b) Give diminutives of: *cat*, *goose*, *hill*.

3. Correct the sentences: Dog and I and father went a hunting. I saw a man digging a well with a Roman nose.

4. Give a synopsis in the third person singular, throughout all the moods and tenses, of the verb *to go*.

## V.

Write a composition of one page on one of the following subjects:

1. A description of some journey. 2. A sketch of the character of some person, either from life or from reading. 3. John Paul Jones.

## GEOGRAPHY.

## I.

1. Fix the position of the following: Kingston, Mauritius, Faroe Islands, Kishenev, Saigon, Leeward Islands, Aden, Saghalien, Rangoon, Teneriffe.

2. Bound the Austrian Empire.

## II.

1. Name in order the States or Territories forming the northern, western, and southern boundaries of the United States. Name the capital of each.

2. Name and locate accurately the island possessions of the United States.

## III.

1. Describe the course of the Gulf Stream and tell how it influences climate.

2. Define: monsoon, magnetic poles, mercator's projection, meridian, Tropics of Capricorn, delta, equinox, atoll.

## IV.

1. In making a voyage by water from St. Petersburg to St. Louis, name in order (1) the waters passed through, and (2) the islands passed.

2. Fix the position of the following: Gulf of Riga, Sea of Marmora, Gulf Taranto, The Wash, Macassar Strait, Gulf of Bothnia, Strait of Bonifacio, Gulf of Guayaquil.

## UNITED STATES HISTORY.

## I.

Give some account of the following: The man for whom America was named, the editor of the "Federalist," Stephen Decatur, Andrew Jackson.

## II.

1. Give some account of Salem witchcraft.
2. Explain the form of government in the Proprietary Colonies.
3. What were the causes and the results of the war with Tripoli?
4. Name and give the results of five important battles in the Revolutionary War; tell why they were important; give the names of the leaders of both sides in each battle.

## III.

What was (a) The Whisky Rebellion? (b) The Embargo Act of 1807? (c) The Missouri Compromise? (d) The Dred Scott Case?

## IV.

1. Explain how and when the United States acquired Alaska, Texas, Hawaiian Islands, Porto Rico, Guam, the Philippine Islands.
2. Give a brief history of political parties in the United States, mentioning the policies for which each has stood at important crises in the history of our country.

## WORLD'S HISTORY.

## I.

- (a) Give the principal events in the history of Egypt.
- (b) Name the characters that played leading parts in the history of Greece from 1100 to 146 B. C. What did they do?
- (c) Write a brief outline of the main facts in the history of the Roman Republic.

## II.

- (a) Explain in detail the Feudal System of the Middle Ages.
- (b) What did Peter the Great do for Russia? Mention the events of his reign. Who were his illustrious successors?

## III.

Name specifically some one thing for which each of the following is famous. Tell when and where each lived: Sennacherib, Croesus; Leonidas, Solon, Nero, Charlemagne, Savonarola, Richard Coeur de Lion, Gustavus Adolphus, Marat, Martin Luther, Chaucer, Wyclif, Edmund Burke, Coleridge.

## IV.

- (a) Outline the history of the reign of Queen Elizabeth, naming the principal characters and events.
- (b) What was the Confederation of the Rhine?
- (c) Narrate briefly the causes, events, and results of the French Revolution.

## ARITHMETIC.

## I.

(a) Find the value of  $\frac{ab}{c}$ , given  $a = 37.359$ ,  $b = 25.684$ ,  $c = 57.286$ . Three decimal places required in the result.

(b) A meter is 39.371 inches; find the number of meters in a mile, 3 decimal places.

(c) Find the number of square yards in a square meter to 3 decimal places.

## II.

(a) If the circumference of a circle were exactly  $3\frac{1}{2}$  times its diameter, how many turns would a wheel 4 ft. 6 in. in diameter make in rolling over 1 mile?

(b) Find the greatest common divisor of 4,058,057 and 8,504,917.

(c) Simplify  $(\frac{1}{2} \text{ of } \frac{1}{3} + \frac{1}{3} \text{ of } \frac{1}{2}) + (\frac{1}{2} + \frac{1}{3} - \frac{1}{4} + \frac{1}{5})$  and  $(34\frac{1}{2} \times 24) + 9\frac{1}{2}$ , and find the product of the two results.

## III.

(a) Find the value  $\frac{3 + \sqrt{7}}{3 - \sqrt{7}}$  to 6 decimal places.

(b) Find the cube root of 6,599 to 5 decimal places.

## IV.

(a) Supposing gold to be worth \$19.50 per oz. Troy; find the value of a mass of gold coin which weighs 2 lbs. 1 oz. 13 dwts. 15 grs.,  $\frac{1}{2}$  of the mass being pure gold and the rest copper worth 25 cents a pound.

(b) Find the value of an iron plate 15 ft. long, 5 ft. 6 in. wide, and  $5\frac{1}{2}$  in. thick at \$325 for 2,240 lbs., given that a cubic foot of iron weighs  $468\frac{1}{4}$  lbs.

## V.

(a) A and B run a mile race. A goes 5 feet at each step and makes 3.3 steps per second all through the race. B goes 6 feet at each step and takes 3 steps per second for  $\frac{3}{4}$  of a mile, but for the last  $\frac{1}{4}$  mile he only goes 5.5 feet each step and makes 2.5 steps per second. Which won the race, and how many seconds did each man take?

(b) The interest on \$5,481 for 3 yrs. 6 mos. and 20 days is \$1,299.20. What is the rate per cent? At the same rate, in how many years would the interest become equal to the principal?

## VI.

(a) If a model of the earth were made with a diameter of 60 feet, what decimal part of an inch would represent the height of the highest mountain? Take the diameter of the earth as 7,912 miles and the height of the mountain as 30,000 feet.

(b) If 1,869 sovereigns are coined from 440 oz. Troy of gold, and 1,550 20-franc pieces are coined from 9 kilogrammes of gold (1 kilogramme = 2.2072 lbs. Avoirdupois); find the number of francs in a sovereign to three decimal places.

## ALGEBRA.

## I.

(a) Write out the square of  $(a + b + c + d + e)$  and the cube of  $(a + b + c + d)$ .

(b) Substitute  $y + 3$  in place of  $x$  in the expression  $x^4 + 3x^3 - 18x^2 + 6x - 90$ , and write the result as an expression arranged according to descending powers of  $y$ .

(c) Given  $\frac{3x}{10} - \frac{y}{15} - \frac{4}{9} = \frac{x}{12} - \frac{y}{18}$ , and  $2x - \frac{8}{3} = \frac{x}{12} - \frac{y}{15} + \frac{11}{10}$ ; find  $x$  and  $y$ .

II.

(a) Reduce  $\frac{x^4 + 3x^3 - 7x^2 - 21x - 86}{x^4 + 2x^3 - 10x^2 - 11x - 12}$  to its lowest terms.

(b) The length of a field is  $m$  times its breadth; another field is  $a$  yards longer and  $b$  yards broader and contains  $c^2$  square yards more than the first; find the dimensions of the first field.

III.

(a) Simplify  $25 + (\sqrt{10} + \sqrt{20} + \sqrt{40} - \sqrt{5} - \sqrt{80})$ , and find the square root of  $52 + 14\sqrt{3}$

(b) Multiply  $3x^{-\frac{1}{2}} + x + 2x^{\frac{1}{2}}$  by  $x^{\frac{1}{2}} + x^{-\frac{1}{2}}$

(c) Simplify  $(3a^{2n} - 4a^{2n-2}) \div (a^n - a^{n-1})$ , and find the value of the result (1) when  $a = 2$  and  $n = 1$ , (2) when  $a = 2$  and  $n = -1$ .

IV.

(a) Solve the equation  $px^2 + qx + r = 0$ , and find the sum and the product of its roots. Form an equation whose roots are  $\frac{a+b}{a-b}$  and  $\frac{a-b}{a+b}$

(b) Solve the equation  $3x^2 - 19x = 14,600$ .

V.

(a) Find  $x$ , given  $\frac{x}{15} + \frac{40}{3(10-x)} = \frac{3(10+x)}{95}$

(b) Given  $x^2 + xy = 70$  and  $xy - y^2 = 12$ , find  $x$  and  $y$ .

GEOMETRY.

I.

(a) Prove that an exterior angle of a triangle is equal to the sum of the two opposite interior angles. Define *axiom* and *postulate*, and give an example of each. Define *trapezoid*, *trapezium*, *rhombus*, and *rhomboïd*.

(b) Prove that the three lines drawn from the vertices of a triangle to the middle points of the opposite sides meet in a point.

(c) In a trapezium the middle points of adjacent sides are joined; show that the figure so formed is a parallelogram, and that its perimeter is equal to the sum of the diagonals of the trapezium.

II.

(a) Prove that the angle between two chords which meet within the circle is measured by one-half the sum of the intercepted arcs. How is the angle measured when the chords meet outside the circle? Prove your statement.

(b) Draw a line about 2 inches long and upon it as a chord construct a segment of a circle which shall contain an angle of  $45^\circ$ , explain and prove the construction. A and B are fixed points, any straight line is drawn through A, and a second line through B, meeting the first at P and making the angle  $\angle APB = 60^\circ$ . What is the locus of P, and why?

III.

(a) A line AB is divided internally at C and externally at D; name the internal segment and the external segments. The sides of a triangle are  $a$ ,  $b$ , and  $c$ ; the angle opposite the side  $c$  is bisected; find algebraic expressions for the segments of the side  $c$  made by the bisector, and state the proposition upon which your answer depends.

(b) When are quantities reciprocally proportional? Give an example in geometry where a series of lines are reciprocally proportional. Define extreme and mean ratio. The line AB, length  $c$ , is divided into extreme and mean ratio internally at C; find algebraic expressions for the segments AC and CB.

## IV.

(a) Prove geometrically that the square described upon the hypotenuse of a right triangle is equivalent to the sum of the squares described upon the other two sides.

(b) The sides of a right triangle are  $a$  and  $b$  and the hypotenuse is  $c$ ; find the radius of the inscribed circle, the radius of the circumscribed circle, and the length of each of the medial lines.

## V.

(a) Write the following formulas: Circumference and area of a circle radius  $a$  Area of trapezoid, parallel sides  $a$  and  $b$ , altitude  $h$ . Area of triangle sides  $a$ ,  $b$ , and  $c$ . Give a value of  $\pi$  expressed decimally and two other approximate values of  $\pi$  expressed as a common fraction. An equilateral triangle is inscribed in a circle of radius  $a$ , find the length of a side of the triangle and its area.

(b) The sides of a right triangle are  $a$  and  $b$  and the hypotenuse is  $c$ , find the length of the side of a square inscribed in the triangle, the square resting on a side.

(c) Find the length of a side of the inscribed square when it rests on the hypotenuse.

## ADMISSION.

Candidates that pass the physical and mental examinations will receive appointments as midshipmen, and become students of the Academy. Each midshipman will be required to sign articles by which he binds himself to serve in the United States Navy eight years (including his time of probation at the Naval Academy), unless sooner discharged.

The pay of a midshipman is \$500 a year, commencing at the date of his admission.

Midshipmen will supply themselves, immediately upon their admission, with the following articles, viz:

One dress jacket .....	\$20.78	One pair overshoes.....	\$0.70
One blouse.....	15.22	Two pairs high shoes .....	8.00

One mirror .....	1. 00		

Articles marked *a* will not be taken on board the practice ship.

The articles marked \*, not being required to conform to a standard pattern, may be brought by the midshipmen from home, but all other articles must conform to the regulations, and must therefore be supplied by the storekeeper.

Each midshipman must, on admission, deposit with the pay officer the sum of \$60, for which he will be credited on the books of that officer, to be expended by direction of the Superintendent in the purchase of text-books and other authorized articles besides those enumerated in the preceding article.

All deposits for clothing and the entrance deposit of \$60 must be made before a candidate can be received into the Academy.

Checks for these deposits *must not be made payable to the order of the Superintendent*. They should be made payable to the candidate's own order and be presented to the pay officer of the Naval Academy at the time of deposit.

#### SUMMARY OF EXPENSES.

Deposit for clothing, etc .....	\$204. 98
Deposit for books, etc .....	60. 00
	264. 98

The value of clothing brought from home is to be deducted from this amount.

Each midshipman will be paid, as soon as adjusted by the Treasury Department, the amount of his actual expenses in traveling from his home to the Academy.

## GENERAL REMARKS.

---

1. There being no provision whatever for the payment of the traveling expenses of rejected candidates for admission, no candidate should fail to provide himself in advance with the means of returning home, in case of his rejection before either of the examining boards, as he may otherwise be put to considerable inconvenience.

2. It is suggested to all candidates for admission to the Naval Academy that, before leaving their places of residence for Annapolis, they should cause themselves to be *thoroughly examined by a competent physician*, particularly regarding eyesight, hearing, and heart trouble; and by a teacher or instructor in good standing. A defect, such as varicocele, which is ordinarily removable by operation, should be remedied prior to appearing at the Naval Academy for physical examination. By such an examination, any serious physical disqualification, or deficiency in mental preparation, would be revealed, and the candidate probably spared the expense and trouble of a useless journey, and the mortification of rejection. It should be understood that the informal examination herein recommended is solely for the convenience and benefit of the candidate himself, and can in no manner affect the decision of the Examining Boards at Annapolis.

3. A sound body and constitution, suitable preparation, good natural capacity, an aptitude for study, industrious habits, perseverance, an obedient and orderly disposition, and a correct moral deportment, are such essential qualifications that candidates knowingly deficient in any of these respects should not, as many do, subject themselves and their friends to the chances of future mortification and disappointment by accepting appointments at the Naval Academy and entering on a career which they can not successfully pursue.

4. The selection of candidates, by competitive examination or otherwise, for nomination from any congressional district, is entirely in the hands of the Member of Congress entitled to the appointment, and all applications for appointment or inquiries relative to competitive examinations should be addressed to the Congressman representing the congressional district in which the vacancy exists.

## CLASS OF 1871 PRIZE.

---

The members of the class graduated from the United States Naval Academy in 1871, desiring in a permanent way to "Emphasize and record their loyalty to the Government, their affection for their Alma Mater, and their regard for the naval service," subscribed in 1904 a certain sum of money to be known as the "Class Fund of 1871, United States Naval Academy," which fund was transferred by duly authorized and executed deed of gift to trustees. This deed of gift is recorded in the office of the recorder of deeds, District of Columbia, and copies of it are filed in the offices of the Secretary of the Navy and of the Superintendent of the Naval Academy.

By the terms of the deed of gift the income of this fund shall be employed for the purchase each year of a prize to be known as the "Class of 1871 Prize," to consist of a suitable Navy dress sword and knot, to be presented to "that midshipman of each graduating class of the United States Naval Academy, who has completed the prescribed course, and who shall be considered by the Superintendent, the commandant of midshipmen, and the head of the department of ordnance and gunnery as the most proficient in practical and theoretical ordnance and gunnery."

"This prize is to be accompanied by an appropriately engraved letter containing the names of the donors and setting forth the purpose of the gift, and expressing the hope of the class of 1871 that the encouragement thus offered by old class members, both in and out of the service, to younger ones, will serve to increase the interest already existing among the midshipmen in an important professional science and art."

The "Class of 1871 Prize" has been awarded as follows:

1905, to Midshipman Royal Eason Ingersoll.

1906, to Midshipman William Alexander Glassford, jr.

## THE UNITED STATES NAVAL ACADEMY.

---

The United States Naval Academy was founded in 1845 by the Hon. George Bancroft, Secretary of the Navy, in the Administration of President James K. Polk. It was formally opened October 10 of that year under the name of the Naval School, with Commander Franklin Buchanan as superintendent. It was placed at Annapolis, Md., on the land occupied by Fort Severn, which was given up by the War Department for the purpose. The course was fixed at five years, of which only the first year and the last were spent at the school, the intervening three years being passed at sea. This arrangement was not strictly adhered to, the exigencies of the service making it necessary, in many cases, to shorten the period of study. In January, 1846, four months after the opening of the school, the students consisted of thirty-six midshipmen of the date of 1840, who were preparing for the examination for promotion; thirteen of the date of 1841, who were to remain until drafted for service at sea; and seven acting midshipmen, appointed after September of the previous year. The midshipmen of the date of 1840 were the first to be graduated, finishing their limited course in July, 1846, and they were followed in order by the subsequent dates until the reorganization of the school in 1850.

In September, 1849, the following board was appointed to revise the plan and the regulations of the Naval School:

Commander William B. Shubrick,  
Commander Franklin Buchanan,  
Commander Samuel F. Du Pont,  
Commander George P. Upshur,  
Surgeon W. S. W. Ruschenberger,  
Professor William Chauvenet,  
Captain Henry Brewerton, United States Army.

The plan reported by the board was approved, and went into operation July 1, 1850. The new organization provided for a course of seven years, the first two and the last two at the school, and the three intermediate years at sea. The school was placed under the supervision of the Bureau of Ordnance and Hydrography, and its name was changed to the United States Naval Academy. The corps of professors was enlarged, the course was extended, and the system of separate departments with executive heads was fully adopted. It was provided that a Board of Visitors should make an annual inspection of the Academy and report upon its condition to the Secretary of the Navy. A suitable vessel was attached to the Academy as a practice ship, and the annual practice cruises were begun.

After the system had been in operation a year new changes were proposed, and the recommendations of the academic board on the subject were referred to the board of examiners for the year 1851, composed of the following-named officers:

Commodore David Conner,  
Captain Samuel L. Breese,  
Commander C. K. Stribling,  
Commander A. Bigelow,  
Commander Franklin Buchanan,  
Lieutenant Thomas T. Craven.

The change recommended by the board of examiners, and adopted by the Department, consisted mainly in leaving out the requirement of three years of sea service in the middle of the course, thus making the four years of study consecutive. The practice cruise supplied the place of the omitted sea service and gave better opportunities for training. The change went into operation in November, 1851, together with other improvements recommended by the board. This system has been continued, with some slight modifications, to the present time. The first class to receive the benefit of it was that which entered in 1851. Six members of this class completed the course in three years and were graduated in June, 1854; the rest of the class followed in 1855.

In May, 1861, on the outbreak of the war, the Academy was moved to Newport, R. I. The three upper classes were detached and ordered to sea, and the remaining acting midshipmen were quartered in the Atlantic House and on board the frigates *Constitution* and *Santee*. In the summer of 1865 the Academy was brought back to Annapolis, where it has since remained.

When the Bureau of Navigation was established, July 5, 1862, the Academy was placed under its supervision; March 1, 1867, it was placed under the direct care and supervision of the Navy Department, the administrative routine and financial management being still conducted through the Bureau. On the 11th of March, 1869, this official connection with the Bureau ceased, but was renewed by the general order of the Navy Department issued June 25, 1889.

The term of the academic course was changed by law, March 3, 1873, from four to six years. The change took effect with the class that entered in the following summer.

In 1866 a class of acting third assistant engineers was ordered to the Academy for instruction. The course embraced the subjects of steam engineering, mechanism, chemistry, mechanics, and practical exercises with the steam engine and in the machine shop. This class was graduated in June, 1868, together with two cadet engineers who had entered the Academy in 1867. After an interval of four years, in October, 1871, a new class of cadet engineers was admitted. This class followed a two years' course, somewhat more extended than that of the class of 1868, and was graduated in 1873. In 1872 and 1873 new classes were admitted, the first of which left the Academy in 1874 and the second in 1875. By an act of Congress approved February 24, 1874, the course of instruction for cadet engineers was made four years instead of two; the new provision was first applied to the class entering the Academy in the year 1874. This class was graduated in June, 1878.

By an act of Congress approved August 5, 1882, it was provided that from that date "there shall be no appointments of cadet-midshipmen or cadet-engineers at the Naval Academy, but in lieu thereof naval cadets shall be appointed from each Congressional district and at large, as now provided by law for cadet-midshipmen, and all the undergraduates at the Naval Academy shall hereafter be designated and called 'naval cadets;' and from those who successfully complete the six year's course, appointments shall hereafter be made as it is necessary to fill vacancies in the lower grades of the Line and Engineer Corps of the Navy and of the Marine Corps: *And provided further*, That no greater number of appointments into these grades shall be made each year than shall equal the number of vacancies which has occurred in the same grades during the preceding year; such appointments to be made from the graduates of the year, at the conclusion of their six years' course, in the order of merit, as determined by the Academic Board of the Naval Academy; the assignment to the various corps to be made by the Secretary of the Navy upon the recommendation of the Academic Board. But nothing herein contained shall reduce the number of appointments from such graduates below ten in each year, nor deprive of such appoint-

ment any graduate who may complete the six years' course during the year eighteen hundred and eighty-two. And if there be a surplus of graduates, those who do not receive such appointment shall be given a certificate of graduation, an honorable discharge, and one year's sea pay, as now provided by law for cadet-midshipmen; and so much of section fifteen hundred and twenty-one of the Revised Statutes as is inconsistent herewith is hereby repealed."

"That any cadet whose position in his class entitles him to be retained in the service may, upon his own application, be honorably discharged at the end of the four years' course at the Naval Academy, with a proper certificate of graduation."

In 1886 a special course of instruction in physiology and hygiene was established, in accordance with an act of Congress approved May 20 of that year.

The act of Congress approved March 2, 1889, provides that "the Academic Board of the Naval Academy shall on or before the thirtieth day of September in each year separate the first class of naval cadets then commencing their fourth year into two divisions, as they may have shown special aptitude for the duties of the respective corps, in the proportion which the aggregate number of vacancies occurring in the preceding fiscal year ending on the thirtieth day of June in the lowest grades of commissioned officers of the Line of the Navy and Marine Corps of the Navy shall bear to the number of vacancies to be supplied from the Academy occurring during the same period in the lowest grade of commissioned officers of the Engineer Corps of the Navy; and the cadets so assigned to the Line and Marine Corps division of the first class shall thereafter pursue a course of study arranged to fit them for service in the Line of the Navy, and the cadets so assigned to the Engineer Corps division of the first class shall thereafter pursue a separate course of study arranged to fit them for service in the Engineer Corps of the Navy, and the cadets shall thereafter, and until final graduation at the end of their six years' course, take rank by merit with those in the same division, according to the merit marks; and from the final graduates of the Line and Marine Corps division, at the end of their six years' course, appointments shall be made hereafter as it shall be necessary to fill vacancies in the lowest grades of commissioned officers of the Line of the Navy and Marine Corps; and the vacancies in the lowest grades of the commissioned officers of the Engineer Corps of the Navy shall be filled in like manner by appointments from the final graduates of the Engineer division at the end of their six years' course: *Provided*, That no greater number of appointments into the said lowest grades of commissioned officers shall be made each year than shall equal the number of vacancies which shall have occurred in the same grades during the fiscal year then current; such appointments to be made from the final graduates of the year, in the order of merit as determined by the Academic Board of the Naval Academy, the assignment to be made by the Secretary of the Navy upon the recommendation of the Academic Board at the conclusion of the fiscal year then current; but nothing contained herein or in the naval appropriation act of August fifth, eighteen hundred and eighty-two, shall reduce the number of appointments of final graduates at the end of their six years' course below twelve in each year to the Line of the Navy, and not less than two shall be appointed annually to the Engineer Corps of the Navy, nor less than one annually to the Marine Corps; and if the number of vacancies in the lowest grades aforesaid, occurring in any year shall be greater than the number of final graduates of that year, the surplus vacancies shall be filled from the final graduates of following years, as they shall become available."

"That after the fourth day of March, eighteen hundred and eighty-nine, the minimum age of admission of cadets to the Academy shall be fifteen years and the maximum age twenty years."

In October, 1897, a postgraduate course in naval architecture, for the education of officers for the Construction Corps of the Navy, was established; and a class was formed from the naval cadets that had finished the four years' course in that year.

By an act of Congress, approved March 3, 1899, "the officers constituting the Engineers Corps of the Navy" were "transferred to the Line of the Navy," thereby repealing so much of the act of Congress, approved March 2, 1889, as relates to the separation of naval cadets of the first class into Line and Engineer divisions.

This same act having limited the number of Constructors in the Navy to forty, the postgraduate course in naval architecture was discontinued.

By an act of Congress approved June 7, 1900, it was provided that—

"Whenever any naval cadet shall have finished four years of his undergraduate course of six years the succeeding appointment may be made from his Congressional district or at large in accordance with the existing law."

By an act of Congress approved July 1, 1902, it was provided that—

"The title 'naval cadet' is hereby changed to 'midshipman.'"

"That until the year nineteen hundred and fourteen, in addition to the naval cadets now authorized by law (the title having been changed by this act to midshipmen), the President shall appoint five midshipmen, and there shall be appointed from the States at large, upon the recommendation of Senators, two midshipmen for each State."

By an act of Congress approved March 3, 1903, it was provided that—

"There shall be allowed at the Naval Academy two midshipmen for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, and five each year at large: *Provided*, That the additional Congressional appointments authorized by this Act shall be made at such times as may be determined by the Secretary of the Navy, who shall equitably distribute the increase among the several States, Districts, and Territories, so that ultimately, if practicable, each Senator, Representative, and Delegate may recommend for appointment during each Congress one midshipman. *Provided further*, That members of the Fifty-seventh Congress who will not be members of the Fifty-eighth Congress, and in whose Districts or States appointments have not been made or vacancies filled in the Fifty-seventh Congress, may immediately upon the passage of this Act make the additional appointments herein provided for.

"The Secretary of the Navy shall as soon as practicable after the fifth day of March in each year notify in writing each Senator, Representative, and Delegate in Congress of any vacancy which may be regarded as existing in the State, District, or Territory which he represents, and the nomination of a candidate to fill such vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate. Such recommendations shall be made by the first day of June of that year, and if not so made the Secretary of the Navy shall fill the vacancy by the appointment of an actual resident of the State, District, or Territory in which the vacancy exists, who shall have been for at least two years immediately preceding his appointment an actual bona fide resident of the State, District, or Territory in which the vacancy exists and shall have the qualifications otherwise prescribed by law: *And provided further*, That the Superintendent of the Naval Academy shall make such rules, to be approved by the Secretary of the Navy, as will effectually prevent the practice of hazing; and any cadet found guilty of participating in or encouraging or countenancing such practice shall be summarily expelled from the Academy, and shall not thereafter be reappointed to the Corps of Cadets or be eligible for appointment as a commissioned officer in the Army or Navy or Marine Corps until two years after the graduation of the class of which he was a member.

"That the provisions of this Act for the increase of appointments of midshipmen to the Naval Academy shall continue in force until the thirtieth day of June, nineteen hundred and thirteen; and thereafter one midshipman, as now provided by law, shall be appointed for each Senator, Representative, and Delegate in Congress.

"That hereafter there shall be at the Naval Academy one midshipman from Porto Rico, who shall be a native of said island, and whose appointment shall be made by the President on the recommendation of the governor of Porto Rico.

"That after January first, nineteen hundred and four, all candidates for admission to the Naval Academy at the time of their examination must be between the ages of sixteen and twenty years."

An act of Congress, approved April 9, 1906, reads as follows:

"An Act Granting authority to the Secretary of the Navy, in his discretion, to dismiss midshipmen from the United States Naval Academy and regulating the procedure and punishment in trials for hazing at the said academy.

*"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That it shall be the duty of the Superintendent of the United States Naval Academy, whenever he shall believe the continued presence of any midshipman at the said academy to be contrary to the best interests of the service, to report in writing such fact, with a full statement of the facts upon which are based his reasons for such belief, to the Secretary of the Navy, who, if after due consideration of the said report he shall deem the superintendent's said belief reasonable and well founded, shall cause a copy of the said report to be served upon the said midshipman and require the said midshipman to show cause, in writing and within such time as the said Secretary shall deem reasonable, why he should not be dismissed from the said academy; and after due consideration of any cause so shown the said Secretary may, in his discretion, but with the written approval of the President, dismiss such midshipman from the said academy. And the truth of any issue of fact so raised, except upon the record of demerit, shall be determined by a board of inquiry convened by the Secretary of the Navy under the rules and regulations for the government of the Navy.

"SEC. 2. That so much of the Acts approved June twenty-third, eighteen hundred and seventy-four, and March third, nineteen hundred and three, as requires the Superintendent of the United States Naval Academy to convene a court-martial in all cases when it shall come to the knowledge of the said superintendent that any midshipman has been guilty of the offense commonly known as 'hazing,' and declares the finding of a court-martial so convened, when approved by the said superintendent, final, and directs that any midshipman found guilty by such court-martial shall be summarily dismissed from the said academy, and also all other Acts or parts of Acts inconsistent with the present Act are hereby repealed, and that the offense known as 'hazing' may hereafter be proceeded against, dealt with, and punished as offenses against good order and discipline and for violation and breaches of the rules of said academy. But no midshipman shall be dismissed for a single act of hazing except under the provisions of section three of this Act.

"SEC. 3. That the Superintendent of the United States Naval Academy may, in his discretion and with the approval of the Secretary of the Navy, cause any midshipman in the said academy to be tried by court-martial for the offense of hazing, as provided by the Act approved June twenty-third, eighteen hundred and seventy-four, and such court-martial, upon conviction, may sentence such midshipman to any punishment authorized by the said Act or by the Act

approved March third, nineteen hundred and three, or authorized for any violation or breach of the rules of the said academy by the said rules, or, in cases of brutal or cruel hazing may, in addition to dismissal, sentence such midshipman to imprisonment for a period not exceeding one year: *Provided*, That such midshipman shall not be confined in a military or naval prison or elsewhere with men who have been convicted of crimes or misdemeanors; and such finding and sentence shall be subject to review by the convening authority and by the Secretary of the Navy, as in the cases of other courts-martial.

"Sec. 4. That the offense of 'hazing,' as mentioned in this Act, shall consist of any unauthorized assumption of authority by one midshipman over another midshipman whereby the last-mentioned midshipman shall or may suffer or be exposed to suffer any cruelty, indignity, humiliation, hardship, or oppression, or the deprivation or abridgment of any right, privilege, or advantage to which he shall be legally entitled.

"Sec. 5. That it shall be the duty of every professor, assistant professor, academic officer, or any cadet officer or cadet petty officer, or instructor, as well as every other officer stationed at the United States Naval Academy, to promptly report to the superintendent thereof any fact which comes to his attention tending to indicate any violation by a midshipman or midshipmen of any of the provisions of this act or any violation of the regulations of the said academy. Any naval officer attached to the academy who shall fail to make such report as provided in this section shall be tried by court-martial for neglect of duty, and if convicted he shall be dismissed from the service. Any civilian instructor attached to the academy who shall fail to make such report as provided in this section shall be dismissed by the superintendent of the academy upon the approval of the Secretary of the Navy.

"Sec. 6. That this act shall take effect from the date of its approval, but no midshipman now connected with the United States Naval Academy shall, by reason of its enactment, be punished for any offense heretofore committed otherwise than in pursuance of the sentence of a court-martial (if, by existing law, such sentence would be now necessary for such punishment) or punished more severely than is now by law allowed for any offense heretofore committed: *Provided*, That any midshipman now in said Naval Academy may waive his right to trial by court-martial under existing law for any offense of hazing heretofore committed and may accept punishment under the provisions of section two of this act."

By an act of Congress approved June 29, 1906, it was provided that—

"Hereafter the Secretary of the Navy shall, as soon as possible after the first day of June of each year preceding the graduation of midshipmen in the succeeding year, notify in writing each Senator, Representative, and Delegate in Congress of any vacancy that will exist at the Naval Academy because of such graduation, or that may occur for other reasons and which he shall be entitled to fill by nomination of a candidate and one or more alternates therefor. The nomination of a candidate and alternate or alternates to fill said vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate, if such recommendation is made by the fourth day of March of the year following in that in which said notice in writing is given, but if it is not made by that time the Secretary of the Navy shall fill the vacancy by appointment of an actual resident of the State, Congressional district, or Territory, as the case may be, in which the vacancy will exist, who shall have been for at least two years immediately preceding the date of his appointment an actual and bona fide resident of the State, Congressional district, or Territory in which the vacancy will exist

and of legal qualification under the law as now provided. In cases where by reason of a vacancy in the membership of the Senate or House of Representatives, or by the death or declination of a candidate for admission to the academy there occurs or is about to occur at the academy a vacancy from any State, district, or Territory that can not be filled by nomination as herein provided, the same may be filled as soon thereafter and before the final entrance examination for the year as the Secretary of the Navy may determine. The candidates allowed for the District of Columbia and all candidates appointed at large, together with alternates therefor, shall be selected by the President within the period herein prescribed for nomination of other candidates: *Provided*, That the President may select a candidate for the District of Columbia for the year nineteen hundred and eight.

"No person shall be admitted for instruction at the Naval Academy at Annapolis from any foreign country except upon authority of law hereafter enacted."

## MERIT ROLLS FOR 1906-1907.

Merit rolls, made out annually for each class, show the proficiency of the midshipmen in each branch of study. The numbers given in the table, showing the relative weight of the different branches, are used as coefficients; the final mark in each branch (on a scale of 4) being multiplied by the number assigned to that branch. The sum of the products, after adding the multiple for discipline, is the final mark of the midshipmen for the year.

In the case of midshipmen that take an advanced course in any branch the final mark in that branch is determined by adding to the final mark received in the required course one-fifth of the amount by which the final mark in the advanced course exceeds 2.50.

In the graduating merit roll the final standing for the course is determined by the sum of the yearly marks.

"Midshipmen who attain 85 per cent of the multiple in any year shall be distinguished by a star affixed to their names on the merit rolls." (Regulations United States Naval Academy, par. 186.)

The diplomas of midshipmen whose final marks on the graduating merit roll are not less than 85 per cent of the maximum read "passed with distinction;" those whose final marks are between 74 per cent and 85 per cent of the maximum read "passed with credit;" and those whose final marks are between 62½ per cent and 74 per cent of the maximum read "passed."

\* Received 85 per cent of the multiple.

† Found deficient, allowed a reexamination, passed, and continued with class.

\*\* Found deficient, allowed a reexamination, failed, and recommended to be again reexamined.

†† Found deficient in conduct, passed, and continued with class.

## REGULATIONS GOVERNING THE ADMISSION OF CANDIDATES INTO THE NAVAL ACADEMY AS MIDSHIPMEN.

---

### NOMINATION.

The students of the Naval Academy are styled midshipmen.

Two midshipmen are allowed for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, and five each year from the United States at large. The appointments from the District of Columbia and five each year at large are made by the President.

One midshipman is allowed from Porto Rico, who must be a native of that island. The appointment is made by the President, on the recommendation of the Governor of Porto Rico.

After June thirtieth, nineteen hundred and thirteen, each Senator, Representative, and Delegate in Congress will be allowed to appoint but one midshipman instead of two.

The course for midshipmen is six years—four years at the Academy, when the succeeding appointment is made, and two years at sea, at the expiration of which time the examination for final graduation takes place.

Midshipmen who pass the examination for final graduation are appointed to fill vacancies in the lower grades of the Line of the Navy and of the Marine Corps.

"Hereafter the Secretary of the Navy shall, as soon as possible after the 1st day of June of each year preceding the graduation of midshipmen in the succeeding year, notify in writing each Senator, Representative, and Delegate in Congress of any vacancy that will exist at the Naval Academy because of such graduation, or that may occur for other reasons, and which he shall be entitled to fill by nomination of a candidate and one or more alternates therefor. The nomination of a candidate and alternate or alternates to fill said vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate, if such recommendation is made by the 4th day of March of the year following that in which said notice in writing is given, but if it is not made by that time the Secretary of the Navy shall fill the vacancy by appointment of an actual resident of the State, Congressional district, or Territory, as the case may be, in which the vacancy will exist, who shall have been for at least two years immediately preceding the date of his appointment an actual and bona fide resident of the State, Congressional district, or Territory in which the vacancy will exist and of the legal qualification under the law as now provided. In cases where by reason of a vacancy in the membership of the Senate or House of Representatives, or by the death or declination of a candidate for admission to the Academy, there occurs or is about to occur at the Academy a vacancy from any State, district, or Territory that can not be filled by nomination as herein provided, the same may be filled as soon thereafter and before the final entrance examination for the year as the Secretary of the Navy may determine."—(*Act approved June 29, 1906.*)

Candidates allowed for Congressional districts, for Territories, and for the District of Columbia must be actual residents of the districts or Territories, respectively, from which they are nominated.

All candidates must, at the time of their examination for admission, be between the ages of sixteen and twenty years. A candidate is eligible for appointment on the day he becomes sixteen and is ineligible on the day he becomes twenty years of age.

## EXAMINATION.

"All candidates for admission into the Academy shall be examined according to such regulations and at such stated times as the Secretary of the Navy may prescribe. Candidates rejected at such examination shall not have the privilege of another examination for admission to the same class unless recommended by the Board of Examiners."—(Rev. Stat., § 1515.)

When any candidate who has been nominated upon the recommendation of a Senator, Member, or Delegate of the House of Representatives is found, upon examination, to be physically or mentally disqualified for admission, the Senator, Member, or Delegate shall be notified to recommend another candidate, who shall be examined according to the provisions of the preceding section.

Beginning with the year nineteen hundred and four, but two examinations for admission of midshipmen to the Academy will be held each year, as follows:

1. The first examination to be held on the third Tuesday in April, under the supervision of the Civil Service Commission, at points named in the accompanying list. All those qualifying mentally who are entitled to appointment in order of nomination will be notified by the superintendent of the Naval Academy when to report at the Academy for physical examination, and if physically qualified will be appointed.

Candidates nominated for the April examination may be examined at Washington, D. C., if so desired, or at any of the places in any State named in the above schedule.

Senators and Representatives are requested, when designating their nominees, to give the place at which it is desired they should be examined if nominated for the April examination.

2. The second and last examination will be held at Annapolis, Md., *only*, on the third Tuesday in June, under the supervision of the Superintendent of the Naval Academy. Candidates are examined mentally at this examination, and all those entitled to appointment will be directed to report for physical examination, as soon as practicable, at the Naval Academy.

Alternates are given the privilege of reporting for mental examination at the same time with the principal.

No examination will be held later than the third Tuesday in June.

The large number of midshipmen to be instructed and drilled makes this rule necessary, and it is to the great advantage of the new midshipmen themselves. The summer months are utilized in preliminary instruction in professional branches and drills, such as handling boats under oars and sails, and in seamanship, gunnery, and infantry drills. These practical exercises form most excellent groundwork as a preparation for the academic course.

The examination papers used in all examinations are prepared at the Naval Academy and the examinations of candidates are finally passed upon by the Academic Board.

Under the law, candidates failing to pass the entrance examination can not be allowed another examination for admission to the same class unless recommended for reexamination by the Board of Examiners.

The Civil Service Commission only conducts the examination of candidates whose names have been furnished by the Navy Department. All correspondence relative to the nomination and examination of candidates should be addressed to the Bureau of Navigation, Navy Department, Washington, D. C.

Candidates will be required to enter the Academy *immediately after passing the prescribed examinations.*

*No leave of absence will be granted to midshipmen of the fourth class.*

Candidates will be examined physically at the Naval Academy by a board composed of three medical officers of the Navy, whose decision will be final.

Candidates are required to be physically sound, well formed, and of robust constitution.

Any one of the following conditions will be sufficient to cause the rejection of a candidate, viz:

Feeble constitution, inherited or acquired.

Retarded development.

Impaired general health.

Decided cachexia, diathesis, or predisposition.

Any disease, deformity, or result of injury that would impair efficiency; such as—

Weak or disordered intellect.

Cutaneous or communicable disease.

Unnatural curvature of the spine, torticollis, or other deformity.

Inefficiency of either of the extremities or large articulations from any cause.

Epilepsy or other convulsions within five years.

Impaired vision, disease of the organs of vision, imperfect color sense; *visual acuteness must be normal, i. e., 20/20 for each eye without the aid of glasses.*

Impaired hearing or disease of either ear. The organs of hearing, both the conductive apparatus (outer and middle ear) and the percipient apparatus (internal ear) must be free from disease. In testing the hearing of the candidate, the voice, the ticking of a watch, and, if practicable, Politzer's acoumeter shall be employed.

The voice is a more reliable method of determining the acuteness of hearing than the ticking of an ordinary watch, as it allows for variations in hearing, with the modifications produced by changes in pitch and tone. Hearing in each ear must be normally acute to the spoken and whispered voice. In examining the acuteness of the hearing with the voice, one ear of the candidate should be closed while the other ear is being examined, and his eyes should be covered to prevent lip reading. The ticking of an ordinary watch should be heard a distance of 40 inches.

Chronic nasal catarrh, ozaena, polypi, or great enlargement of the tonsils.

Impediment of speech to such an extent as to impair efficiency in the performance of duty.

Disease of heart or lungs or decided indications of liability to cardiac or pulmonary affections.

Hernia, complete or incomplete, and undescended testis.

Varicocele, sarcocele, hydrocele, stricture, fistula, hemorrhoids, or varicose veins of lower limbs.

Disease of the genito-urinary organs.

Chronic ulcers, ingrowing nails, large bunions, cross or hammer toes, or other deformity of the feet.

Loss of many teeth, or teeth generally unsound. There shall be at least eight opposing molars, two on each side in each jaw.

Attention will also be paid to the stature of the candidate, and no one *manifestly* under size for his age will be received at the Academy. The height of candidates for admission shall not be less than 5 feet 2 inches between the ages of 16 and 18 years, and not less than 5 feet 4 inches between the ages of 18 and 20 years; and the minimum weight at 16 years of age shall be 105 pounds, with an increase of not less than 5 pounds for each additional year, or fraction of a year over one-half. Any *marked* deviation in the height and weight relative to the age of a candidate will add materially to the consideration for rejection.

Candidates must be unmarried, and any midshipman who shall marry, or who shall be found to be married, before his final graduation, shall be dismissed the service.

Candidates will be examined mentally in punctuation, spelling, arithmetic, geography, English grammar, United States history, world's history, algebra through quadratic equations, and plane geometry (five books of Chauvenet's Geometry, or an equivalent). Deficiency in any one of these subjects may be sufficient to insure the rejection of the candidate.

## GENERAL CHARACTER OF THE EXAMINATION.

**READING AND WRITING.**—Candidates must be able to read understandingly, and with proper accent and emphasis, and to write legibly, neatly, and rapidly.

**SPELLING.**—They must be able to write, from dictation, paragraphs from standard pieces of English literature, both prose and poetry, sufficient in number to test fully their qualifications in this branch. The spelling throughout the examination will be considered in marking the papers. The Academic Board are instructed not to reject a candidate whose only deficiency is in spelling when the mark therefor is above a certain figure, to be fixed by the board, subject to the revision of the Department.

**PUNCTUATION AND CAPITALS.**—They must be familiar with the rules for punctuation and for the use of capitals. In order to test their knowledge, sentences will be given for correction.

**GRAMMAR.**—Candidates must exhibit thorough familiarity with English grammar; they must be able to analyze and parse any sentence given, showing clearly the relations between the different parts of speech, and giving the rules governing those relations. The subject and predicate in the sentence must be given, with modifiers (if any), and also the part of speech, and kind, case, voice, mood, tense, number, person, degree of comparison, etc., as the case may be, of each word, and its relation to other words in the sentence.

They must be able to define the terms used in grammar, a number of which will be given as a test of their knowledge.

A composition on one of three subjects will be required.

Since the school grammars used in different parts of the country vary among themselves in their treatment of certain words, an answer approved by any grammar of good repute will be accepted.

**GEOGRAPHY.**—Candidates will be required to pass a satisfactory examination in descriptive geography, particularly of our own country. Questions will be given under the following heads: The definitions of latitude and longitude (including problems with regard to differences of time between places); the zones; the grand divisions of land and water; the character of coast lines; the climate of different parts of the United States; trade winds; the direction and position of important mountain chains and the locality of the higher peaks; the position and course of the principal rivers, their tributaries, and the bodies of water into which they flow; the position of important seas, bays, gulfs, and arms of the sea; the position of independent States, their boundaries and capital cities; the position and direction of great peninsulas and the situation of important and prominent capes, straits, sounds, channels, and the most important canals; great lakes and inland seas; position and political connection of important islands and colonial possessions; location of cities of historical, political, or commercial importance, attention being especially called to the rivers and bodies of water on which cities are situated; the course of a vessel in making a voyage between well-known ports.

The candidate's knowledge of the geography of the United States can not be too full or specific on all the points referred to above. Accurate knowledge will also be required on the position of the country with reference to other States, and with reference to latitude and longitude, of the boundaries and relative position of the States and Territories, of the name and position of their capitals, and of other important cities and towns.

**UNITED STATES HISTORY.**—The examination in this branch will include questions concerning the early settlements in this country; the forms of government in the colonies; the causes, leading events, and results of wars; and prominent events in the history of our Government since its foundation.

**WORLD'S HISTORY.**—Candidates must be familiar with the general history of the world, including the rise and the fall of empires and of dynasties; changes in territory

as the result of wars or from other causes; the most important treaties of peace; the relations between church and state in different countries; in brief, such information as may be found in the ordinary general histories.

ARITHMETIC.—The candidate will be required—

To express in figures any whole, decimal, or mixed number; to write in words any given number; to perform with facility and accuracy the various operations of addition, subtraction, multiplication, and division of whole numbers, whether abstract or compound, and to use with facility the tables of money, weights, and measures in common use, including English money.

To reduce compound numbers from one denomination to another, and to express them as decimals or fractions of a higher or lower denomination; to state the number of cubic inches in a gallon and the relation between the troy and avoirdupois pounds, and to reduce differences of time to differences of longitude and *vice versa*.

To define prime and composite numbers; to give the tests of divisibility by 3, 5, 9, 11, 25, and 125; to resolve numbers into their prime factors, and to find the least common multiple and the greatest common divisor of large as well as of small numbers.

To be familiar with all the processes of common and decimal fractions; to give clearly the reasons for such processes, and to be able to use the contracted methods of multiplication and division given in the ordinary text-books on arithmetic.

To define ratio and proportion, and to solve problems in simple and compound proportion.

To solve problems involving the measurement of rectangular surfaces and of solids; to find the square roots and the cube roots of numbers, and to solve simple problems under percentage, interest, and discount.

The candidates are required to possess such a thorough understanding of all the fundamental operations of arithmetic as will enable them to apply the various principles to the solution of any complex problem that can be solved by the methods of arithmetic; in other words, they must possess such a complete knowledge of arithmetic as will enable them to proceed at once to the higher branches of mathematics without further study of arithmetic.

ALGEBRA.—The examination in algebra will include questions and problems upon the fundamental rules, factoring, greatest common divisor, least common multiple, algebraic fractions, equations of the first degree with one or more unknown quantities, simplification of expressions involving surds, and the solution and theory of quadratic equations.

GEOMETRY.—In geometry candidates will be required to give accurate definitions of terms used in plane geometry, to demonstrate any proposition of plane geometry as given in the ordinary text-books, and to solve simple geometrical problems, either by a construction or by an application of algebra.

## I.

- (a) Multiply 3.763856 by 1.53758, the result to be correct to five decimal places.  
 (b) Reduce each of the fractions  $\frac{3}{4}\frac{4}{5}\frac{1}{2}\frac{1}{3}$  and  $\frac{3}{4}\frac{4}{5}\frac{1}{2}\frac{1}{3}$  to a decimal form, the result to be correct to five decimal places.  
 (c) Divide 367.44 by .003 and .00364 by 8.75.  
 (d) Find the greatest common divisor of 13032383 and 11140766.

## II.

- (a) Given  $A = (\frac{7}{8} - \frac{1}{2}) \times \frac{4}{5}$ ,  $B = 1\frac{4}{5} \times \frac{2}{3} - \frac{4}{7}$ ,  $C = \frac{1}{2}$  of  $\frac{2}{3}$ , and  $D = \frac{4}{5} - \frac{1}{3}$ , reduce each of the expressions to its simplest form and find the value of  $A \times D \div B \times C$ .  
 (b) Express as a common fraction  $.846 + \frac{2}{9}$  of .2916.

## III.

- (a) Simplify  $\frac{10+2\sqrt{5}}{10-2\sqrt{5}}$  and find its value to four decimal places.  
 (b) Find the cube root of 7344 to five decimal places.

## IV.

- (a) Find the number of grains troy in 231 cubic inches of water, given that a cubic foot of water weighs 62.42 lb. avoirdupois.  
 (b) If 96 articles cost £3 19s. 8d., how many can be bought for £1 4s. 10½d.?  
 (c) What decimal of a mile is 24 ft. 9 in.?

## V.

- (a) Find the simple interest on \$3,775.75 for 2 yr. 4 mo. 10 da. at 3½ % per annum. If the interest on \$3,775.75 for 2 yr. 4 mo. 10 da. is \$456.89, what is the rate % per annum?  
 (b) A man bought a number of animals and expended upon them one-fourth as much as he paid; one-fourth of the whole number died, and he sold the remainder at a price per head 50% greater than he paid. Did he gain or lose, and what per cent?

## VI.

A man walked to a place at the rate of  $3\frac{3}{4}$  miles per hour, rested half an hour, and rode back at the rate of  $7\frac{1}{4}$  miles per hour; he then found that the whole trip had taken him 4 hours 10 minutes. How far did he walk?

## ALGEBRA.

## I.

- (a) Given  $P = \frac{2a+b}{3}$ ,  $Q = \frac{a^2+2ab}{3}$ ,  $R = a^2b$ , find the value of each of the expressions  $(P^2-Q)$ ,  $(Q^2-PR)$ , and  $(PQ-R)$ .  
 (b) Separate into factors  $x^3-27x-418$ ,  
 $14x^2-11x-15$ ,  
 $x^4+x^2y^2+y^4$ ,  
 $6ac+10bc-21ad-35bd$ ,  
 $a^3+b^3+c^3-3abc$ .  
 (c) Find the greatest common divisor of  $x^4-8x^3+21x^2-20x+4$  and  $2x^3-12x^2+21x-10$ .

## II.

(a) Given  $P = \frac{a^2+b^2}{b} - a$ ,  $Q = \frac{1}{b} - \frac{1}{a}$ ,  $R = \frac{a^2-b^2}{a^2+b^2}$ ; find the value of  $PR+Q$ .

(b) Solve the equation  $\frac{9x+3}{27} + \frac{3x-6}{2x-5} = \frac{3x+22}{9} - \frac{1}{3}$ .

(c) Find  $x$  and  $y$  from the equations  $ax + (a+b)y = 3ab + 2b^2$ ,  
 $(a+b)x + by = a^2 + 2ab + 4b^2$ .

## III.

(a) A sum of money is equally divided among a number of persons; if there had been four more each would have received \$1 less, and if there had been five fewer each would have received \$2 more. Find the number of persons and the amount each received.

(b) Find the third power of  $a\frac{1}{2} + a - \frac{1}{2} - a - \frac{1}{2}$ .

Find the square root of  $21 + 12\sqrt{3}$ .

Find a fraction with a rational denominator which is equal to  $\frac{\sqrt{3}}{2\sqrt{3} + \sqrt{5} - 3}$ .

## IV.

(a) Solve the equation  $15x^2 - 22x - 133 = 0$ , and find the roots of  $7x^2 + 3x = 9$ , each to two decimal places.

(b) Solve the equation  $abx^2 = (a-b)^2(x+1)$ .

Given  $(p+q)x^2 + (p-q)x + p^2 - q^2 = 0$ ; what is the sum, and what is the product of the roots?

## V.

(a) Solve the equation  $x^2 + \sqrt{3x^2 + 1} = 29$ .

(b) Given the equations  $2x^2 + xy - y^2 = 5$  and  $3x^2 - 2xy - 3y^2 + 27 = 0$ ; let  $y = mx$  find the value of  $m$  from the two equations, then find  $x$  and  $y$ .

## GEOMETRY.

## I.

(a) Define *straight line*, *plane surface*, *right angle*. What is an axiom? Give an example. What is a postulate? Give an example. Define *rhombus*, *rhomboid*, *trapezoid*, *trapezium*. Prove that if in a trapezium the middle points of the sides taken in order be joined, the figure so formed is a parallelogram.

(b) What is an isosceles triangle? A scalene triangle? Define *polygon*. Name the polygons having 5, 8, 10, 12, and 15 sides. Prove that the sum of all the angles of a polygon is equal to two right angles taken as many times less two as the polygon has sides.

## II.

(a) Define *circle*, *arc*, *chord*, *sector*, *segment*. The radius of a circle being  $a$ , what is its area? What is the length of its circumference? An angle is formed by two chords which intersect within the circumference; how is this angle measured? Prove your statement.

(b) Through a fixed point A any straight line is drawn, and through a fixed point B a second line is drawn meeting the first at P and making the angle  $APB = 45^\circ$ ; what is the locus of P? Construct this locus and prove your construction. A point C lies within a circle; the shortest chord that can be drawn through C is 3 inches in length and the longest is 10 inches. How far from the center is C?

## III.

(a) A perpendicular is let fall from the right angle of a right triangle to its hypotenuse. Prove that this perpendicular is a mean proportional between the segments of the hypotenuse, and find its length when the legs of the triangle are 112 and 66.

(b) Define *extreme and mean ratio*; show how to divide a line internally in this ratio, and find the two segments when the length of the line is  $a$ .

## IV.

(a) Prove that if through any point within a circle a chord is drawn, the product of its two segments has the same value in whatever direction the chord may be drawn. Suppose that the radius is  $a$  and that the distance of the fixed point from the center is  $b$ , what is the product of the two segments?

(b) In a right triangle ACB, right angle at C, the angle A is  $30^\circ$ ; the bisector of this angle meets the opposite side at D; find the value of  $\frac{DC}{AB}$ .

## V.

(a) The lower base of a trapezoid is  $a$ , its upper base is  $b$ , and its altitude is  $h$ ; the nonparallel sides are produced until they meet, forming a triangle whose base is  $a$ ; find the area of this triangle.

(b) Prove that if the angles of a rectangle be bisected the bisectors will form a square, and find the area of the square when the sides of the rectangle are  $a$  and  $b$ .

## ADMISSION.

Candidates that pass the physical and mental examinations will receive appointments as midshipmen, and become students of the Academy. Each midshipman will be required to sign articles by which he binds himself to serve in the United States Navy eight years (including his time of probation at the Naval Academy), unless sooner discharged.

The pay of a midshipman is \$500 a year, commencing at the date of his admission.

Midshipmen will supply themselves, immediately upon their admission, with the following articles, viz:

One dress jacket.....	\$20.78	Twelve collars.....	\$1.50
One blouse.....	15.22	Eight pairs cuffs.....	1.44
One pair dress trousers.....	11.83	Eight pairs socks.....	1.60
One pair service trousers.....	6.68	*Eight towels.....	1.76
One overcoat.....	26.98	*Shaving outfit.....	2.43
One reefer.....	12.18	*Six pairs drawers (summer).....	2.40
Two white blouses.....	3.50	*Six undershirts (summer).....	2.40
Two pairs white trousers.....	3.20	One hand glass.....	.55
One mackintosh.....	9.50	One blue jersey.....	2.20
One cap cover.....	.30	Four blue jerseys.....	6.40
Eight work suits.....	8.00	Three white hats.....	1.26
Two pairs regulation leggings.....	1.50	One jackknife.....	.42
One parade cap.....	3.10	Two lanyards.....	.24
One knit cap.....	.60	Six sheets.....	3.30
One mug.....	.08	Hammock clews.....	.55
One soap box.....	.78	One pair bathing trunks.....	.15
One laundry book.....	.20	Three pairs white gloves.....	.90
One pair blankets.....	4.20	Two clothes bags.....	.54
One pair overshoes.....	.70	One hammock mattress.....	3.00
Two pairs high shoes.....	8.00	a One requisition book.....	.25
Eight white shirts.....	4.40	a One pass book.....	.25

<i>a</i> Two stencils, ink, and brush . . .	\$0. 67.	Four suits pajamas.....	\$5. 60
<i>a</i> Wash basin and pitcher.....	. 80	* One toothbrush.....	. 25
<i>a</i> One pair gymnasium slippers... .	. 80	* Thread and needles.....	. 62
* One whisk.....	. 20	* Blacking brush and blacking... .	. 55
* One coarse comb. ....	. 13	* Nailbrush.....	. 30
* One cake soap.....	. 10	Six pillowcases.....	. 84
* One hairbrush.....	. 55	One black silk neckerchief. ....	. 45
* Stationery.....	1. 37	Name plate.....	. 11
* Twelve white handkerchiefs....	2. 52		
* One pair suspenders.....	. 40		191. 53

When moving into quarters, midshipmen will supply themselves with the following articles, viz:

<i>a</i> Two bedspreads.....	\$2. 40	<i>a</i> One rug.....	\$0. 90
<i>a</i> Two pairs drill gloves.....	1. 10	<i>a</i> One hair mattress.....	5. 10
<i>a</i> One alop jar.....	. 90	<i>a</i> One broom.....	. 30
<i>a</i> Two spatter cloths.....	1. 00		13. 45
One hair pillow.....	. 75		
One mirror.....	1. 00		

Articles marked *a* will not be taken on board the practice ship.

The articles marked \*, not being required to conform to a standard pattern, may be brought by the midshipmen from home, but all other articles must conform to the regulations, and must therefore be supplied by the storekeeper.

Each midshipman must, on admission, deposit with the pay officer the sum of \$60, for which he will be credited on the books of that officer, to be expended by direction of the Superintendent in the purchase of text-books and other authorized articles besides those enumerated in the preceding article.

All deposits for clothing and the entrance deposit of \$60 must be made before a candidate can be received into the Academy.

Checks for these deposits *must not be made payable to the order of the Superintendent*. They should be made payable to the candidate's own order and be presented to the pay officer of the Naval Academy at the time of deposit.

#### SUMMARY OF EXPENSES.

Deposit for clothing, etc.....	\$204. 98
Deposit for books, etc.....	60. 00
	264. 98

The value of clothing brought from home is to be deducted from this amount.

Each midshipman will be paid, as soon as adjusted by the Treasury Department, the amount of his actual expenses in traveling from his home to the Academy.

## GENERAL REMARKS.

---

1. There being no provision whatever for the payment of the traveling expenses of rejected candidates for admission, no candidate should fail to provide himself in advance with the means of returning home, in case of his rejection before either of the examining boards, as he may otherwise be put to considerable inconvenience.

2. It is suggested to all candidates for admission to the Naval Academy that, before leaving their places of residence for Annapolis, they should cause themselves to be *thoroughly examined by a competent physician*, particularly regarding eyesight, hearing, and heart trouble; and by a teacher or instructor in good standing. A defect, such as varicocele, which is ordinarily removable by operation, should be remedied prior to appearing at the Naval Academy for physical examination. By such an examination, any serious physical disqualification, or deficiency in mental preparation, would be revealed, and the candidate probably spared the expense and trouble of a useless journey, and the mortification of rejection. It should be understood that the informal examination herein recommended is solely for the convenience and benefit of the candidate himself, and can in no manner affect the decision of the Examining Boards at Annapolis.

3. A sound body and constitution, suitable preparation, good natural capacity, an aptitude for study, industrious habits, perseverance, an obedient and orderly disposition, and a correct moral deportment, are such essential qualifications that candidates knowingly deficient in any of these respects should not, as many do, subject themselves and their friends to the chances of future mortification and disappointment by accepting appointments at the Naval Academy and entering on a career which they can not successfully pursue.

4. The selection of candidates, by competitive examination or otherwise, for nomination from any congressional district, is entirely in the hands of the Member of Congress entitled to the appointment, and all applications for appointment or inquiries relative to competitive examinations should be addressed to the Congressman representing the congressional district in which the vacancy exists.

## PRACTICAL INSTRUCTION OF MIDSHIPMEN.

## SEAMANSHIP.

Knotting and splicing; compass and lead line; ship nomenclature; cutting and fitting hemp rigging; cutting and fitting wire rigging; rowing, and the management of boats under oars and under sail; sailmaking; making up, bending, unbending, and handling sails; rigging ship; stripping ship; shifting spars; getting under way and anchoring; evolutions with vessels under sail and under steam; signaling, Army and Navy Code; wig wag; semaphore; night; general; telegraphic and international; management of steam launches, steam fleet tactics with steam launches, and the practical handling of tug boats.

## ORDNANCE.

Infantry, schools of the squad, company, battalion, and brigade in close and extended orders; artillery, schools of the battery and battalion; exercise and target practice with small arms and guns of main and secondary batteries; exercise with cane,

smallsword, and broadsword; handling and firing torpedoes, use of Riehlé testing machines; determinations of velocities; experimental determination of range tables, also of the jump and drift; the preparation, inspection, care, and preservation of ordnance material.

#### NAVIGATION.

The practical work in this department continues throughout the academic year, details of midshipmen being employed during each period assigned to this department at work in the chart room, at compass work in the model room, or in field work with the various navigational and surveying instruments. The character of the work may be outlined under the following heads:

*Navigation.*—Practical work with charts including a study of the information and tidal data given on them; laying off courses and measuring distances on different projections; transferring great circle routes from great circle charts to mercator charts; different methods of plotting positions and laying down "Sumner lines," and the general uses of "Sumner lines;" pilotage and chart work into and out of the principal harbors on the coasts of the United States and when coasting; use of soundings and contour lines, especially in a fog; correction of charts and publications from information furnished by "Notices to Mariners." Adjusting a sextant and a stadimeter; observations with sextant and artificial horizon for time, longitude, chronometer error, latitude and azimuth. Winding and comparing chronometers and methods of keeping records of same on board ship. Rating chronometers by noon-time signal.

*Compass deviations.*—Swinging a model-ship and obtaining deviations of the compass, the approximate and exact coefficients,  $\lambda$  and  $\mu$  and the starboard angle; compensation of the compass using a Navy binnacle, Type VI. From observation of deviations and the vibrations of horizontal and vertical needles on two courses, the horizontal and vertical forces acting on the compass and the exact coefficients are found, and the compass is again compensated. The same compass work is done later in the course on board a modern vessel in Chesapeake Bay.

*Surveying.*—Adjustment of and field work with theodolite and plane table. Surveying and constructing a chart of a portion of the Severn River.

#### STEAM ENGINEERING.

*Shopwork.*—The Pattern Shop: Selection and treatment of different woods for different purposes. Elementary work of the carpenter shop, through mortising, joining, etc., to finish pattern work.

The Foundry: Iron and brass casting; the making of bronzes, alloys, etc.

The Blacksmith Shop: Forging, welding, etc.; tempering, casehardening, etc.; bending and quenching tests of metals.

The Boiler Shop: Riveting, soft and hard patching, calking, annealing, tube expanding, etc.; testing.

The Machine Shop: Vise bench work; machine tool work—including the setting of work; turning; planing; boring; slotting, etc.; pipe fitting; preparation of working drawings and working from the same.

*Ship work.*—Management of main and auxiliary engines; fire-room and engine-room routine, firing, water tending, and oiling; management of engines while maneuvering at sea; determining the condition and locating defects in machinery while in motion; lying under banked fires; coming to anchor; overhauling machinery; cleaning boilers and condensers.

*Miscellaneous.*—Use of slide rule, averaging machine, apparatus for testing oils and smoke gases; standardizing steam gauges and indicators; preparing specification for purchase of machinery and stores; testing, inspection, and preservation of stores; selection of coals; making of watch, quarter, and stations bills.

## PHYSICS AND CHEMISTRY.

Experimental work in the Chemical and Physical Laboratories, illustrating and supplementing the class-room instruction.

## ELECTRICAL ENGINEERING.

*First class.*—About 40 per cent of the time allotted for the first class is spent in the electrical laboratory in experimental work illustrating the class-room instruction. This time is obtained from that allotted to section-room work and from the periods regularly assigned for practical work.

The practical work includes the operation and manipulation of continuous-current dynamos and motors, of alternating dynamos and transformers, of motor generators and rotary transformers; running dynamos in parallel for light and power; tests of dynamos and motors for electrical and mechanical output. Care and operation of searchlights and the uses and workings of the standard switchboard and all means of electrical interior communications.

The uses of the different systems of wireless apparatus. Measurements of the ohmic and insulation resistances of dynamos and motors; testing for faults and grounds and means of correcting them.

Uses and inspection of all instruments and devices—voltmeters, ammeters, magnetos, testing sets, ohmmeters, controllers, starting panels, rheostats, circuit breakers, etc.

Different systems of turret control—Ward Leonard, motor generator, rotary compensator, and variable speed; same for systems of electric ammunition hoists.

*Second class.*—The practical work for the second class consists in elementary experiments in frictional, statical electricity, magnetism, and current electricity. The time devoted to this is taken from that assigned to section-room work, and in addition one period per week is assigned to practical work in the section room, illustrating by experiments the text previously studied. Also the subject-matter of the text-books is illustrated by lectures, and advantage is taken of this time given for the lectures to take up new subject-matter not found in the text-books

## PHYSICAL TRAINING.

Class drills in calisthenics, free movements and with apparatus.

Special exercises to promote symmetrical development when necessary. Athletic exercises, including boxing and swimming. Dancing.

## PRACTICAL INSTRUCTION, 1907-1908.

[Drills for divisions shown (\*) may be for all departments under way on the ships.]

# ROUTINE OF EXERCISES FOR THE SECOND AND FOURTH CLASS DURING SUMMER OF 1907.

Commencing June 10, 1907.

Instruction shall be practical, with no recitations, and shall consist of shop work, rigging loft, steam launch, sailing and pulling boats, drill in the armory or in the shade, small-arm target practice, and light physical exercise with instructions.

Study hours, light physical drill or instruction in Naval Academy Regulations, service customs, and etiquette shall break up the time between 7.30 p. m. and tattoo.

## *Routine.*

Day.	First period.	Second period.	Third period.	Fourth period (night).
Monday.....	Second class, ordnance; fourth class, ordnance and seamanship.	Second and fourth classes, seamanship and steam.	Swimming.	Lectures, studies, and light physical drills.
Tuesday.....	Second class, seamanship; fourth class, ordnance and seamanship.	Second and fourth classes, ordnance and steam.		
Wednesday....	Second class, steam; fourth class, ordnance and seamanship.	Recreation and athletics.....		
Thursday.....	Second class, ordnance; fourth class, ordnance and seamanship.	Second and fourth classes, seamanship and steam.		
Friday.....	Second class, steam; fourth class, ordnance and seamanship.	Second and fourth classes, ordnance and steam.		
Saturday.....	Second class, seamanship; fourth class, ordnance and seamanship.	Recreation.....		

First period extends from 8.30 to 11.30 a. m.

Second period extends from 3 to 5 p. m.

Third period extends from 8.15 to 6 p. m.

Fourth period extends from 8 to 9 p. m.

The number assigned to each department where seamanship and steam, or ordnance and seamanship, is given a period will depend upon the number of midshipmen and number of instructors.

## CLASS OF 1871 PRIZE.

---

The members of the class graduated from the United States Naval Academy in 1871, desiring in a permanent way to "Emphasize and record their loyalty to the Government, their affection for their Alma Mater, and their regard for the naval service," subscribed in 1904 a certain sum of money to be known as the "Class Fund of 1871, United States Naval Academy," which fund was transferred by duly authorized and executed deed of gift to trustees. This deed of gift is recorded in the office of the recorder of deeds, District of Columbia, and copies of it are filed in the offices of the Secretary of the Navy and of the Superintendent of the Naval Academy.

By the terms of the deed of gift the income of this fund shall be employed for the purchase each year of a prize to be known as the "Class of 1871 Prize," to consist of a suitable Navy dress sword and knot, to be presented to "that midshipman of each graduating class of the United States Naval Academy, who has completed the prescribed course, and who shall be considered by the Superintendent, the commandant of midshipmen, and the head of the department of ordnance and gunnery, as the most proficient in practical and theoretical ordnance and gunnery."

"This prize is to be accompanied by an appropriately engraved letter containing the names of the donors and setting forth the purpose of the gift, and expressing the hope of the class of 1871 that the encouragement thus offered by old class members, both in and out of the service, to younger ones, will serve to increase the interest already existing among the midshipmen in an important professional science and art."

The "Class of 1871 Prize" has been awarded as follows:

- 1905, to Midshipman Royal Eason Ingersoll.
- 1906, to Midshipman William Alexander Glassford, jr.
- 1907, to Midshipman Arthur William Frank.

The United States Naval Academy was founded in 1845 by the Honorable George Bancroft, Secretary of the Navy, in the Administration of President James K. Polk. It was formally opened October 10 of that year under the name of the Naval School, with Commander Franklin Buchanan as superintendent. It was placed at Annapolis, Md., on the land occupied by Fort Severn, which was given up by the War Department for the purpose. The course was fixed at five years, of which only the first year and the last were spent at the school, the intervening three years being passed at sea. This arrangement was not strictly adhered to, the exigencies of the service making it necessary, in many cases, to shorten the period of study. In January, 1846, four months after the opening of the school, the students consisted of thirty-six midshipmen of the date of 1840, who were preparing for the examination for promotion; thirteen of the date of 1841, who were to remain until drafted for service at sea; and seven acting midshipmen, appointed after September of the previous year. The midshipmen of the date of 1840 were the first to be graduated, finishing their limited course in July, 1846, and they were followed in order by the subsequent dates until the reorganization of the school in 1850.

In September, 1849, the following board was appointed to revise the plan and the regulations of the Naval School:

Commander William B. Shubrick,  
Commander Franklin Buchanan,  
Commander Samuel F. Du Pont,  
Commander George P. Upshur,  
Surgeon W. S. W. Ruschenberger,  
Professor William Chauvenet,  
Captain Henry Brewerton, United States Army.

The plan reported by the board was approved, and went into operation July 1, 1850. The new organization provided for a course of seven years, the first two and the last two at the school, and the three intermediate years at sea. The school was placed under the supervision of the Bureau of Ordnance and Hydrography, and its name was changed to the United States Naval Academy. The corps of professors was enlarged, the course was extended, and the system of separate departments with executive heads was fully adopted. It was provided that a Board of Visitors should make an annual inspection of the Academy and report upon its condition to the Secretary of the Navy. A suitable vessel was attached to the Academy as a practice ship, and the annual practice cruises were begun.

After the system had been in operation a year new changes were proposed, and the recommendations of the academic board on the subject were referred to the board of examiners for the year 1851, composed of the following-named officers:

Commodore David Conner,  
Captain Samuel L. Breese,  
Commander C. K. Stribling,  
Commander A. Bigelow,  
Commander Franklin Buchanan,  
Lieutenant Thomas T. Craven.

The change recommended by the board of examiners, and adopted by the Department, consisted mainly in leaving out the requirement of three years of sea service in the middle of the course, thus making the four years of study consecutive. The practice cruise supplied the place of the omitted sea service and gave better opportunities for training. The change went into operation in November, 1851, together with other improvements recommended by the board. This system has been continued, with some slight modifications, to the present time. The first class to receive the benefit of it was that which entered in 1851. Six members of this class completed the course in three years and were graduated in June, 1854; the rest of the class followed in 1855.

In May, 1861, on the outbreak of the war, the Academy was moved to Newport, R. I. The three upper classes were detached and ordered to sea, and the remaining acting midshipmen were quartered in the Atlantic House and on board the frigates *Constitution* and *Santee*. In the summer of 1865 the Academy was brought back to Annapolis, where it has since remained.

When the Bureau of Navigation was established, July 5, 1862, the Academy was placed under its supervision; March 1, 1867, it was placed under the direct care and supervision of the Navy Department, the administrative routine and financial management being still conducted through the Bureau. On the 11th of March, 1869, this official connection with the Bureau ceased, but was renewed by the general order of the Navy Department issued June 25, 1889.

The term of the academic course was changed by law, March 3, 1873, from four to six years. The change took effect with the class that entered in the following summer.

In 1866 a class of acting third assistant engineers was ordered to the Academy for instruction. The course embraced the subjects of steam engineering, mechanism, chemistry, mechanics, and practical exercises with the steam engine and in the machine shop. This class was graduated in June, 1868, together with two cadet engineers who had entered the Academy in 1867. After an interval of four years, in October, 1871, a new class of cadet engineers was admitted. This class followed a two years' course, somewhat more extended than that of the class of 1868, and was graduated in 1873. In 1872 and 1873 new classes were admitted, the first of which left the Academy in 1874 and the second in 1875. By an act of Congress approved February 24, 1874, the course of instruction for cadet engineers was made four years instead of two; the new provision was first applied to the class entering the Academy in the year 1874. This class was graduated in June, 1878.

By an act of Congress approved August 5, 1882, it was provided that from that date "there shall be no appointments of cadet-midshipmen or cadet-engineers at the Naval Academy, but in lieu thereof naval cadets shall be appointed from each Congressional district and at large, as now provided by law for cadet-midshipmen, and all the undergraduates at the Naval Academy shall hereafter be designated and called 'naval cadets;' and from those who successfully complete the six years' course, appointments shall hereafter be made as it is necessary to fill vacancies in the lower grades of the Line and Engineer Corps of the Navy and of the Marine Corps: *And provided further, That no greater number of appointments into these grades shall be made each year than shall equal the number of vacancies which has occurred in the same grades during the preceding year: such appointments to be made from the graduates of the year, at the conclusion of their six years' course, in the order of merit, as determined by the Academic Board of the Naval Academy; the assignment to the various corps to be made by the Secretary of the Navy upon the recommendation of the Academic Board.*" But nothing herein contained shall reduce the number of appointments from such graduates below ten in each year, nor deprive of such appointment any graduate who may complete the six years' course during the year eighteen hundred and eighty-two. And if there be a surplus of graduates, those who do not receive such appointment shall be given a certificate of graduation, an honorable discharge, and one year's sea pay, as

now provided by law for cadet-midshipmen; and so much of section fifteen hundred and twenty-one of the Revised Statutes as is inconsistent herewith is hereby repealed."

"That any cadet whose position in his class entitles him to be retained in the service may, upon his own application, be honorably discharged at the end of the four years' course at the Naval Academy, with a proper certificate of graduation."

In 1886 a special course of instruction in physiology and hygiene was established, in accordance with an act of Congress approved May 20 of that year.

The act of Congress approved March 2, 1889, provides that "the Academic Board of the Naval Academy shall on or before the thirtieth day of September in each year, separate the first class of naval cadets then commencing their fourth year into two divisions, as they may have shown special aptitude for the duties of the respective corps, in the proportion which the aggregate number of vacancies occurring in the preceding fiscal year ending on the thirtieth day of June in the lowest grades of commissioned officers of the Line of the Navy and Marine Corps of the Navy shall bear to the number of vacancies to be supplied from the Academy occurring during the same period in the lowest grade of commissioned officers of the Engineer Corps of the Navy; and the cadets so assigned to the Line and Marine Corps division of the first class shall thereafter pursue a course of study arranged to fit them for service in the Line of the Navy, and the cadets so assigned to the Engineer Corps division of the first class shall thereafter pursue a separate course of study arranged to fit them for service in the Engineer Corps of the Navy, and the cadets shall thereafter, and until final graduation at the end of their six years' course, take rank by merit with those in the same division, according to the merit marks; and from the final graduates of the Line and Marine Corps division, at the end of their six years' course, appointments shall be made hereafter as it shall be necessary to fill vacancies in the lowest grades of commissioned officers of the Line of the Navy and Marine Corps; and the vacancies in the lowest grades of the commissioned officers of the Engineer Corps of the Navy shall be filled in like manner by appointments from the final graduates of the Engineer division at the end of their six years' course: *Provided*, That no greater number of appointments into the said lowest grades of commissioned officers shall be made each year than shall equal the number of vacancies which shall have occurred in the same grades during the fiscal year then current; such appointments to be made from the final graduates of the year, in the order of merit as determined by the Academic Board of the Naval Academy, the assignment to be made by the Secretary of the Navy upon the recommendation of the Academic Board at the conclusion of the fiscal year then current; but nothing contained herein or in the naval appropriation act of August fifth, eighteen hundred and eighty-two, shall reduce the number of appointments of final graduates at the end of their six years' course below twelve in each year to the Line of the Navy, and not less than two shall be appointed annually to the Engineer Corps of the Navy, nor less than one annually to the Marine Corps; and if the number of vacancies in the lowest grades aforesaid, occurring in any year shall be greater than the number of final graduates of that year, the surplus vacancies shall be filled from the final graduates of following years, as they shall become available."

"That after the fourth day of March, eighteen hundred and eighty-nine, the minimum age of admission of cadets to the Academy shall be fifteen years and the maximum age twenty years."

In October, 1897, a post-graduate course in naval architecture, for the education of officers for the Construction Corps of the Navy, was established; and a class was formed from the naval cadets that had finished the four years' course in that year.

By an act of Congress approved March 3, 1899, "the officers constituting the Engineer Corps of the Navy" were "transferred to the Line of the Navy," thereby repealing so much of the act of Congress approved March 2, 1889, as relates to the separation of naval cadets of the first class into Line and Engineer divisions.

This same act having limited the number of Constructors in the Navy to forty, the post-graduate course in naval architecture was discontinued.

By an act of Congress approved June 7, 1900, it was provided that—

"Whenever any naval cadet shall have finished four years of his under-graduate course of six years the succeeding appointment may be made from his Congressional district or at large in accordance with the existing law."

By an act of Congress approved July 1, 1902, it was provided that—

"The title 'naval cadet' is hereby changed to 'midshipman.'"

"That until the year nineteen hundred and fourteen, in addition to the naval cadets now authorized by law (the title having been changed by this act to midshipmen), the President shall appoint five midshipmen, and there shall be appointed from the States at large, upon the recommendation of Senators, two midshipmen for each State."

By an act of Congress approved March 3, 1903, it was provided that—

"There shall be allowed at the Naval Academy two midshipmen for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, and five each year at large: *Provided*, That the additional Congressional appointments authorized by this act shall be made at such times as may be determined by the Secretary of the Navy, who shall equitably distribute the increase among the several States, Districts, and Territories, so that ultimately, if practicable, each Senator, Representative, and Delegate may recommend for appointment during each Congress one midshipman. *Provided further*, That members of the Fifty-seventh Congress who were not members of the Fifty-eighth Congress, and in whose Districts or States appointments have not been made or vacancies filled in the Fifty-seventh Congress, may immediately upon the passage of this act make the additional appointments here provided for.

"The Secretary of the Navy shall as soon as practicable after the fifth day of March in each year notify in writing each Senator, Representative, and Delegate in Congress of any vacancy which may be regarded as existing in the State, District, or Territory which he represents, and the nomination of a candidate to fill such vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate. Such recommendations shall be made by the first day of June of that year, and if not so made the Secretary of the Navy shall fill the vacancy by the appointment of an actual resident of the State, District, or Territory in which the vacancy exists, who shall have been for at least two years immediately preceding his appointment an actual bona fide resident of the State, District, or Territory in which the vacancy exists and shall have the qualifications otherwise prescribed by law: *And provided further*, That the Superintendent of the Naval Academy shall make such rules, to be approved by the Secretary of the Navy, as will effectually prevent the practice of hazing; and any cadet found guilty of participating in or encouraging or countenancing such practice shall be summarily expelled from the Academy, and shall not thereafter be reappointed to the Corps of Cadets or be eligible for appointment as a commissioned officer in the Army or Navy or Marine Corps until two years after the graduation of the class of which he was a member.

"That the provisions of this act for the increase of appointments of midshipmen to the Naval Academy shall continue in force until the thirtieth day of June, nineteen hundred and thirteen; and thereafter one midshipman, as now provided by law, shall be appointed for each Senator, Representative, and Delegate in Congress.

"That hereafter there shall be at the Naval Academy one midshipman from Porto Rico, who shall be a native of said island, and whose appointment shall be made by the President on the recommendation of the governor of Porto Rico.

"That after January first, nineteen hundred and four, all candidates for admission to the Naval Academy at the time of their examination must be between the ages of sixteen and twenty years."

An act of Congress, approved April 9, 1906, reads as follows:

"AN ACT Granting authority to the Secretary of the Navy, in his discretion, to dismiss midshipmen from the United States Naval Academy and regulating the procedure and punishment in trials for hazing at the said academy.

*"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That it shall be the duty of the Superintendent of the United States Naval Academy, whenever he shall believe the continued presence of any midshipman at the said academy to be contrary to the best interests of the service, to report in writing such fact, with a full statement of the facts upon which are based his reasons for such belief, to the Secretary of the Navy, who, if after due consideration of the said report he shall deem the superintendent's said belief reasonable and well founded, shall cause a copy of the said report to be served upon the said midshipman and require the said midshipman to show cause, in writing and within such time as the said Secretary shall deem reasonable, why he should not be dismissed from the said academy; and after due consideration of any cause so shown the said Secretary may, in his discretion, but with the written approval of the President, dismiss such midshipman from the said academy. And the truth of any issue of fact so raised, except upon the record of demerit, shall be determined by a board of inquiry convened by the Secretary of the Navy under the rules and regulations for the government of the Navy.

"Sec. 2. That so much of the acts approved June twenty-third, eighteen hundred and seventy-four, and March third, nineteen hundred and three, as requires the Superintendent of the United States Naval Academy to convene a court-martial in all cases when it shall come to the knowledge of the said superintendent that any midshipman has been guilty of the offense commonly known as 'hazing,' and declares the finding of a court-martial so convened, when approved by the said superintendent, final, and directs that any midshipman found guilty by such court-martial shall be summarily dismissed from the said academy, and also all other acts or parts of acts inconsistent with the present act are hereby repealed, and that the offense known as 'hazing' may hereafter be proceeded against, dealt with, and punished as offenses against good order and discipline and for violation and breaches of the rules of said academy. But no midshipman shall be dismissed for a single act of hazing except under the provisions of section three of this act.

"Sec. 3. That the Superintendent of the United States Naval Academy may, in his discretion and with the approval of the Secretary of the Navy, cause any midshipman in the said academy to be tried by court-martial for the offense of hazing, as provided by the act approved June twenty-third, eighteen hundred and seventy-four, and such court-martial, upon conviction, may sentence such midshipman to any punishment authorized by the said act or by the act approved March third, nineteen hundred and three, or authorized for any violation or breach of the rules of the said academy by the said rules, or, in cases of brutal or cruel hazing may, in addition to dismissal, sentence such midshipman to imprisonment for a period not exceeding one year; *Provided,* That such midshipman shall not be confined in a military or naval prison or elsewhere with men who have been convicted of crimes or misdemeanors; and such finding and sentence shall be subject to review by the convening authority and by the Secretary of the Navy, as in the cases of other courts-martial.

"Sec. 4. That the offense of 'hazing,' as mentioned in this act, shall consist of any unauthorized assumption of authority by one midshipman over another midshipman whereby the last-mentioned midshipman shall or may suffer or be exposed to suffer any cruelty, indignity, humiliation, hardship, or oppression, or the deprivation or abridgment of any right, privilege, or advantage to which he shall be legally entitled.

"Sec. 5. That it shall be the duty of every professor, assistant professor, academic officer, or any cadet officer or cadet petty officer, or instructor, as well as every other officer stationed at the United States Naval Academy, to promptly report to the super-

intendent thereof any fact which comes to his attention tending to indicate any violation by a midshipman or midshipmen of any of the provisions of this act or any violation of the regulations of the said academy. Any naval officer attached to the academy who shall fail to make such report as provided in this section shall be tried by court-martial for neglect of duty, and if convicted he shall be dismissed from the service. Any civilian instructor attached to the academy who shall fail to make such report as provided in this section shall be dismissed by the superintendent of the academy upon the approval of the Secretary of the Navy.

"SEC. 6. That this act shall take effect from the date of its approval, but no midshipman now connected with the United States Naval Academy shall, by reason of its enactment, be punished for any offense heretofore committed otherwise than in pursuance of the sentence of a court-martial (if, by existing law, such sentence would be now necessary for such punishment) or punished more severely than is now by law allowed for any offense heretofore committed: *Provided*, That any midshipman now in said Naval Academy may waive his right to trial by court-martial under existing law for any offense of hazing heretofore committed and may accept punishment under the provisions of section two of this act."

By an act of Congress approved June 29, 1906, it was provided that—

"Hereafter the Secretary of the Navy shall, as soon as possible after the first day of June of each year preceding the graduation of midshipmen in the succeeding year, notify in writing each Senator, Representative, and Delegate in Congress of any vacancy that will exist at the Naval Academy because of such graduation, or that may occur for other reasons and which he shall be entitled to fill by nomination of a candidate and one or more alternates therefor. The nomination of a candidate and alternate or alternates to fill said vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate, if such recommendation is made by the fourth day of March of the year following that in which said notice in writing is given, but if it is not made by that time the Secretary of the Navy shall fill the vacancy by appointment of an actual resident of the State, Congressional district, or Territory, as the case may be, in which the vacancy will exist, who shall have been for at least two years immediately preceding the date of his appointment an actual and bona fide resident of the State, Congressional district, or Territory in which the vacancy will exist and of legal qualification under the law as now provided. In cases where by reason of a vacancy in the membership of the Senate or House of Representatives, or by the death or declination of a candidate for admission to the academy there occurs or is about to occur at the academy a vacancy from any State, district, or Territory that can not be filled by nomination as herein provided, the same may be filled as soon thereafter and before the final entrance examination for the year as the Secretary of the Navy may determine. The candidates allowed for the District of Columbia and all candidates appointed at large, together with alternates therefor, shall be selected by the President within the period herein prescribed for nomination of other candidates: *Provided*, That the President may select a candidate for the District of Columbia for the year nineteen hundred and eight.

"No person shall be admitted for instruction at the Naval Academy at Annapolis from any foreign country except upon authority of law hereafter enacted."

## MERIT ROLLS FOR 1907-1908.

---

Merit rolls, made out annually for each class, show the proficiency of the midshipmen in each branch of study. The numbers given in the table, showing the relative weight of the different branches, are used as coefficients; the final mark in each branch (on a scale of 4) being multiplied by the number assigned to that branch. The sum of the products, after adding the multiple for discipline, is the final mark of the midshipmen for the year.

In the case of midshipmen that take an advanced course in any branch the final mark in that branch is determined by adding to the final mark received in the required course one-fifth of the amount by which the final mark in the advanced course exceeds 2.50.

In the graduating merit roll the final standing for the course is determined by the sum of the yearly marks.

"Midshipmen who attain 85 per cent of the multiple in any year shall be distinguished by a star affixed to their names on the merit rolls." (Regulations United States Naval Academy, par. 186.)

The diplomas of midshipmen whose final marks on the graduating merit roll are not less than 85 per cent of the maximum read "passed with distinction;" those whose final marks are between 74 per cent and 85 per cent of the maximum read "passed with credit;" and those whose final marks are between 62½ per cent and 74 per cent of the maximum read "passed."

\* Received 85 per cent of the multiple.

† Found deficient, allowed a reexamination, passed, and continued with class.

†† Found deficient in conduct, warned, and continued with class.

‡ Retained in next lower class.

r Resigned.

d Dismissed, subsequent to annual examination.

p Continued with class after reexamination in deficient subject, completed at end of first term.

dd Died.

x Appointed assistant civil engineer.

xx Passed on second reexamination; to lose 20 numbers on Navy list, and turned back into the class in which his name appears.

A Absent annual examination by reason of sickness. Continued with class subject to delayed examinations.

a Absent by reason of sickness.

+++ Deficient in conduct, warned, and continued with class, subject to probationary summer practice cruise. Diploma held up until end of summer cruise.

[ddx Received 85 per cent of the multiple. Order of general merit on merit roll for four years' course No. 19, and on merit roll for first class year No. 19. Died May 17, 1908, prior to graduation of class. Receives final multiples, but no class standing. Diploma issued to parents.

## REGULATIONS GOVERNING THE ADMISSION OF CANDIDATES INTO THE NAVAL ACADEMY AS MIDSHIPMEN.

### NOMINATION.

The students of the Naval Academy are styled midshipmen.

Two midshipmen are allowed for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, and five each year from the United States at large. The appointments from the District of Columbia and five each year at large are made by the President.

One midshipman is allowed from Porto Rico, who must be a native of that island. The appointment is made by the President, on the recommendation of the Governor of Porto Rico.

After June thirtieth, nineteen hundred and thirteen, each Senator, Representative, and Delegate in Congress will be allowed to appoint but one midshipman instead of two.

The course for midshipmen is six years—four years at the Academy, when the succeeding appointment is made, and two years at sea, at the expiration of which time the examination for final graduation takes place.

Midshipmen who pass the examination for final graduation are appointed to fill vacancies in the lower grades of the Line of the Navy and of the Marine Corps.

"Hereafter the Secretary of the Navy shall, as soon as possible after the 1st day of June of each year preceding the graduation of midshipmen in the succeeding year, notify in writing each Senator, Representative, and Delegate in Congress of any vacancy that will exist at the Naval Academy because of such graduation, or that may occur for other reasons, and which he shall be entitled to fill by nomination of a candidate and one or more alternates therefor. The nomination of a candidate and alternate or alternates to fill said vacancy shall be made upon the recommendation of the Senator, Representative, or Delegate, if such recommendation is made by the 4th day of March of the year following that in which said notice in writing is given, but if it is not made by that time the Secretary of the Navy shall fill the vacancy by appointment of an actual resident of the State, Congressional district, or Territory, as the case may be, in which the vacancy will exist, who shall have been for at least two years immediately preceding the date of his appointment an actual and bona fide resident of the State, Congressional district, or Territory in which the vacancy will exist and of the legal qualification under the law as now provided. In cases where by reason of a vacancy in the membership of the Senate or House of Representatives, or by the death or declination of a candidate for admission to the Academy, there occurs or is about to occur at the Academy a vacancy from any State, district, or Territory that can not be filled by nomination as herein provided, the same may be filled as soon thereafter and before the final entrance examination for the year as the Secretary of the Navy may determine."—(*Act approved June 29, 1906.*)

Candidates allowed for Congressional districts, for Territories, and for the District of Columbia must be actual residents of the districts or Territories, respectively, from which they are nominated.

All candidates must, at the time of their examination for admission, be between the ages of sixteen and twenty years. A candidate is eligible for appointment on the day he becomes sixteen and is ineligible on the day he becomes twenty years of age.

## EXAMINATION.

"All candidates for admission into the Academy shall be examined according to such regulations and at such stated times as the Secretary of the Navy may prescribe. Candidates rejected at such examination shall not have the privilege of another examination for admission to the same class unless recommended by the Board of Examiners."—(Rev. Stat., §1515.)

When any candidate who has been nominated upon the recommendation of a Senator, Member, or Delegate of the House of Representatives is found, upon examination, to be physically or mentally disqualified for admission, the Senator, Member, or Delegate shall be notified to recommend another candidate, who shall be examined according to the provisions of the preceding section.

Beginning with the year nineteen hundred and four, but two examinations for admission of midshipmen to the Academy will be held each year, as follows:

1. The first examination to be held on the third Tuesday in April, under the supervision of the Civil Service Commission, at points named in the accompanying list. All those qualifying mentally who are entitled to appointment in order of nomination will be notified by the Superintendent of the Naval Academy when to report at the Academy for physical examination, and if physically qualified will be appointed.

Candidates nominated for the April examination may be examined at Washington, D. C., if so desired, or at any of the places in any State named in the above schedule.

Senators and Representatives are requested, when designating their nominees, to give the place at which it is desired they should be examined if nominated for the April examination.

2. The second and last examination will be held at Annapolis, Md., *only*, on the third Tuesday in June, under the supervision of the Superintendent of the Naval Academy. Candidates are examined mentally at this examination, and all those entitled to appointment will be directed to report for physical examination, as soon as practicable, at the Naval Academy.

Alternates are given the privilege of reporting for mental examination at the same time with the principal.

No examination will be held later than the third Tuesday in June.

The large number of midshipmen to be instructed and drilled makes this rule necessary, and it is to the great advantage of the new midshipmen themselves. The summer months are utilized in preliminary instruction in professional branches and drills, such as handling boats under oars and sails, and in seamanship, gunnery, and infantry drills. These practical exercises form most excellent groundwork as a preparation for the academic course.

The examination papers used in all examinations are prepared at the Naval Academy and the examinations of candidates are finally passed upon by the Academic Board.

Under the law, candidates failing to pass the entrance examination can not be allowed another examination for admission to the same class unless recommended for reexamination by the Board of Examiners.

The Civil Service Commission only conducts the examination of candidates whose names have been furnished by the Navy Department. All correspondence relative to the nomination and examination of candidates should be addressed to the Bureau of Navigation, Navy Department, Washington, D. C.

Candidates will be required to enter the Academy *immediately after passing the prescribed examinations.*

*No leave of absence will be granted to midshipmen of the fourth class.*

Candidates will be examined physically at the Naval Academy by a board composed of three medical officers of the Navy, whose decision will be final.

Candidates are required to be physically sound, well formed, and of robust constitution.

Any one of the following conditions will be sufficient to cause the rejection of a candidate, viz:

Feeble constitution, inherited or acquired.

Retarded development.

Impaired general health.

Decided cachexia, diathesis, or predisposition.

Any disease, deformity, or result of injury that would impair efficiency; such as—

Weak or disordered intellect.

Cutaneous or communicable disease.

Unnatural curvature of the spine, torticollis, or other deformity.

Inefficiency of either of the extremities or large articulations from any cause.

Epilepsy or other convulsions within five years.

Impaired vision, disease of the organs of vision, imperfect color sense; *visual acuteness must be normal, i. e., 20/20 for each eye without the aid of glasses.*

Impaired hearing or disease of either ear. The organs of hearing, both the conductive apparatus (outer and middle ear) and the percipient apparatus (internal ear) must be free from disease. In testing the hearing of the candidate, the voice, the ticking of a watch, and, if practicable, Politzer's acoumeter shall be employed.

The voice is a more reliable method of determining the acuteness of hearing than the ticking of an ordinary watch, as it allows for variations in hearing, with the modifications produced by changes in pitch and tone. Hearing in each ear must be normally acute to the spoken and whispered voice. In examining the acuteness of the hearing with the voice, one ear of the candidate should be closed while the other ear is being examined, and his eyes should be covered to prevent lip reading. The ticking of an ordinary watch should be heard a distance of 40 inches.

Chronic nasal catarrh, ozaena, polypi, or great enlargement of the tonsils.

Impediment of speech to such an extent as to impair efficiency in the performance of duty.

Disease of heart or lungs or decided indications of liability to cardiac or pulmonary affections.

Hernia, complete or incomplete, and undescended testis.

Varicocele, sarcocele, hydrocele, stricture, fistula, hemorrhoids, or varicose veins of lower limbs.

Disease of the genito-urinary organs.

Chronic ulcers, ingrowing nails, large bunions, cross or hammer toes, or other deformity of the feet.

Loss of many teeth, or teeth generally unsound. There shall be at least eight opposing molars, two on each side in each jaw.

Attention will also be paid to the stature of the candidate, and no one *manifestly* under size for his age will be received at the Academy. The height of candidates for

admission shall not be less than 5 feet 2 inches between the ages of 16 and 18 years, and not less than 5 feet 4 inches between the ages of 18 and 20 years; and the minimum weight at 16 years of age shall be 105 pounds, with an increase of not less than 5 pounds for each additional year, or fraction of a year over one-half. Any *marked* deviation in the height and weight relative to the age of a candidate will add materially to the consideration for rejection.

Candidates must be unmarried, and any midshipman who shall marry, or who shall be found to be married, before his final graduation, shall be dismissed the service.

Candidates will be examined mentally in punctuation, spelling, arithmetic, geography, English grammar, United States history, world's history, algebra through quadratic equations, and plane geometry (five books of Chauvenet's Geometry, or an equivalent). Deficiency in any one of these subjects may be sufficient to insure the rejection of the candidate.

#### GENERAL CHARACTER OF THE EXAMINATION.

READING AND WRITING.—Candidates must be able to read understandingly, and with proper accent and emphasis, and to write legibly, neatly, and rapidly.

SPELLING.—They must be able to write, from dictation, paragraphs from standard pieces of English literature, both prose and poetry, sufficient in number to test fully their qualifications in this branch. The spelling throughout the examination will be considered in marking the papers. The Academic Board are instructed not to reject a candidate whose only deficiency is in spelling when the mark therefor is above a certain figure, to be fixed by the board, subject to the revision of the Department.

PUNCTUATION AND CAPITALS.—They must be familiar with the rules for punctuation and for the use of capitals. In order to test their knowledge, sentences will be given for correction.

GRAMMAR.—Candidates must exhibit thorough familiarity with English grammar; they must be able to analyze and parse any sentence given, showing clearly the relations between the different parts of speech, and giving the rules governing those relations. The subject and predicate in the sentence must be given, with modifiers (if any), and also the part of speech, and kind, case, voice, mood, tense, number, person, degree of comparison, etc., as the case may be, of each word, and its relation to other words in the sentence.

They must be able to define the terms used in grammar, a number of which will be given as a test of their knowledge.

A composition on one of three subjects will be required.

Since the school grammars used in different parts of the country vary among themselves in their treatment of certain words, an answer approved by any grammar of good repute will be accepted.

GEOGRAPHY.—Candidates will be required to pass a satisfactory examination in descriptive geography, particularly of our own country. Questions will be given under the following heads: The definitions of latitude and longitude (including problems with regard to differences of time between places); the zones; the grand divisions of land and water; the character of coast lines; the climate of different parts of the United States; trade winds; the direction and position of important mountain chains and the locality of the higher peaks; the position and course of the principal rivers, their tributaries, and the bodies of water into which they flow; the position of important seas, bays, gulfs, and arms of the sea; the position of independent States, their boundaries and capital cities; the position and direction of great peninsulas and the situation of important and prominent capes, straits, sounds, channels, and the most important canals; great lakes and inland seas; position and political connection of important islands and colonial possessions; location of cities of historical, political, or commercial importance, attention being especially called to the rivers and bodies of water on which cities are situated; the course of a vessel in making a voyage between well-known ports.

The candidate's knowledge of the geography of the United States can not be too full or specific on all the points referred to above. Accurate knowledge will also be required on the position of the country with reference to other States, and with reference to latitude and longitude, of the boundaries and relative position of the States and Territories, of the name and position of their capitals, and of other important cities and towns.

**UNITED STATES HISTORY.**—The examination in this branch will include questions concerning the early settlements in this country; the forms of government in the colonies; the causes, leading events, and results of wars; and prominent events in the history of our Government since its foundation.

**WORLD'S HISTORY.**—Candidates must be familiar with the general history of the world, including the rise and the fall of empires and of dynasties; changes in territory as the result of wars or from other causes; the most important treaties of peace; the relations between church and state in different countries; in brief, such information as may be found in the ordinary general histories.

**ARITHMETIC.**—The candidate will be required—

To express in figures any whole, decimal, or mixed number; to write in words any given number; to perform with facility and accuracy the various operations of addition, subtraction, multiplication, and division of whole numbers, whether abstract or compound, and to use with facility the tables of money, weights, and measures in common use, including English money.

To reduce compound numbers from one denomination to another, and to express them as decimals or fractions of a higher or lower denomination; to state the number of cubic inches in a gallon and the relation between the troy and avoirdupois pounds, and to reduce differences of time to differences of longitude and *vice versa*.

To define prime and composite numbers; to give the tests of divisibility by 3, 5, 9, 11, 25, and 125; to resolve numbers into their prime factors, and to find the least common multiple and the greatest common divisor of large as well as of small numbers.

To be familiar with all the processes of common and decimal fractions; to give clearly the reasons for such processes, and to be able to use the contracted methods of multiplication and division given in the ordinary text-books on arithmetic.

To define ratio and proportion, and to solve problems in simple and compound proportion.

To solve problems involving the measurement of rectangular surfaces and of solids; to find the square roots and the cube roots of numbers, and to solve simple problems under percentage, interest, and discount.

The candidates are required to possess such a thorough understanding of all the fundamental operations of arithmetic as will enable them to apply the various principles to the solution of any complex problem that can be solved by the methods of arithmetic; in other words, they must possess such a complete knowledge of arithmetic as will enable them to proceed at once to the higher branches of mathematics without further study of arithmetic.

**ALGEBRA.**—The examination in algebra will include questions and problems upon the fundamental rules, factoring, greatest common divisor, least common multiple, algebraic fractions, equations of the first degree with one or more unknown quantities, simplification of expressions involving surds, and the solution and theory of quadratic equations.

**GEOMETRY.**—In geometry candidates will be required to give accurate definitions of terms used in plane geometry, to demonstrate any proposition of plane geometry as given in the ordinary text-books, and to solve simple geometrical problems, either by a construction or by an application of algebra.

# CHARACTER OF THE QUESTIONS AT EXAMINATION FOR ADMISSION (JUNE, 1908).

## DICTATION EXERCISE IN SPELLING.

The examiner will pronounce distinctly each word, repeating the word if necessary. Fifteen minutes are allowed for this subject.

## GRAMMAR.

### I.

Correct, if necessary, in whatever way seems desirable, the following sentences:

- Whom none but Heaven and you and I shall hear.
- Sense, and not riches, win esteem.
- Praise from a friend or censure from a foe  
Are lost on hearers that our merits know.
- Let me awake the king—he who lies there drenched with sleep.
- He comes, nor want nor cold his course delay.
- Where nothing save the waves and I  
Shall hear our mutual murmurs creep.
- My robe and mine integrity to heaven  
Is all I dare now call my own.
- The doctor, in his lecture, said that fever always produced thirst.

## II.

1. Sailing up the river, the whole town may be seen.
2. Verse and prose run into one another like light and shade.
3. We sorrow not as them that have no hope.
4. Now therefore come thou, let us make a covenant, I and thou.
5. He is not only accused of theft but of murder.
6. This man with his twelve children were notorious robbers.
7. Nothing but grave and serious studies delight him.
8. I am a plain blunt man that love my friend.

## III.

In the following sentences point out the subject, the predicate, and their modifiers, and parse the italicized words:

1. What art *thou*, speak, that *on* designs *unknown*,  
While others sleep, thus *range* the camp alone?
2. *Motionless* as a cloud the old *man* stood,  
*That* moveth altogether, *if it* move at all.

## IV.

Which of the bracketed words is right?

1. It can not be [me] [I] you mean.
2. [Who] [whom] do you think will be elected?
3. [Who] [whom] should I meet but my old friend?
4. The man [who] [whom] you thought was a guide turns out to be a scoundrel.
5. Velvet feels [smooth] [smoothly].
6. She looked [sweet] [sweetly] in a white gown.
7. The man feels [warm] [warmly].
8. Larks sing [sweet] [sweetly].
9. He is a man [who] [whom] I know is honest.
10. [Who] [whom] am I supposed to be?

## V.

Give the principal parts of the following verbs:

1. Bid (to order). 2. Bid (at auction). 3. Flee. 4. Fly. 5. Burst. 6. Plead.
7. Rise (intransitive). 8. Raise (transitive). 9. Sit. 10. Slay.

## GEOGRAPHY.

## I.

- (a) Name and fix the position of seven large cities, three important rivers, and the largest State, of South America.
- (b) Name and fix the position of seven large cities, three important rivers, and the largest State, of Europe.
- (c) Name two countries lately admitted into the family of nations as sovereign States.
- (d) 1. What States are separated by the Mississippi River? 2. In what does South America excel all other countries?

## II.

- (a) 1. Name the largest three cities of Canada. 2. What is the largest body of fresh water in the world? 3. Name and fix the positions of the largest five islands. 4. What is the most important engineering work now in progress?
- (b) Name the islands of the West Indies and their capitals. To what countries do they belong?
- (c) Tell about the Gulf Stream.
- (d) What are the tides? By what produced? Why are they not always of the same height?

## III.

- (a) State some of the uses of mountains.  
 (b) On what water is each of the following: 1. Duluth. 2. Gibraltar. 3. Glasgow.  
 4. Montevideo. 5. Rome. 6. Callao. 7. Albany. 8. Havana.  
 (c) What separates Mexico from the United States? Spain from France? New  
 Hampshire from Vermont? Arizona from California?  
 (d) Bound (1) Colorado, (2) Ecuador. Give the capital of each.

## IV.

- (a) What countries border on the Adriatic? The Baltic?  
 (b) Fix the position of the following: 1. Grampian Hills. 2. Pyrenees Mountains.  
 3. Green Mountains. 4. Tagus River.  
 (c) Fix the position of the following and tell to what countries they belong:  
 1. Balearic Islands. 2. Sardinia. 3. Isle of Man. 4. Society Islands.  
 (d) Where is marble obtained? What straight connects the Arctic and Pacific  
 oceans?

## UNITED STATES HISTORY.

## I.

- (a) Name the first ten Presidents of the United States.  
 (b) Give the approximate dates of the founding and fix the positions of—1. Harvard.  
 2. William and Mary. 3. Yale. 4. West Point. 5. United States Naval Academy.  
 (c) Give the date of La Fayette's return visit to America, and an account of the  
 honors and rewards given him.  
 (d) Give the dates of the following: 1. Landing of the Pilgrims. 2. Founding of  
 the first newspaper in America. 3. Battle of Bunker Hill. 4. Death of Washington.  
 5. Burning of the Capitol at Washington.

## II.

- (a) Outline briefly the condition of the colonies in 1763 in regard to population,  
 nationality, and form of government. How was the right to vote governed?  
 (b) Tell about the *Alabama* claims.  
 (c) Give briefly the causes of the American Revolution, period of time covered,  
 and terms of treaty that ended the war.  
 (d) When and where was: 1. The first permanent settlement made by the English  
 in America? 2. The first representative assembly ever convened in America?

## III.

- (a) Write briefly about: 1. Washington Irving. 2. S. F. B. Morse. 3. George Ban-  
 croft. 4. Decatur.  
 (b) Tell about Lewis and Clark's Expedition.  
 (c) What is the present status of Cuba? Porto Rico?  
 (d) Tell about the first transcontinental railroad.

## IV.

- (a) Give the date and place of the battle between the *Monitor* and the *Merrimac*.  
 (b) Give a brief account of the Trent affair.  
 (c) Who were: 1. Fenimore Cooper. 2. Israel Putnam. 3. Henry Clay.  
 4. Ericsson.  
 (d) Give the number (approximate) of Representatives in Congress; number of  
 Senators. What is the present ratio (approximate) of representation?

## WORLD'S HISTORY.

## I.

- (a) What were the date, causes, and results of the Crimean War? Countries engaged?  
 (b) Give the date and the provisions of the Treaty of Westphalia.  
 (c) Discuss the importance of the date 1066.

## II.

- (a) What period of time was covered by the reign of the Ptolemies? Where? Who was the last? Tell about the Battle of Arbela. Why was it one of the decisive battles of history?  
 (b) 1. What was the fundamental difference between the Greek colonization and the Roman? 2. Who were the first people to practice worship and belief in but one God?  
 (c) Explain briefly the following references: 1. Home Rule. 2. The Hegira. 3. The Inquisition. 4. The Reign of Terror.

## III.

- (a) Name and write briefly about one American author of note; one English; one French; one Italian. Give the period in which each lived, and mention at least one characteristic work.  
 (b) Write briefly about: 1. The Huguenots. 2. The Sepoy Mutiny.  
 (c) Tell about the voyage of Magellan.

## IV.

- (a) 1. Give approximately the period of time covered by "The Dark Ages." Why was this period so called? 2. In what countries did the following named royal houses reign: (a) Plantagenet; (b) Valois; (c) Hapsburg; (d) Stuart?  
 (b) What influence did the Greek games exert on the social, religious, and literary life?  
 (c) Tell about the voyage of Henry Hudson.

## V.

Tell when and where each of the following named persons lived, and what he is famous for: 1. Leonidas. 2. Xerxes. 3. Thackeray. 4. Bismarck. 5. Euclid. 6. Saladin. 7. Richelieu. 8. Byron. 9. Poe. 10. Newton.

## ARITHMETIC.

## I.

- (a) Divide 4.3046721 by .0729, and multiply 1.29608 by 3.125.  
 (b) Reduce  $\frac{4\frac{1}{2}}{7\frac{1}{2}}$  to a decimal, and .390625 to a proper fraction in its lowest terms  
 (c) Add  $4\frac{3}{12}$  to  $19\frac{1}{2}$ , after reducing each to decimal form.

## II.

- (a) Simplify  $4\frac{1}{2} + 5\frac{1}{4} + 6\frac{1}{8} \times 9\frac{1}{2} + 10\frac{1}{4} + 11\frac{1}{2}$   
 (b) Divide  $3\frac{1}{5} - 4\frac{3}{10} + 2\frac{1}{2}$  by  $3\frac{1}{5} - 2\frac{1}{10}$  by  $3\frac{1}{5}$ .

## III.

(a) Find the value of  $\frac{4-\sqrt{6}}{4+\sqrt{6}}$  to six decimal places.

(b) Find, to three decimal places, the dimensions of a cube which will hold a gallon of 231 cu. in.

## IV.

(a) If 576 cu. in. of gold weigh 405 lb. (Troy), and one grain can be beaten into a sheet of 56 sq. in., what will the thickness of a book of 2,268 such sheets?

(b) A sells an article to B at 25% profit; B sells to C at 20% profit; and C to D at 28% profit, and receives \$48. What was the original cost?

## V.

(a) A sum of money at simple interest amounted to \$2,172.80 in 2 yr. 7 mo. 18 days, and to \$2,303.20 in 3 yr. 11 mo. 27 days. Find principal loaned and rate of interest.

(b) With discharge pipe stopped, a bath tub can be filled by one faucet in 11½ min. or by the other faucet in 9 min. With discharge pipe open, both faucets run for 5 min.; then the discharge pipe is closed, and it requires 3½ min. more to fill the tub. How long does it take the discharge pipe to empty a full tub?

## VI.

(a) Two freight trains 240 yds. and 200 yds. long, respectively, take 25 seconds to pass each other when running in opposite directions, and 3½ minutes when running in the same direction. What are the speeds in miles per hour?

(b) A and B unite their farms of 3,000 and 5,000 acres, respectively. At the same time they take a third partner who pays them \$8,000, with the agreement that in the future ⅓ of the land shall belong to each. How is the \$8,000 to be divided between A and B?

## ALGEBRA.

## I.

(a) Simplify  $\frac{1}{x} \frac{x+a}{x^2+a^2} + \frac{1}{x} \frac{x-a}{x^2+a^2}$

and  $\frac{x^4-8x}{x^2-4x-5} \times \frac{x^2+2x+1}{x^3-x^2-2x} + \frac{x^2+2x+4}{x-5}$

(b) Find the G. C. D. of  $x^4+14x^3+71x^2+154x+120$  and  $x^4+6x^3+3x^2-26x-24$ .

## II.

(a) Solve the equations:  $\frac{2}{x} + \frac{1}{y} = 13$ ,  $\frac{1}{x} + \frac{2}{y} = 6$ .

Solve:  $\sqrt{x+3} + \sqrt{x+8} - \sqrt{4x+21} = 0$ .

(b) If the speed of a train per hour is reduced 4½ miles, it takes 1 hr. 48 min. longer to make 799 miles. Find the usual speed.

## III.

(a) Simplify:  $\frac{25\sqrt{3}-4\sqrt{2}}{7\sqrt{3}-5\sqrt{2}}$

Find the square root of  $141-24\sqrt{30}$ . An article selling for \$39 yields a gain per cent equal to its cost in dollars. Find the cost.

(b) Solve by completing the square:  $21x^2+8x-133=0$ . Find  $x$  and  $y$  from the equations  $x^2-y^2=1304$  and  $x^2+xy+y^2=163$ .

## IV.

(a) If the length of a rectangle be decreased by 3 yds. and its breadth be increased by  $1\frac{1}{2}$  yds., its area will be increased from 1,200 to 1,260 sq. yds. Find the sides of the rectangle. Interpret the negative values of  $x$  and  $y$  which result from your solution.

(b) A regular octagon is formed by cutting off the corners of a square whose edge is 1 ft. Find the side of the octagon.

## V.

(a) In a race of 440 yds. A gives B 20 yds. start and beats him by 2 seconds. In a second race A gives B a start of 4 seconds and beats him by 6 yds. What are the rates of A and B?

(b) The denominator of a fraction is 3 greater than twice the numerator; and if  $3\frac{3}{4}$  be added to the fraction, the sum is equal to the reciprocal of the original fraction. Find the fraction.

## GEOMETRY.

## I.

(a) Define trapezoid, and name and define the different kinds of parallelograms. Prove that any line through the intersection of the diagonals of a parallelogram bisects the parallelogram.

(b) Prove that the straight lines joining the middle points of the adjacent sides of any quadrilateral form a parallelogram.

## II.

(a) A perpendicular from C, the right angle of a right triangle, upon the hypotenuse divides it into segments of 2.88 inches and 5.12 inches. Find the length of the perpendicular, the lengths of the two sides, and the area of the triangle.

(b) Find the length of the tangents drawn from a point 10 inches from the center of a circle of 12 inches diameter, and the length of the chord joining the points of contact.

## III.

(a) Define geometric locus. The base of a triangle is two inches, and the angle opposite the base is  $30^\circ$ . Construct the locus of the vertex, and prove your construction.

(b) A circle is tangent internally at P to another circle of twice the radius. Prove that the small circle bisects every chord of the larger circle drawn from P.

## IV.

(a) Four points, A, B, C, and D, on the circumference of a circle divide it into parts proportional to 6, 9, 10, 11. Find the number of degrees in the angle formed (1) by the straight lines AB and AD, (2) by AD and BC, (3) by AC and BD, and (4) by AC and the tangent at A.

(b) Prove that the bisector of an internal angle of a triangle divides the opposite side into segments proportional to the adjacent sides. An angle of a right triangle is  $30^\circ$  and the opposite side is 1 ft.; find the segments formed by the bisector of the  $30^\circ$  angle.

## V.

(a) What are the area and the circumference of a circle in terms of its radius  $r$  and  $\pi$ ? Give an approximate value of  $\pi$  in decimals and in the form of a fraction. Show that the area of a circular ring is equal to the area of the circle which has for its diameter the chord tangent to the inner concentric circle.

(b) From a point P without a circle construct a tangent to the circle, and prove your construction.

## ADMISSION.

Candidates that pass the physical and mental examinations will receive appointments as midshipmen, and become students of the Academy. Each midshipman will be required to sign articles by which he binds himself to serve in the United States Navy eight years (including his time of probation at the Naval Academy), unless sooner discharged.

The pay of a midshipman is \$600 a year, commencing at the date of his admission.

Midshipmen will supply themselves, immediately upon their admission, with the following articles, viz:

One dress jacket.....	\$20.78	Twelve collars.....	\$1.50
One blouse.....	15.22	Eight pairs cuffs.....	1.44
One pair dress trousers.....	11.83	Eight pairs socks.....	1.60
One pair service trousers.....	6.68	* Eight towels.....	1.76
One overcoat.....	26.98	* Shaving outfit.....	2.43
One reefer.....	12.18	* Six pairs drawers (summer) ....	2.40
Two white blouses.....	3.50	* Six undershirts (summer). ....	2.40
Two pairs white trousers.....	3.20	One hand glass.....	.55
One mackintosh.....	9.50	One blue jersey.....	2.20
One cap cover.....	.30	Four blue jerseys.....	6.40
Eight work suits.....	8.00	Three white hats.....	1.26
Two pairs regulation leggings....	1.50	One jackknife.....	.42
One parade cap.....	3.10	Two lanyards.....	.24
One knit cap.....	.60	Six sheets.....	3.30
One mug.....	.08	Hammock clews.....	.55
One soap box.....	.78	One pair bathing trunks.....	.15
One laundry book.....	.20	Three pairs white gloves.....	.90
One pair blankets.....	4.20	Two clothes bags.....	.54
One pair overshoes.....	.70	One hammock mattress.....	3.00
Two pairs high shoes.....	8.00	a One requisition book.....	.25
Eight white shirts.....	4.40	a One pass book.....	.25
a Two stencils, ink, and brush....	.67	Four suits pajamas.....	5.60
a Wash basin and pitcher.....	.80	* One toothbrush.....	.25
a One pair gymnasium slippers....	.80	* Thread and needles.....	.62
* One whisk.....	.20	* Blacking brush and blacking....	.55
* One coarse comb.....	.13	* Nailbrush.....	.30
* One cake soap.....	.10	Six pillowcases.....	.84
* One hairbrush.....	.55	One black silk neckerchief.....	.45
* Stationery.....	1.37	Name plate.....	.11
* Twelve white handkerchiefs....	2.52		
* One pair suspenders.....	.40		191.53

When moving into quarters midshipmen will supply themselves with the following articles, viz:

a Two bedspreads.....	\$2.40	a One rug.....	\$0.90
a Two pairs drill gloves.....	1.10	a One hair mattress.....	5.10
a One slop jar.....	.90	a One broom.....	.30
a Two spatter cloths.....	1.00		13.45
One hair pillow.....	.75		
One mirror.....	1.00		

Articles marked *a* will not be taken on board the practice ship.

The articles marked\*, not being required to conform to a standard pattern, may be brought by the midshipmen from home, but all other articles must conform to the regulations, and must therefore be supplied by the storekeeper.

Each midshipman must, on admission, deposit with the pay officer the sum of \$60, for which he will be credited on the books of that officer, to be expended by direction of the Superintendent in the purchase of text-books and other authorized articles besides those enumerated in the preceding article.

All deposits for clothing and the entrance deposit of \$60 must be made before a candidate can be received into the Academy.

Checks for these deposits *must not be made payable to the order of the Superintendent*. They should be made payable to the candidate's own order and be presented to the pay officer of the Naval Academy at the time of deposit.

#### SUMMARY OF EXPENSES.

Deposit for clothing, etc.....	\$204.98
Deposit for books, etc.....	60.00
	<hr/>
	264.98

The value of clothing brought from home is to be deducted from this amount.

Each midshipman will be paid, as soon as adjusted by the Treasury Department, the amount of his actual expenses in traveling from his home to the Academy

## GENERAL REMARKS

---

1. There being no provision whatever for the payment of the traveling expenses of rejected candidates for admission, no candidate should fail to provide himself in advance with the means of returning home, in case of his rejection before either of the Examining Boards, as he may otherwise be put to considerable inconvenience.

2. It is suggested to all candidates for admission to the Naval Academy that, before leaving their places of residence for Annapolis, they should cause themselves to be *thoroughly examined by a competent physician*, particularly regarding eyesight, hearing, and heart trouble; and by a teacher or instructor in good standing. A defect, such as varicocoele, which is ordinarily removable by operation, should be remedied prior to appearing at the Naval Academy for physical examination. By such an examination any serious physical disqualification, or deficiency in mental preparation would be revealed, and the candidate probably spared the expense and trouble of a useless journey, and the mortification of rejection. It should be understood that the informal examination herein recommended is solely for the convenience and benefit of the candidate himself, and can in no manner affect the decision of the Examining Boards at Annapolis.

3. A sound body and constitution, suitable preparation, good natural capacity, an aptitude for study, industrious habits, perseverance, an obedient and orderly disposition, and a correct moral deportment, are such essential qualifications that candidates knowingly deficient in any of these respects should not, as many do, subject themselves and their friends to the chances of future mortification and disappointment by accepting appointments at the Naval Academy and entering on a career which they can not successfully pursue.

4. The selection of candidates, by competitive examination or otherwise, for nomination from any Congressional district, is entirely in the hands of the Member of Congress entitled to the appointment, and all applications for appointment or inquiries relative to competitive examinations should be addressed to the Congressman representing the Congressional district in which the vacancy exists.

**PRACTICAL INSTRUCTION OF MIDSHIPMEN.****DISCIPLINE.**

Infantry, schools of the squad, company, battalion, and brigade in close and extended orders; setting-up and bayonet exercises.

**SEAMANSHIP.**

Knotting and splicing; compass and lead line; ship nomenclature; cutting and fitting hemp rigging; cutting and fitting wire rigging; rowing, and the management of boats under oars and under sail; sailmaking; making up, bending, unbending, and handling sails; getting under way and anchoring; signaling; wig wag; semaphore; night; general; telegraphic, boat, and international; management of steam launches, steam fleet tactics with steam launches, and the practical handling of tugboats; use of sounding machine; securing boats for sea; mooring and clearing hawse; sail drill; handling heavy weights; steering a ship under way; war-game board.

**ORDNANCE.**

Artillery, schools of the battery and battalion; exercise and target practice with small arms and guns of main and secondary batteries; exercise with cane, smallsword, and broadsword; handling and firing torpedoes; use of Riehlé testing machines; determinations of velocities; experimental determination of range tables, also of the jump and drift; the preparation, inspection, care, and preservation of ordnance material.

**NAVIGATION.**

The practical work in this department continues throughout the academic year, details of midshipmen being employed during each period assigned to this department at work in the chart room, at compass work in the model room, or in field work with the various navigational and surveying instruments. The character of the work may be outlined under the following heads:

*Navigation.*—Practical work with charts, including a study of the information and tidal data given on them; laying off courses and measuring distances on different projections; transferring great circle routes from great circle charts to mercator charts; different methods of plotting positions and laying down "Sumner lines," and the general uses of "Sumner lines;" pilotage and chart work into and out of the principal

harbors on the coasts of the United States and when coasting; use of soundings and contour lines, especially in a fog; correction of charts and publications from information furnished by "Notices to Mariners." Adjusting a sextant and a stadimeter; observations with sextant and artificial horizon for time, longitude, chronometer error, latitude, and azimuth. Winding and comparing chronometers and methods of keeping records of same on board ship. Rating chronometers by noon-time signal.

*Compass deviations.*—Swinging a model ship and obtaining deviations of the compass, the approximate and exact coefficients,  $\lambda$  and the starboard angle; compensation of the compass, using a Navy binnacle, Type VI. From observation of deviations and the vibrations of horizontal and vertical needles on two courses, the horizontal and vertical forces acting on the compass and the exact coefficients are found, and the compass is again compensated. The same compass work is done later in the course on board a modern vessel in Chesapeake Bay.

*Surveying.*—Adjustment of and field work with theodolite and plane table. Surveying and constructing a chart of a portion of the Severn River.

*Work afloat.*—At the practical exercises under way, on Saturdays in good weather and also throughout the summer practice cruises, the midshipmen are required, under the supervision of an officer from this department, to perform all the general duties of a navigator, with particular reference to the adjustment and use of the navigational instruments on board, to practical pilotage, and at sea to the determination of the ship's position by observation.

#### MARINE ENGINEERING AND NAVAL CONSTRUCTION.

*Shopwork.*—The Pattern Shop: Selection and treatment of different woods for different purposes; elementary work of the carpenter shop, through mortising, joining, etc., to finish pattern work.

The Foundry: Iron and brass casting; the making of bronzes, alloys, etc.

The Blacksmith Shop: Forging, welding, etc.; tempering, casehardening, etc.; bending and quenching tests of metals.

The Boiler Shop: Riveting, soft and hard patching, calking, annealing, tube expanding, etc.; testing.

The Coppersmith Shop: Soldering, hard and soft; sweating patch on a copper pipe; making copper pipe; putting flanges on a pipe; use of oil furnace and oil heater.

The Machine Shop: Vise bench work; machine tool work—including the setting of work; turning; planing; boring; slotting, etc.; pipe fitting; preparation of working drawings and working from the same.

*Ship work.*—Management of main and auxiliary engines; fire-room and engine-room routine, firing, water tending, and oiling; management of engines while maneuvering at sea; determining the condition and locating defects in machinery while in motion; trying under banked fires; coming to anchor; overhauling machinery; cleaning boilers and condensers.

*Miscellaneous.*—Use of slide rule, averaging machine, apparatus for testing oils and smoke gases; standardizing steam gauges and indicators; preparing specification for purchase of machinery and stores; testing, inspection, and preservation of stores; selection of coals; making of watch, quarter, and station bills; boiler test; use of pyrometers; running of explosive engines; torsion meter; steam turbines; pneumatic and hydraulic machinery; water meters; wier; traps; ice machines; air and carbonic anhydride; power measuring, by indicator and dynamometer; metal and cement testing; fuel and steam calorimeter tests; fireroom timing device; distilling plant; pulsometer; hydraulic ram; air compressors, Rand and Westinghouse; engine governors; long-arm doors; steering and anchor engines; docking ships, Simpson and Dewey docks.

## CLASS OF 1871 PRIZE.

---

The members of the class graduated from the United States Naval Academy in 1871, desiring in a permanent way to "Emphasize and record their loyalty to the Government, their affection for their Alma Mater, and their regard for the naval service," subscribed in 1904 a certain sum of money to be known as the "Class Fund of 1871, United States Naval Academy," which fund was transferred by duly authorized and executed deed of gift to trustees. This deed of gift is recorded in the office of the recorder of deeds, District of Columbia, and copies of it are filed in the offices of the Secretary of the Navy and of the Superintendent of the Naval Academy.

By the terms of the deed of gift the income of this fund shall be employed for the purchase each year of a prize to be known as the "Class of 1871 Prize," to consist of a suitable Navy dress sword and knot, to be presented to "that midshipman of each graduating class of the United States Naval Academy who has completed the prescribed course, and who shall be considered by the Superintendent, the commandant of midshipmen, and the head of the department of ordnance and gunnery, as the most proficient in practical and theoretical ordnance and gunnery."

"This prize is to be accompanied by an appropriately engraved letter containing the names of the donors and setting forth the purpose of the gift, and expressing the hope of the class of 1871 that the encouragement thus offered by old class members, both in and out of the service, to younger ones, will serve to increase the interest already existing among the midshipmen in an important professional science and art."

The "Class of 1871 Prize" has been awarded as follows:

- 1905, to Midshipman Royal Eason Ingersoll.
- 1906, to Midshipman William Alexander Glassford, jr.
- 1907, to Midshipman Arthur William Frank.
- 1908, to Midshipman Eugene Edward Wilson.

<b>THOMPSON TROPHY:</b>	<b>Total.</b>
For having done the most to promote athletic sports at the Naval Academy . .	25
<b>PRESENTATION SWORD:</b>	
For personal general excellence in athletics . . . . .	25
Total for athletics . . . . .	1, 230
Total for professional subjects . . . . .	1, 645
Grand total . . . . .	2, 875

The athletic events take place under the supervision of the executive committee, Navy Athletic Association, and the results submitted to the Superintendent for approval.

The data and records are kept in the office of the officer in charge of athletics, who submits the final standing of companies for approval.

In scoring points for fencing, gymnasium, and handling football a midshipman can not score more than one first and others are dropped out.

Three points additional are assigned for each "Star" or "Cross Oar" awarded during the year.
